If a vacancy occurs in said office after a recall election has been so ordered, the election shall nevertheless proceed as in this section provided.

SECTION 24. Any officer sought to be recalled may be a candidate to succeed himself, and, unless he requests otherwise in writing, the town clerk shall place his name on the official ballot without nomination. The nomination of other

SECTION 27. No recall petition shall be filed against a town officer within three months after he takes office, nor, in the case of an officer subjected to a recall election and not removed thereby, until at least three months after such election.

SECTION 28. No person who has been recalled from an office, or who has resigned from office while recall proceedings were pending against him, shall be appointed to any town office of the town within two years after such removal by recall or resignation.

If the act is accepted by a majority of the qualified voters voting thereon, it shall take effect forthwith for the purpose of the next annual town meeting and for all things pertaining thereto, and shall take full effect upon the qualification of a majority of the selectmen first elected as provided in section three.

If this act is rejected by the qualified voters of the town of Canton when first submitted to said voters under this

At any time, except as hereinafter provided, after the expiration of five years from the date on which this act is accepted, and not less than ninety days before the date of an annual town election, a petition signed by not less than fifteen per cent of the qualified voters of the town may be filed with the selectmen, requesting that the question of revoking the acceptance of this act be submitted to the voters. Thereupon the selectmen shall cause to be printed on the official ballot, used for the election of town officers, the following question: — "Shall the acceptance by the town of Canton of an act passed by the General Court in the year nineteen hundred and forty-one, entitled 'An Act Establishing a Town Manager Form of Government for the Town of Canton', be revoked?" If such revocation is favored by a majority of the voters voting thereon by ballot, the acceptance of this act shall be revoked from and after the date of the annual town meeting next following such vote. The revocation of such acceptance shall not affect any contract then existing or any action at law or suit in equity or other proceeding then pending. If such acceptance shall be revoked as aforesaid, this act shall become null and void from and after the date of such annual town meeting, and thereafter all general laws respecting town government and town officers shall apply to the town of Canton, and any special laws relative to said town which are repealed or made inoperative by this act shall be revived or again made operative by such revocation. By-laws in force when the revocation takes effect, so far as they are consistent with general laws respecting town government and town officers and with such special laws, shall not be affected thereby, but any by-law inconsistent with this act shall be revoked. A vote on the question of revoking the acceptance of this act shall not be taken oftener than once in every three years.

AN ACT DEFINING, AND AUTHORIZING THE USE OF, A SYSTEM OF PLANE CO-ORDINATES FOR DESIGNATING AND STATING POSITIONS OF POINTS ON THE SURFACE OF THE EARTH WITHIN THE COMMONWEALTH.

Chap. 47

Be it enacted, etc., as follows:

Chapter ninety-seven of the General Laws is hereby amended by adding at the end the six following new sections:— *Section 8.* The system of plane rectangular co-ordinates which has been established by the United States Coast and Geodetic Survey for defining and stating the positions or locations of points on the surface of the earth within the commonwealth shall be known and designated as the “Massachusetts co-ordinate system”, hereinafter and in the five following sections referred to as said system.

G. L. (Ter. Ed.), 97, new §§ 8–13, added. “Massachusetts co-ordinate system” defined.

For the purposes of the use of said system the commonwealth is hereby divided into a mainland zone and an island zone.

The area now included in the following counties shall constitute the mainland zone:— Barnstable, Berkshire, Bristol, Essex, Franklin, Hampden, Hampshire, Middlesex, Norfolk, Plymouth, Suffolk and Worcester.

Mainland zone.

The area now included in the counties of Dukes county and Nantucket shall constitute the island zone.

Island zone.

Section 9. As established for use in the mainland zone, said system shall be named, and in any land description in which it is used it shall be designated, the “Massachusetts co-ordinate system, mainland zone”.

Zones, how designated.

As established for use in the island zone, said system shall be named, and in any land description in which it is used it shall be designated, the “Massachusetts co-ordinate system, island zone”.

Section 10. The plane rectangular co-ordinates of a point on the earth’s surface, to be used in expressing the position or location of such point in the appropriate zone of said system, shall consist of two distances, expressed in feet and decimals of a foot. One of these distances, to be known as the “x-co-ordinate”, shall give the position in an east-west

Co-ordinates defined.

direction; the other to be known as the "y-co-ordinate", shall give the position in a north-south direction. Such co-ordinates shall be referred to the appropriate origin as defined in section eleven, and shall be made to depend upon and conform to the plane rectangular co-ordinates of the triangulation and traverse stations of the United States Coast and Geodetic Survey within the commonwealth, as these co-ordinates have been determined by said survey.

Definitions.

Section 11. For the purpose of more precisely defining said system, the following definition by the United States Coast and Geodetic Survey is hereby adopted:

The Massachusetts Co-ordinate System, Mainland Zone, consists of a Lambert conformal projection of the Clarke spheroid of eighteen hundred and sixty-six, having the standard parallels at north latitudes forty-one degrees forty-three minutes and forty-two degrees forty-one minutes, along which parallels the scale shall be exact. The origin of co-ordinates for this zone is at the intersection of the meridian seventy-one degrees thirty minutes west longitude and the parallel forty-one degrees no minutes north latitude. This origin is given the co-ordinates:

$$x = 600,000 \text{ feet; } y = 0 \text{ feet.}$$

The Massachusetts Co-ordinate System, Island Zone, consists of a Lambert conformal projection of the Clarke spheroid of eighteen hundred and sixty-six, having the standard parallels at north latitudes forty-one degrees seven minutes and forty-one degrees twenty-nine minutes, along which parallels the scale shall be exact. The origin of co-ordinates for this zone is at the intersection of the meridian seventy degrees thirty minutes west longitude and the parallel forty-one degrees no minutes north latitude. This origin is given the co-ordinates:

$$x = 200,000 \text{ feet; } y = 0 \text{ feet.}$$

The position of said system shall be as marked on the ground by triangulation or traverse stations established in conformity with the standards adopted by the United States Coast and Geodetic Survey for first-order and second-order work, whose geodetic positions have been rigidly adjusted on the North American datum of nineteen hundred and twenty-seven, and whose plane co-ordinates have been computed on the system herein defined. Any such station may be used for establishing a survey connection with said Massachusetts co-ordinate system.

Section 12. The use of the term "Massachusetts co-ordinate system" on any map, report of survey, or deed or other document, shall be limited to co-ordinates based on the Massachusetts co-ordinate system as defined in section eleven.

Section 13. For the purpose of describing the location of any survey station or land boundary point in the common-

wealth it shall be a complete, legal and satisfactory description of such location to give the position of said survey station or land boundary point on the Massachusetts coordinate system. Nothing contained in sections eight to thirteen, inclusive, shall be interpreted as requiring any purchaser or mortgagee to rely exclusively on a description based on said system. *Approved February 28, 1941.*

Whereas, Provisions of law similar in substance to those contained in this act have been in effect for a considerable period and will shortly cease to be effective, but the circumstances and conditions which made advisable their enactment still continue and it is accordingly desirable that the provisions of this act take effect before such provisions cease to be effective or as soon as possible thereafter; therefore, it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

So long as such credit remains in such deferred share account, no further monthly payments of any amount on account of such shares shall be required, nor shall any fines be imposed, and dividends shall be credited thereto at the regular dividend dates at the same rate that prevails on the serial shares. Deferment of payments as aforesaid shall extend for such period or periods, not exceeding two years at any one time, as may be determined by the directors, and at the termination of such period or periods of deferment the shareholder shall be required by the directors to reinvest such portion of the accumulation as he may elect in serial shares and withdraw that portion not so reinvested. If by virtue of the foregoing proviso the company does not make the full rental payments as above provided, the commonwealth shall, during the term of said contract and until the subway bonds issued by the city of Boston under this section shall have been paid, or a sinking fund accumulated sufficient to pay the same at maturity, pay to the city of Boston on or before August first in each year to and including the year nineteen hundred and thirty-four, and on or before May first in each year thereafter to and including the year nineteen hundred and forty-one, and on or before February first in each year thereafter, one half of any amounts so unpaid, and the city of Boston shall place the other half in its next ensuing tax levy.

SECTION 2. Said chapter three hundred and forty-one is hereby further amended by striking out section three, as most recently amended by section two of said chapter one hundred, and inserting in place thereof the following

section: — *Section 3.* If, as of the last day of June in any year to and including the year nineteen hundred and thirty-four, or as of the last day of March in any year thereafter to and including the year nineteen hundred and forty-one, or as of the last day of December, nineteen hundred and forty-one, or as of the last day of December in any year thereafter, during the period of public operation of the company under the provisions of said chapter one hundred and fifty-nine, the reserve fund provided for in said chapter shall, after deducting the amount of the rental herein provided for, exceed the amount originally established, the trustees of the Boston Elevated Railway Company shall apply the excess, so far as necessary, to reimburse the commonwealth for all amounts paid by the commonwealth to the city of Boston under the provisions of section two of this act, and in priority to any reimbursement of the commonwealth under sections eleven and thirteen of said chapter one hundred and fifty-nine.

SECTION 3. Said chapter three hundred and forty-one is hereby further amended by striking out section five, inserted by section three of chapter three hundred and ninety-four of the acts of nineteen hundred and thirty, and as amended by section three of said chapter one hundred, and inserting in place thereof the following section: — *Section 5.* Upon and after such termination of public operation, the company shall, on or before the thirty-first day of January in each year, report to the state treasurer the amount, if any, by which said reserve fund on the preceding thirty-first day of December, after deducting the amount of the rental herein provided for, exceeded the amount originally established, and the company shall thereupon pay over such excess in so far as necessary to reimburse the commonwealth for all amounts paid after such termination of public operation by the commonwealth to the city of Boston under the provisions of section two of this act. If the state treasurer or the attorney general is not satisfied as to the correctness of said report, either may, at any time within sixty days after its receipt, petition the department of public utilities for a determination of such excess and said department shall determine the same. If the amount of such excess, so determined, is greater than the amount originally reported, the balance shall be paid by the company to the commonwealth within twenty days from the date of such determination.

SECTION 4. The acceptance of this act by the Boston Elevated Railway Company and the city of Boston, as hereinafter provided, shall constitute an agreement on the part of the city and the company to execute a contract modifying, in accordance with the provisions of this act, the existing contract between the city and the company for the use of the alterations and extensions of the Boylston Street subway made pursuant to the provisions of said chapter three hundred and forty-one, as amended.

SECTION 5. This act shall take full effect upon its acceptance both by vote of the city council of the city of Boston, approved by the mayor, and by the Boston Elevated Railway Company by vote of its board of directors, and upon filing of certificates of such acceptances with the state secretary; provided, that such acceptances, approval and filing occur during the current year.

Approved March 25, 1941.

Chap. 141 AN ACT ESTABLISHING THE BASIS OF APPORTIONMENT OF STATE AND COUNTY TAXES.

Emergency
preamble.

Whereas, It is essential to the determination of the municipal tax rates that any new basis of apportionment of the state and county taxes be fixed promptly, and the deferred operation of this act would cause great inconvenience in the determination of such tax rates, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

The number of polls, the amount of property and the proportion of every thousand dollars of state tax, including polls at one tenth of a mill each, for each city and town in the several counties of the commonwealth, as contained in the following schedule, are hereby established, and shall constitute a basis of apportionment for state and county taxes for the years nineteen hundred and forty-one, nineteen hundred and forty-two and nineteen hundred and forty-three, or until another is made and enacted by the general court, to wit:

Section 7. No construction work shall be done under Part II of this act, however, unless and until a plan therefor shall be approved by the commission of the department of public utilities and the mayor of the city and unless and until a contract between the city and the company shall have been executed for the sole and exclusive use by the company of the premises and equipment for a term beginning with the use thereof and ending upon the termination of the lease or contract for use as at present extended of the Boylston street subway. Any plan so approved may be altered at any time by a new plan approved in like manner except

that after the execution of said contract for use no such alteration shall be made without the consent thereto of the company in writing nor at any time except with the approval of said emergency finance board, the governor and such approvals as may be required under the provisions of the National Industrial Recovery Act or regulations made thereunder. The contract shall be in the same general form as that authorized by said chapter four hundred and eighty, except in so far as any other provision may be agreed upon by the department and the company as specially applicable to the demised premises. The net cost of the premises and equipment shall be determined in the manner provided in said chapter four hundred and eighty, except that there shall be deducted from the amount so determined all amounts received by the city as direct grants, or by remission of bonds or other obligations, or in any manner or form whatsoever amounting in substance directly or indirectly to a contribution to the cost of the premises and equipment under the National Industrial Recovery Act. The rental shall be payable annually on the twenty-fifth day of April in each year to and including the year nineteen hundred and forty-one and on the twenty-fifth day of January in each year thereafter. If by virtue of the foregoing provisos the company is not required to make the full rental payment as above

provided for the premises and equipment authorized by this act, the city shall place any amounts so unpaid in its next ensuing tax levy.

SECTION 2. The acceptance of this act by the Boston Elevated Railway Company and the city of Boston, as hereinafter provided, shall constitute an agreement on the part of the city and the company to execute a contract modifying in accordance with the provisions of this act the existing contract between the city and the company for the use by the company of the premises and equipment authorized to be acquired, constructed and provided pursuant to the provisions of Part II of said chapter three hundred and sixty-six, as amended.

Chap. 240 AN ACT INCORPORATING NEW ENGLAND DEPOSIT LIBRARY,
REGULATING THE OPERATION OF SAID LIBRARY AND AUTHORIZ-
ING CERTAIN PARTICIPATING INSTITUTIONS, SO CALLED,
TO MAKE USE OF ITS FACILITIES.

Emergency
preamble.

Whereas, Rapidly rising building costs make it desirable in the public interest that the building construction contemplated by this act be undertaken as promptly as possible to the end that various non-profit libraries now in urgent need of additional book storage space may not be delayed in obtaining the same, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Dennis A. Dooley, state librarian; Milton E. Lord, director of the Public Library of the City of Boston, hereafter called the Boston Public Library; Elinor Gregory, librarian of the Boston Athenaeum; Allyn B. Forbes, librarian of the Massachusetts Historical Society; William J. Murphy, president of Boston College; Daniel L. Marsh, president of Boston University; Keyes D. Metcalf, director of the Harvard University Library; William N. Seaver, librarian of Massachusetts Institute of Technology; and their respective successors in such offices, together with such other persons as may be elected as provided in section three to represent other libraries, or as otherwise may be associated with them or succeed them, are hereby constituted and made a corporation by the name of New England Deposit Library for the purposes of providing and maintaining, in such manner and to such extent as the governing board of said corporation shall determine, a place or places of deposit and storage of books, pamphlets, photographs, music scores, phonograph records, moving picture films and other articles or documents containing written or printed matter belonging to or in the possession of libraries operated by the United States, by the commonwealth or any other state, by any city or town, by any subdivision, board or agency of the commonwealth or of any other state or of any city or town, by any non-profit institution, or by any literary, educational, charitable, religious or scientific society, corporation, association or trust, and of providing library facilities and services of any kind or description with respect to such books and other articles.

The objects of the corporation hereby created shall be exclusively charitable, educational, scientific and literary, and said corporation shall have perpetual existence, until and unless dissolved in accordance with law.

No funds of said corporation shall be distributed among its own members, but all such funds shall be devoted solely to the carrying out of the purposes for which said corporation is created. Said corporation shall have no capital stock.

SECTION 2. Said corporation shall have authority to hold for the purposes aforesaid real and personal estate in any amount, which estate or its income shall be devoted to the purposes set forth in this act or to such other charitable, educational, scientific or literary purposes as the corporation may be permitted to engage in by lawful amendment of its charter. All property of said corporation, however received or acquired, and all bequests, devises or gifts to said corporation, shall be deemed to be for or held for valid charitable purposes.

SECTION 3. The incorporators named in section one and their successors in the offices which in said section they are respectively described as occupying shall constitute the members of said corporation, and said members may from time to time in their discretion elect, by a two thirds vote of all the members for the time being, as additional members not more than one person to represent each library which may be admitted by the governing board of said corporation to the use of the facilities and services of said corporation. The members of said corporation as such shall have only such powers as are expressly granted to them by this act.

The term "participating institution" when used in this act shall be deemed to refer to any body politic, city or town, public board or agency, non-profit institution, library, or literary, educational, charitable, religious or scientific society, corporation, association or trust (a) which is expressly mentioned in section one of this act or which maintains a library which has been admitted by the governing board of said corporation to the use of the facilities and services of said corporation, and (b) which continues to utilize such facilities and services. No library, institution, society, corporation, association or trust formed to engage in business for profit shall become a participating institution. Unless otherwise provided by a contract with said corporation, any participating institution may cease to be such and may cease to utilize the facilities and services of said corporation by delivering to said corporation, addressed to its treasurer, six months' written notice of its intention to cease to be a participating institution upon a date stated in said notice; provided, that the state library, the Boston Public Library, the commonwealth or any city, town or subdivision thereof, or any department, board or agency of the commonwealth or of any city, town or subdivision thereof may cease to be a participating institution at any time by delivering to said corporation not less than one hundred and twenty days' written notice of intention to cease to be a participating institution upon a date stated in the notice.

Whenever any participating institution shall cease to utilize the facilities and services of said corporation, any member or members of the corporation representing such institution shall cease to be such members. The determination of two thirds of the members of the governing board shall

be final as to the right of any person to remain a member of said corporation. The governing board may provide by regulation for the disposition of books and other material deposited with it by participating institutions ceasing to utilize the facilities and services of the corporation, which fail to remove such books and material after reasonable notice.

The whole control and government of said corporation, subject only to the powers expressly granted by this act to its members, shall be vested in a governing board consisting of seven directors. Until and including February first, nineteen hundred and forty-six, or until their respective successors as directors are duly elected and qualified, the directors shall be the individuals respectively occupying each of the following positions, viz., state librarian, librarian of the Boston Athenaeum, director of the Boston Public Library, librarian of Boston College, librarian of the library of the College of Liberal Arts of Boston University, director of the Harvard University Library and the librarian of Massachusetts Institute of Technology and their respective successors from time to time in said offices, and such individuals shall continue to be directors or to be entitled to serve as such only while occupying such positions. After February first, nineteen hundred and forty-six, and so long as the state library and the Boston Public Library, respectively, shall continue to be participating institutions, the individuals occupying the offices of state librarian and director of the Boston Public Library, respectively, and their respective successors from time to time in the said offices, while occupying said offices, shall each be directors of said corporation, and the remaining five directors shall be selected in the manner hereinafter provided in this section. If the state library or the Boston Public Library, respectively, shall at any time cease to be participating institutions, the state librarian or the director of the Boston Public Library, respectively, as the case may be, shall cease to be a director, and thereafter, for each of said two institutions ceasing to be a participating institution, an additional director shall be elected at each election in the manner hereinafter provided in this section. From and after February first, nineteen hundred and forty-six, the five directors remaining to be elected, and any additional director or directors to be elected by reason of the fact that the state library and the Boston Public Library, or either of them, shall have ceased to be participating institutions, shall be chosen at five year intervals, as hereinafter provided, by the members of said corporation other than the members representing the state library and the Boston Public Library, which institutions so long as they severally are participating institutions shall be represented by the state librarian and the director of the Boston Public Library, respectively, as aforesaid. In any such election the members entitled to vote shall have voting power in proportion to the use of the facilities and services

of said corporation for which each participating institution which they severally represent shall have been paying, as determined by the governing board as of November first of the year next prior to the year in which such election shall be held; provided, that no member representing any participating institution shall be entitled to exercise more than forty per cent of the total voting power at any such election. The first such election shall be held at a meeting of the members of the said corporation to be held at such time as the governing board shall select, not later than February first, nineteen hundred and forty-six, or at a meeting called thereafter in lieu of such meeting if by inadvertence or otherwise such meeting shall not be called seasonably. Every subsequent election shall take place at a meeting to be called by the governing board in January of every fifth year following the year nineteen hundred and forty-six, or at a meeting in lieu of such meeting if by inadvertence or otherwise such meeting shall not be called seasonably. Such directors so elected shall serve for terms expiring five years from February first in the year of their election and until their respective successors are elected and qualified. Whenever a vacancy shall occur in the elected membership of said governing board, the remaining directors may fill such vacancy for the balance of the unexpired term. Any vacancy which may exist in the governing board from time to time by reason of the fact that there is for the time being no occupant of an office, the holder of which is ex-officio a member of the governing board, may be filled for so long as such condition exists by the remaining directors, and any other vacancy occurring prior to February first, nineteen hundred and forty-six, may be filled by the remaining directors until such date. No person shall be eligible to election as a director or shall continue to be a director who is not a member of said corporation or a trustee, officer or librarian or a member of the faculty or the teaching staff of a participating institution. Any member of the corporation may vote on any matter at any meeting of the members of the corporation either in person or by written proxy given as of a date not more than six months prior to such meeting.

SECTION 4. Said governing board shall elect a president, a treasurer, a clerk and such other officers as they may deem necessary, and may prescribe their duties, and may, but need not, require the treasurer to give bond with satisfactory sureties in such sum as in their discretion they may deem wise and expedient. The directors of said corporation shall not be entitled to any compensation for their services as such directors, but may by vote of the governing board be granted and paid their reasonable traveling and other expenses incurred in the service or work of said corporation, but no bill for such expenses shall be submitted or paid unless it has first been approved by the treasurer of said corporation.

SECTION 5. The governing board may from time to time make, adopt, alter, amend and repeal by-laws and rules and regulations consistent with law for the conduct of the affairs and services of said corporation. Said governing board, with the approval of a majority of the members present at a meeting of the members called for the purpose, may effect any amendment of the charter or purposes of said corporation which a corporation formed for similar purposes under chapter one hundred and eighty of the General Laws could lawfully effect. Said corporation shall have all the powers and privileges, and be subject to all the restrictions, duties and liabilities, set forth in all general laws now or hereafter in force relating to such corporations, except as otherwise provided herein. Said corporation shall not be subject to sections one to six, inclusive, and sections twelve, twenty-six and twenty-six A of chapter one hundred and eighty of the General Laws. In addition to all other powers granted by this act and by the provisions of the General Laws, said corporation shall have the following powers:

(a) To furnish, lease or rent storage space and library facilities to participating institutions;

(b) To purchase, convey or lease real and personal property within or beyond the limits of the commonwealth as may be necessary or expedient for the purposes of its organization;

(c) To carry on such activities consistent with its corporate purposes as may be convenient or desirable, either within or beyond the limits of the commonwealth, including, without limitation of the foregoing, the maintenance of a service of delivery of books and other articles deposited with it to depositors and others by messenger, mail or otherwise;

(d) To make contracts, incur liabilities and borrow money from any person or persons, including without limitation any participating institution other than the commonwealth or a subdivision or agency thereof or any city or town, on the credit of said corporation and for its use, and to mortgage or pledge any of its real or personal property to secure loans, but no mortgage of any real estate of the corporation shall be made except upon the affirmative vote of two thirds of the members of the governing board at a meeting of said board called for the purpose;

(e) To have perpetual succession in its corporate name;

(f) To receive, accept, purchase, or otherwise acquire, hold, administer and dispose of property of any kind and description which at any time and from time to time may or shall be given, devised, bequeathed, conveyed, sold, transferred or assigned to said corporation in connection with or for or in furtherance of the purposes and objects to be served and accomplished by the creation of the corporation, or any of them;

(g) To publish, purchase, sell, circulate and distribute, in such manner as the governing board shall from time to time deem expedient, any and all educational, literary,

scientific or scholarly publications, books, catalogs and periodicals dealing with the books and other material deposited in said library or available in participating and other libraries.

SECTION 6. If and to the extent that such authorization may be necessary or expedient, the President and Fellows of Harvard College are hereby given full authority from time to time in their discretion to convey or to lease to said corporation, either without consideration or upon such terms and conditions as may be agreed upon by said corporation and said President and Fellows, the whole or any part of any land in the Brighton district of Boston lying in general northeasterly of the junction of Cambridge and Win-dom streets and within fifteen hundred feet of said junction which said President and Fellows may now own or may hereafter acquire, or any other land in the commonwealth owned by them, and in the discretion of said President and Fellows, not required for the corporate purposes of said President and Fellows, but nothing in this section shall be construed as requiring any such conveyance or lease.

The said land while owned or leased by said corporation and all property, real or personal, and income of said corporation and all books, pamphlets, documents, or other articles deposited with said corporation and owned by said corporation or by any participating institution shall be exempt from taxation by the commonwealth or any agency or subdivision thereof or by any city or town. Said corporation shall not be subject to any tax upon or with respect to its income or corporate franchise.

SECTION 7. Full power and authority are hereby given to the trustees of the state library, the trustees of the Boston Public Library, and to any city or town or any other subdivision, board, department or agency of the commonwealth or of any of its cities, towns or subdivisions, or to any board having custody of any publicly owned library and to any charitable, educational, scientific, religious, or literary corporation, institution, association or trust, and to any participating institution, and to the directors, trustees, librarians and other officers of any of the foregoing

(1) To deposit with said corporation any books, pamphlets, documents, or other articles which the governing board of said corporation is willing to receive;

(2) To participate as provided in this act, but subject to and in accordance with the duly adopted by-laws or rules and regulations of said corporation, in the management of said corporation and to hold office in said corporation;

(3) To make contracts with said corporation for the storage of books, pamphlets and other articles and for library facilities and service connected therewith for such term or period as they or any of them and said corporation may deem proper and to pay therefor a reasonable charge, which in the case of the commonwealth or any subdivision thereof, of any city or town or of any board, department or agency

of the commonwealth or any subdivision thereof, shall not exceed a reasonable charge based upon an equitable allocation, as determined by the governing board in accordance with any applicable by-laws or rules or regulations which it may adopt, (a) of the operating and maintenance expenses of said corporation, including reasonable repair, depreciation and contingency reserves, and (b) of the expenses of debt service, insurance of the structures and equipment owned by said corporation and amortization of loans incurred for buildings, library equipment and other facilities provided by said corporation;

(4) Except in the case of the commonwealth or any subdivision thereof, or of any city or town, or of any board, department or agency of the commonwealth or any subdivision thereof, or any city or town, to make grants or gifts to said corporation in aid of the construction or provision of storage or library facilities, buildings and equipment, the amount and nature of which contributions may be taken into account in such manner as the governing board may determine in fixing the amount of any charges for storage and library facilities and service to the participating institution making such grant or gift; provided, that the foregoing provision shall not be deemed to authorize any expenditures of funds held upon specific trust which by the terms of such trust may not properly be expended for such purpose.

Nothing in this act shall be construed to require said corporation to permit any library, city, town, body politic, or public agency, or any corporation, institution, association or trust to utilize the facilities of said corporation, unless the governing board shall approve such use and then only subject to the by-laws and rules and regulations of said corporation and to such terms and conditions as the governing board may determine. The trustees of the state library and the state librarian shall have full authority to deposit books and other articles with said corporation notwithstanding the provisions of sections thirty-three to thirty-nine, inclusive, of chapter six of the General Laws. Any contract made with said corporation by or in behalf of the state library or with respect to books or other property in the custody of the state librarian or of any other agency, department or board of the commonwealth shall be subject to approval by the board of trustees of the state library. Any contract made with said corporation with respect to books or other property of the Boston Public Library shall be subject to approval by the board of trustees of said library. Any contract made with said corporation by any city or town or other subdivision of the commonwealth or by any board or agency of any such city, town or subdivision, shall be subject to approval by the board or officers having power to make contracts with respect to the same. Any contract made by or in behalf of the commonwealth or any city, town or subdivision thereof or of any depart-

ment, board or agency of the commonwealth or of any city, town or subdivision thereof shall contain a provision that the payment of storage charges, or rents, or of any fee for library facilities and services, shall be made only from valid appropriations made or thereafter to be made from which the payment of such charges, rents and fees can properly be made. Any books, pamphlets, documents, records or other articles deposited with said corporation or in a building owned or used by said corporation shall remain the property of and shall be held on deposit wholly at the risk of the participating institution making such deposit or other owner, unless the depositor or owner shall transfer title to such books, pamphlets, documents or other articles to said corporation. Nothing in this act shall be construed to prevent the state library, the Boston Public Library, the commonwealth or any city, town or subdivision thereof or any department, board or agency of the commonwealth or of any city, town or subdivision thereof from ceasing to be a participating institution at any time in the manner provided in section three.

SECTION 8. The provisions of the various sections of this act are hereby declared to be separable and if any such provision, or the application of such provision to any person or circumstance, shall be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions of said sections or the application of such provision to persons or circumstances other than those as to which it is held invalid. It is hereby declared to be the legislative intent that said sections would have been enacted had such invalid or unconstitutional provision not been included therein. Without limitation of the foregoing, it shall not affect the validity of any of the other provisions of this act, or the validity of any provision of this act with respect to any other person, if it shall be held that any participating institution or any officer of any participating institution or any public body or officer, notwithstanding the provisions of this act, is without authority to do any act or thing or to make any expenditure or grant or to carry out any duty or power or exercise any authority, which this act or any provision of this act purports to authorize or require.

And for the purposes aforesaid, said town may, within its limits, make and maintain sub-drains, and, with the approval of the department of public health, discharge the water from such sub-drains into any brook, stream or water course within said town.

SECTION 2. Said town may make and maintain in any way therein where main drains or common sewers are constructed, such connecting drains, under-drains and sewers within the limits of such way as may be necessary to connect any estate which abuts upon the way.

SECTION 3. Said town may, at any annual town meeting, after its acceptance of this act as hereinafter provided, vote to elect a board of sewer commissioners, and if it so votes at such meeting it shall elect by ballot at the next succeeding annual town meeting a board of three sewer commissioners who shall be citizens of said town, to hold office, one until the expiration of one year, one until the expiration of two years, and one until the expiration of three years, from such meeting at which they are elected, and until their successors are qualified; and thereafter at each annual town meeting said town shall elect one member of the board to serve for three years and until his successor is qualified.

Said town may, at any time thereafter, by any and all the methods permitted by general law, provide that the selectmen may act as a board of sewer commissioners or that a board of sewer commissioners be elected.

Such an agreement may provide for the payment by said town of a stated sum at the time when the connection is made, or for a yearly payment beginning in the year in which the connection is made, or both. Such payments may be based upon the relative quantities of sewage contributed for treatment by said federal government and by said town.

SECTION 10. The receipts from sewer assessments and from payments made in lieu thereof shall be appropriated for the payment of charges and expenses incident to the maintenance and operation of said system or systems of sewerage and sewage disposal or to the extension thereof, to the payment of interest upon bonds or notes issued for sewer purposes, or to the payment of such bonds or notes.

Such rules and regulations shall be published at least once a week for three successive weeks in some newspaper published in the town of Ayer, if any there be, and, if not, then in some newspaper published in the county of Middlesex, and shall not take effect until such publications shall have been made.

SECTION 14. Upon application to said department for its approval, it shall give a hearing, after due notice to the public. At such hearing, plans showing in detail all the work to be done in constructing such system or systems of sewerage and sewage disposal shall be submitted for approval by said department.

SECTION 15. This act shall take full effect upon its acceptance by vote of the majority of the voters of the town of Ayer voting thereon at any town meeting called for the purpose within five years after its passage.

their names printed upon the official ballot, although in consequence there be printed thereon the names of candidates to a number exceeding twice the number to be elected.

If in consequence it shall appear that no names are to be printed upon the official ballot to be used at any preliminary election in any ward or wards of said city, no preliminary election shall be held in any such ward or wards.

SECTION 10. So much of chapter two hundred and thirty-nine of the acts of eighteen hundred and ninety-seven, and acts in amendment thereof and in addition thereto, as is inconsistent herewith is hereby repealed.

naval service.

Section 36C. For the accommodation of any owner of record of the equity of redemption who is actually in military or naval service of the United States, or who is the wife or a dependent member of the family of such a person, or for the accommodation of any owner of record of the equity of redemption who is otherwise temporarily unable to make payments to such corporation on account of his loan because of unemployment or other emergency, the directors of such corporation may suspend or waive so much of the monthly payments as would otherwise be credited to principal, but only for a period not in excess of one year at any one time.

The amount of the loan remaining due as aforesaid shall be payable as provided in the following paragraph with interest payable monthly at the rate existing at the time of the suspension, and shall be subject to such fine as may be prescribed by the by-laws of the corporation and to foreclosure or other remedy provided by law in case of default; provided, that the person seeking such accommodation shall sign a written request therefor stating his reasons and agreeing in consideration thereof to abide fully by the terms of this and the following paragraph and also all requirements of said directors, who shall be the sole judges of the necessity of the accommodation and of the time when such accommodation shall be terminated.

Upon the expiration of the period of accommodation, or of such shorter period as the owner of the equity of redemption may request, unless the amount of the principal payments which were suspended are paid and the fixed monthly payments resumed, or unless the fixed monthly payments have been changed by agreement pursuant to section thirty-six D, said directors shall cause to be computed the monthly payments necessary to effect the payment of the indebtedness at the expiration of the term set forth in the note and mortgage; whereupon said owner of the equity of redemption shall be required to assent in writing to the resumption and increase in the monthly payments. Failure to assent to such resumption and increase when so required shall render said balance immediately due and payable, and payment thereof may be enforced against the security by foreclosure proceedings or by any other remedy provided by law for the collection of debts.

Section 36D. With the approval of the board of directors of any such corporation, at the request of the owner of the equity of redemption and upon a certification of the security committee of such corporation that the then balance of the amount due does not exceed eighty per cent of the value of the mortgaged premises, the amount of the fixed monthly payments called for by any such note and mortgage may be changed; provided, that any such change shall not result in the extension of the term of such loan beyond twenty years from the date of such change; and provided, further, that such change shall be evidenced by an instrument setting forth such change, payments and mortgage extension.

Extension
of term
of loan.

Such a corporation shall be formed in the manner prescribed in and subject to section nine of chapter one hundred and fifty-five and sections six and eight to twelve, inclusive, of chapter one hundred and fifty-six, except as follows:

Medical service corporations, organization.

The agreement of association of a corporation having no capital stock may omit the statement of the amount of the capital stock and the par value and number of its shares. The fee to be paid to the state secretary upon the filing of the articles of organization shall be ten dollars.

The articles of organization specified in section ten of said chapter one hundred and fifty-six, with the records and by-laws of the corporation, shall be submitted to the commissioner instead of to the commissioner of corporations and taxation, and he shall have the powers and perform the duties relative thereto specified in section eleven of said chapter one hundred and fifty-six.

The certificate issued by the state secretary under section twelve of said chapter one hundred and fifty-six shall be modified to conform to the requirements of this section.

The commissioner shall not approve the articles of organization of such a corporation until he is satisfied by such examination as he may make and such evidence as he may require, that the incorporators are of good repute and intend in good faith to operate the corporation. He shall execute a certificate of his findings, which shall be attached to the articles of organization prior to the filing thereof with the state secretary.

Approval of commissioner.

Section 3. The by-laws of a medical service corporation may contain any lawful provisions approved by the commissioner and shall provide that a majority of the directors shall at all times be persons approved in writing by a medical society incorporated in the commonwealth not less than ten years and having not less than two thousand registered physicians as members, and that not less than one third of the directors shall be persons who are or who agree to become subscribers to the non-profit medical service plan.

Section 6. A subscription certificate shall be issued to each subscriber of a medical service corporation. No subscription certificate shall be issued unless the commissioner shall have approved in writing the form of certificate nor unless it contains in substance the following provisions:—

(b) A statement of the duration of the agreement and of the terms and conditions upon which it may be extended, renewed, revised, canceled or otherwise terminated.

(c) A statement of the period of grace which will be allowed for making any payment due from the subscriber under the contract, which in any event shall not be less than ten days.

Section 7. Every registered physician shall have the right, on complying with such rules and regulations as the corporation may make, to enter into a written agreement with a medical service corporation, doing business in the city or town where the said physician resides or has his usual place of business, to perform medical service. This chapter shall not change the normal relations between physician

and patient. No restriction shall be placed by any such corporation upon its participating physicians as to methods of diagnosis or of treatment. No officer, agent or employee of a medical service corporation shall influence or attempt to influence a subscriber or a covered dependent in his choice of a participating physician. A subscriber or a covered dependent, subject to the by-laws, rules and regulations of a medical service corporation and the terms and provisions of his subscription certificate, shall be entitled to the benefits of this chapter upon receiving medical service from any participating physician or, in the discretion of the corporation, upon receiving medical service from any non-participating physician in an emergency or when outside the commonwealth. A corporation may terminate its agreement with any participating physician at any time (a) for failure to comply with the reasonable rules and regulations of such corporation, including without limitation such rules and regulations as may be adopted governing the keeping of accounts, records, and statistics, the making of reports and proof of services rendered, or (b) for presenting any fraudulent, unreasonable, or improper claim for payment, or compensation.

Section 8. Every medical service corporation shall annually, on or before the first day of March, file in the office of the commissioner a statement, verified by at least two of the principal officers of said corporation, showing its condition as of the thirty-first day of December next preceding. Such statement shall be in such form and shall contain such matters as the commissioner shall prescribe. A corporation neglecting to file its annual statement within the time herein specified shall forfeit one hundred dollars for each day during which such neglect continues, and upon notice by the commissioner to that effect, its authority to do business shall cease while such default continues.

Annual statement to be filed.

Section 9. The commissioner, or any deputy examiner or any other person designated by the commissioner, shall, at least once in three years, and whenever the commissioner deems it prudent, visit any medical service corporation and examine into its affairs. The commissioner shall have free access to all of the books, records and papers of the corporation, and may summon and examine under oath its officers, agents, employees and other persons in relation to its affairs and condition. The commissioner shall require every such corporation to keep its books, records, accounts and vouchers in such manner that he or his authorized representatives may readily verify its annual statements and determine whether the corporation has complied with the law.

Examination of corporation by department of insurance.

Section 10. The funds of a medical service corporation shall be invested only in such securities as are permitted by chapter one hundred and seventy-five for the investment of the capital of insurance companies, or it may deposit the whole or any portion of its funds in any savings bank or savings department of a trust company organized

The commissioner may require any such corporation after the first full calendar year of doing business to accumulate and maintain a special contingent surplus, over and above its reserves and liabilities, in such amount as the commissioner may deem proper.

Payment of
salaries, etc.,
regulated.

Section 11. Unless each such payment is first authorized by a vote of its board of directors, no medical service corporation shall pay any salary, compensation or emolument to any officer, trustee or director thereof, or any salary, compensation or emolument to any person amounting in any year to more than five thousand dollars. No such corporation shall make any agreement with any of its officers, trustees or employees whereby it agrees that for any services rendered or to be rendered to it, they shall receive any salary, compensation or emolument for a period of more than three years from the date of such agreement.

All decisions and orders of the board or of the commissioner made under any provision of this chapter may be revised as justice and equity may require upon a petition in equity filed, within ten days after the promulgation of such decision or order in the superior court within and for the county of Suffolk by any party aggrieved by such decision or order.

Corporation
may be en-
joined from
doing business
when insol-
vent, etc.

Section 13. If the commissioner is satisfied, as to any medical service corporation, that (1) it has failed to comply with the provisions of its charter, or (2) it is being operated for profit, or (3) it is fraudulently conducted, or (4) its condition is such as to render its further transaction of business hazardous to the public or to its subscribers, or (5) its officers and agents have refused to submit to an examination under section nine, or (6) it has exceeded its powers, or (7) it has violated any provision of law, or (8) it has compromised, or is attempting to compromise, with its creditors on the ground that it is financially unable to pay its claims in full, or (9) it is insolvent, he may apply to the supreme judicial court for an injunction restraining it from further proceeding with its business. The court may forthwith issue a temporary injunction restraining the transaction of any business, and it may, after a full hearing, make the in-

junction permanent, and appoint one or more receivers to take possession of the books, papers, moneys and other assets of the corporation, settle its affairs, and distribute its funds to those entitled thereto, subject to such rules and orders as the court may prescribe.

Section 14. Every medical service corporation is hereby declared to be a charitable corporation. No such corporation shall be liable for injuries resulting from negligence or malpractice on the part of any participating physician or of any of its employees, nor shall it be liable for the cost of medical services to which the subscriber or covered dependent may be entitled under the provisions of any workmen's compensation law. Every such corporation shall be exempt from all provisions of the insurance laws of the commonwealth, except as otherwise provided in this chapter. The property of every such corporation shall, except as hereinafter provided, be exempt from all state and local taxes.

Liability of corporation limited.

Section 15. Every corporation subject to this chapter shall annually, on or before March first, make a return to the commissioner of corporations and taxation, signed and sworn to by a majority of its board of directors, of the total amount of subscription dues paid by subscribing members during the preceding calendar year, and shall pay to said commissioner an excise of one per cent upon the amount of such dues. If said corporation neglects to make such return, it shall forfeit fifty dollars for each day such neglect continues.

Annual return to commissioner of corporations and taxation.

Section 16. It shall be unlawful for any person, firm, corporation or association, except a medical service corporation, to establish, maintain or operate a non-profit medical service plan; provided, however, that this chapter shall not render unlawful or affect any operation or activity of any company organized under the provisions of chapter one hundred and seventy-five, of any society or fraternal benefit society organized under the provisions of chapter one hundred and seventy-six or subject to any of the provisions thereof, of any non-profit hospital service or medical service corporation organized under the provisions of chapter one hundred and seventy-six A or one hundred and seventy-six C, or of any corporation organized or to be organized under chapter one hundred and eighty, the existence, purposes, activities and operations of which were lawful or would be lawful notwithstanding the provisions of this chapter.

Be it enacted, etc., as follows:

The

amount so paid for any year upon any such property shall not exceed the taxes that would be paid under the laws of this commonwealth upon such property if it were not exempt from taxation.

SECTION 4. When the president of the United States shall have declared that the emergency declared by him on September eighth, nineteen hundred and thirty-nine, to exist, has ceased to exist, any housing acquired and held by housing authorities under section one shall, if the state board of housing shall determine that there is need therefor, thereafter be held and used as housing for persons in the service or the employ of the war department or the navy department of the United States; or, if said state board shall determine that there is need therefor, shall thereafter be held and used as low-rent housing for families of low income, and the provisions of said sections twenty-six I to twenty-six HH, inclusive, shall, so far as apt, be applicable to such housing. If said state board shall determine that such housing is not needed for either of the foregoing purposes, it shall be disposed of on as advantageous terms as possible.

SECTION 5. Any vote, action, contract or other act taken or entered into by the state board of housing or a housing authority subsequent to the declaration of the president of the United States on September eighth, nineteen hundred and thirty-nine, that an emergency exists, which would have been valid if this act had been in force when taken or entered into is hereby ratified and confirmed, to the same extent as if this act had then been in force.

All authority vested in said commissioners by the foregoing provisions of this section shall be subject to section eight. Said commissioners shall annually, and as often as the town may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of the receipts and expenditures.

Any reinsurance agreement may provide that the liquidator or receiver or statutory successor of an insolvent ceding insurer shall give written notice of the pendency of a claim against the insolvent ceding insurer on the policy or contract reinsured within a reasonable time after such claim is filed in the insolvency proceeding and that during the pendency of such claim the assuming insurer may investigate such claim and interpose, at its own expense, in the proceeding where such claim is to be adjudicated any defense or defenses which it may deem available to the ceding company or its liquidator or receiver or statutory successor. Subject to court approval, the expense thus incurred by the assuming insurer shall be chargeable, against the insolvent ceding insurer as part of the expense of liquidation, to the extent of a proportionate share of the benefit which may accrue to the ceding insurer solely as a result of the defense undertaken by the assuming insurer.

One of the duplicates of such agreement shall thereupon be filed with the state secretary, who shall cause the same to be recorded and shall issue a certificate of reincorporation to the continuing corporation or the new company with the powers retained and specified in the agreement, and the other duplicate shall be retained by the commissioner. No such agreement shall take effect until it has been filed in the office of the state secretary as aforesaid. The continuing corporation or the new company may require the return of the original certificates of stock held by each stockholder in each of the companies merged or consolidated and issue in lieu thereof new certificates for such number of shares of its own stock as the stockholder may be entitled to receive. Upon such merger or consolidation all rights and properties of the several companies shall accrue to and become the property of the continuing corporation or the new company which shall succeed to all the obligations and liabilities of the merged or consolidated companies, in the same manner as if they had been incurred or contracted by it. The stockholders or policyholders of the merged or consolidated companies shall continue to be subject to all the liabilities, claims and demands existing against them at or before such merger or consolidation. No action or proceeding pending at the time of the merger or consolidation in which any or all of the companies merged or consolidated may be a party shall abate or be discontinued by reason of the merger or consolidation, but the same may be prosecuted to final judgment in the same manner as if the merger or consolidation had not taken place, or the continuing corporation or the new company may be substituted in place of any company so merged or consolidated by order of the court in which the action or proceeding may be pending. Nothing in this section shall authorize the merger or consolidation of stock companies with mutual companies.

Nothing in this section shall authorize the merger or the consolidation of stock companies with mutual companies.

No such merger or consolidation shall be made unless it is evidenced by a written agreement assented to by a vote of the majority of the board of directors of each domestic company participating in such merger or consolidation and, if such domestic company is a stock company, approved by the votes of the stockholders owning at least two thirds of the capital stock of such company at a special meeting called for the purpose and, if it is a mutual company, approved by the votes of at least two thirds of such policyholders as are present and voting at a special meeting called as aforesaid. Notice of any such meeting shall be given in accordance with law and shall also be published at least once a week for three successive weeks in such newspaper or newspapers printed in the commonwealth and in such form as the commissioner shall direct.

No such agreement shall be made by any domestic company until a copy thereof, and such other information as the commissioner may require, has been filed with him, nor until it has received from the commissioner a written authorization, in such form as he may prescribe, authorizing it to merge or consolidate and to execute such agreement. The commissioner may, in his discretion, refuse to issue such an authorization in any case, and his decision shall be final.

The secretary of any such domestic company shall forthwith upon the execution of such agreement file with the commissioner, in such form as he may require, documentary evidence thereof, showing the effective date when the merger or the consolidation shall become effective. If the commissioner finds that such agreement has been executed in

accordance with his authorization, he shall file forthwith in the office of the state secretary a certificate setting forth the fact, including said effective date, and the corporate existence of such company shall cease and determine on said effective date.

The stockholders or the policyholders of any domestic company so merging or consolidating shall continue to be subject to all the liabilities, claims and demands existing against them at or before such merger or consolidation. No action or proceeding pending in any court of the commonwealth at the time of the merger or consolidation in which any such domestic company may be a party shall abate or be discontinued by reason of the merger or the consolidation, but may be prosecuted to final judgment in the same manner as if the merger or the consolidation had not taken place, or the continuing, surviving or resulting company may be substituted in place of any such domestic company by order of the court in which the action or proceeding is pending.

SECTION 3. Said chapter one hundred and seventy-five is hereby further amended by inserting after section nineteen B, as so inserted, the following new section: — *Section 19C.* If any stockholder of either of the corporations merging or consolidating under the authority of section nineteen A or nineteen B does not vote in favor of the proposed merger or consolidation, he shall have, and may exercise, the rights given to a stockholder of a business corporation under section forty-six of chapter one hundred and fifty-six.

Chap. 369 AN ACT PROVIDING FOR THE ACQUISITION BY THE CITY OF BOSTON OF THE PROPERTY OF THE DEDHAM AND HYDE PARK GAS AND ELECTRIC LIGHT COMPANY LOCATED WITHIN SAID CITY AND THE LEASE THEREOF TO THE BOSTON CONSOLIDATED GAS COMPANY.

Be it enacted, etc., as follows:

SECTION 1. The city of Boston, hereinafter referred to as the city, acting through its public works department, and without other authority than that contained in this act, may at any time before January first, nineteen hundred and forty-three, purchase or take by eminent domain the property of the Dedham and Hyde Park Gas and Electric Light Company located within said city.

SECTION 2. The taking or takings by eminent domain authorized herein shall be made and damages therefor determined and paid under and in accordance with chapter seventy-nine of the General Laws. The city, acting by its transit department, with the approval of the mayor, may make payment for damages for all property taken under authority of this act out of the proceeds of bonds issued by the city under authority of section six, but if the amount of the proceeds available from such bonds is insufficient to pay the full amount of such damages the city shall nevertheless be liable for such damages, irrespective of any legal limit of indebtedness previously provided by law.

SECTION 3. Before acquiring any property under authority of this act, said public works department, in the name and on behalf of the city, shall execute a contract in writing with the Boston Consolidated Gas Company, hereinafter called the company, upon such terms and conditions, not inconsistent with the provisions of this act, as said public works department and the board of directors of the company may agree upon, for the use by the company of the property proposed to be acquired, for such term as may be agreed upon by said public works department and the company. The company shall pay for the use of the premises a rental at the rate of four and one half per cent per annum upon the fair and reasonable value of the property as agreed upon by said public works department and the company, or, in case of difference, as determined by the department of public utilities. In case the company shall be kept out of possession or deprived of the use of the premises, or any part thereof, by any act on the part of the city or of any person or corporation claiming an adverse interest in said property, the rental or a just and reasonable part thereof as agreed upon by said public works department and the company, or, in case of difference, as determined by said department of public utilities, shall be suspended or abated during the time the company is so kept out of possession or deprived of the use of the property, or any part thereof. In case the city shall, during the term of such contract for use, reimburse the company for capital expenditures upon the property as provided in section four, the amount of such reimbursement shall be added to the fair and reasonable value of the property for the purpose of determining the rental thereafter payable by the company for the use of the property.

SECTION 4. Said contract for use shall require the return of the property to the city at the termination of said use in as good order and condition as at the beginning, and shall provide that the company may from time to time make such alterations, replacements, additions and improvements in and to the property as the company shall deem to be necessary or advisable to put the property in good operating condition; provided, that no such alterations, replacements, additions or improvements shall be made, except in case of emergency, without the written consent of said public works department or a certificate from said department of public utilities that the proposed work is reasonably necessary or advisable to put the property in good operating condition. In case of any such alteration, replacement, addition or improvement, said department of public utilities shall on application of the company determine what proportion thereof, if any, constitutes a proper charge against capital, and the city shall thereupon pay the same to the company. If the city shall not make said payments when due, the company shall be entitled to deduct the amount thereof,

with interest, from any rental subsequently payable to the city for the use of the property.

SECTION 5. There shall be made, as of the date when the use of the property by the company begins and as of the date when the use terminates, a full and complete inventory, description and valuation of the property by a board of three persons, one appointed by said public works department, one by the company, and the third chosen by the two so appointed or, in case of their failure to agree upon a third person, by the governor. In case the valuation so made as of the date when the use begins, plus all capital improvements and betterments for which the company has been reimbursed by the city, shall exceed the valuation at the termination of the use, the company shall pay over to the city an amount equal to such excess, and in case such valuation as of the date when the use begins, plus all capital improvements and betterments for which the company has been reimbursed by the city, is less than the amount of the valuation at the termination of the use, the city shall pay over to the company an amount equal to such deficit.

SECTION 6. The treasurer of the city shall from time to time, on request of the transit department, and without further authorization than herein contained, issue and sell at public or private sale the bonds of the city, registered or with interest coupons attached, as he may deem best, to an amount not exceeding, in the aggregate, the cost of carrying out the provisions of this act. Such bonds shall bear on their face the words, Hyde Park Gas Loan, shall be for such terms, not exceeding forty-five years, as the mayor and treasurer of the city may determine; and shall bear interest, payable semi-annually, at such rate as the treasurer shall determine. The proceeds of such bonds, including any premium realized from the sale thereof, shall be used to meet all damages, cost and expenses incurred by said public works department or by the city in carrying out the provisions of this act. The board of commissioners of sinking funds of the city shall establish a sinking fund for the payment of the bonds issued under authority of this act. The proceeds from any sale or sales of property taken, or acquired by purchase or otherwise, under authority of this act shall be used for the same purpose as the rental of said property or shall be used for the payment of expenditures incurred for the acquisition of said property, as said public works department may determine. All rentals, tolls, percentages or other compensation received by the city under the provisions of this act shall annually be used by the treasurer of the city, first, to meet the requirements of any deficiency in said sinking fund; second, to meet the interest on said bonds; and the surplus, if any, as a part of the general revenue of the city. The city shall have, hold and enjoy in its private or proprietary capacity, as and for its own property, the property acquired by it under the provisions of this act, and all rents, tolls, income and profits from all contracts en-

tered into by it for the use of said property or any part thereof, and the same shall never be taken by the commonwealth except on payment of just compensation.

Debts incurred by the city for the purposes of this act shall not be considered in determining the statutory limit of indebtedness of the city.

SECTION 7. In respect to the use and operation of the property, the company shall have all the powers and privileges and be subject to all the duties, liabilities, restrictions and provisions set forth in general and special laws now or hereafter in force applicable to it.

SECTION 8. The contract for the use of the property executed in accordance with the authority conferred by this act shall not in any respect impair any right which the commonwealth or the city or any other licensee of the commonwealth may at any time have to take the properties of the company. In the event of such taking, the compensation to be paid to the company shall not be enhanced by reason of such contract, nor shall it be diminished because of the fact that without it properties might be cut off.

SECTION 9. This act shall take full effect upon its acceptance by vote of the city council of the city of Boston, approved by the mayor, and the filing of a certificate evidencing such acceptance with the state secretary, but not otherwise.

SECTION 10. Chapter two hundred and ninety-two of the acts of nineteen hundred and thirty-seven, as amended, is hereby repealed.

Approved June 10, 1941.

Side Yards: There shall be a side yard on each side of every building in a single residence district, and on each side of every building or pair of semi-detached buildings in a general residence district. The minimum width of any side yard provided in a thirty-five foot district shall be eight feet and the minimum width of any side yard provided in a single residence district shall be ten feet, provided that on no lot held under a separate and distinct ownership from adjacent lots and of record at the time it is placed in a thirty-five foot district shall the buildable width be reduced by this requirement to less than twenty-four feet.

Courts: In a single or general residence district no window required by the aforesaid building code shall open upon an outer court the depth of which exceeds its width or upon any inner court.

Set-back: In a single or general residence district no building shall hereafter be erected or altered to be within thirty

feet of the center of any street or within ten feet of any street line, provided, that on a lot abutting on two or more streets, one of which is more than twenty-four feet wide and one twenty-four feet wide or less, no set-back is hereby required on the street or streets twenty-four feet wide or less; provided, further, that on a lot between two buildings not more than sixty feet apart the set-back need not exceed the greater of the set-backs on such buildings; and provided, further, that on a lot in a separate and distinct single or joint ownership of record at the time it is placed in a thirty-five foot district and less than one hundred feet deep, any set-back hereby established may be reduced one per cent for each foot that the depth of the lot is less than one hundred feet.

Between the lines of streets intersecting at an angle of less than one hundred and thirty-five degrees and a line joining points on such lines twenty feet distant from their point of intersection no building or structure may be erected and no vegetation may be maintained above a height three and one half feet above the plane through their curb grades.

Building Area: The area of a dwelling shall not exceed thirty-five per cent of the area of the lot. The area of a building other than a dwelling shall not exceed sixty per cent of the area of the lot.

Height: No building shall exceed sixty-five feet or six habitable stories in height.

Rear Yards: Except as hereinafter provided there shall be in the rear of every building other than an accessory building a rear yard extending across the entire width of the lot. The depth of said rear yard shall be measured from the extreme rear wall of the building to the rear line of the lot and at right angles to said lot line. If the rear line of the lot is not a straight line at right angles to the side lines of the lot the required yard shall have an area not less than the depth of the yard as hereinafter prescribed multiplied by the width of the lot at the rear of the building, and the building shall be so disposed at the rear as to have a yard having continuity with the yards of adjoining lots as approved by the building commissioner. The minimum depth of said rear yard shall be equal to ten feet less than the average depth of the yards of existing buildings other than accessory buildings abutting on the same street in the same block but shall not be less than fifteen feet.

Rear Yards on Corner Lots: Upon a lot which abuts on two intersecting streets, alleys, parks or other permanently open spaces not less than fifteen feet wide the minimum depth of yard shall not be less than six feet except that where such corner lot is more than twenty-five feet in width the minimum depth of the rear yard for that portion in excess of such twenty-five feet shall be not less than fifteen feet.

Set-back: On lots abutting on one side of a street between two intersecting streets in a sixty-five foot general residence district, and in any adjacent forty foot or thirty-five foot single or general residence district, no building shall hereafter be erected or altered to be nearer the street line than the average set-back of existing buildings within such limits, subject to the following provisions:

1. No set-back need exceed ten feet in any case. Any reduced set-back thus established shall be used in computing the average set-back.

2. On a lot between two buildings not more than sixty feet apart the set-back need not exceed the greater of the set-backs of such buildings. Any set-back thus established shall be included in computing the average set-back.

Building Area: The area of a dwelling shall not exceed seventy per cent of the area of the lot. The area of a building other than a dwelling shall not exceed eighty per cent of the area of the lot.

Height: No building or structure shall be so erected or altered that any part thereof shall be higher above the ground than two and one half times the shortest horizontal distance of that part from the further side of the street upon which it fronts; provided that, in case of a building at the intersection of two streets, within one hundred and fifty feet measured along the streets from the intersection of the nearer side lines thereof, the width of each street shall for the purpose of this section be taken as the width of the wider street. No building or structure shall be erected or altered to a greater height measured to the highest point of the roof thereof than one hundred and fifty-five feet except as provided in this paragraph. If a building or structure shall be erected or altered to a greater height than one hundred and fifty-five feet every part of such building shall not be higher above the ground than one hundred and twenty-five feet plus two and one half times the shortest horizontal distance of that part from the nearest lot or street line. No building shall be erected or enlarged to contain a volume above the grade of the ground greater than the buildable area of the lot multiplied by one hundred and fifty-five feet.

SECTION 15. Section sixteen of said chapter four hundred and eighty-eight, as most recently amended by section two of chapter two hundred and ten of the acts of nineteen hundred and thirty-four, is hereby further amended by striking out paragraph (3) and inserting in place thereof the following: —

(3) Structures specified in and exempted from height limitation by section two thousand and one of the aforesaid building code may be erected above the height limit established by this act.

No building shall be erected on a parkway, boulevard or public way on which a building line or height limitation has been established by the board of park commissioners or by the board of street commissioners acting under any general or special statute or by the commonwealth or city to

a greater height than that allowed by action of said agencies and no building upon land any owner of which has received and retained compensation in damages for any limitation of height or who retains any claim for such damages shall be erected to a height greater than that fixed by the limitation for which such damages were received or claimed.

SECTION 16. Said section sixteen of said chapter four hundred and eighty-eight is hereby further amended by striking out paragraph (14), added by section five of chapter one hundred and eighty of the acts of nineteen hundred and thirty-one, and inserting in place thereof the following: —

(14) Upon a lot which does not front upon a street, alley, park or other permanently open space not less than fifteen feet wide the requirements of this act as to rear yards shall apply to the front of any building as well as to the rear.

SECTION 17. Said chapter four hundred and eighty-eight is hereby further amended by adding at the end of said section sixteen the following new paragraph: —

(16) In a sixty-five foot district no yard shall be required behind a building upon a lot which abuts at the rear upon a railroad right of way, a cemetery, or a public park; no yard shall be required behind a building upon a lot entirely surrounded by streets, alleys, parks or other permanently open spaces not less than twenty-five feet wide; no yard shall be required behind a building upon a lot running through from street to street or from a street to an alley, park or other permanently open space; provided, that such streets, alleys, parks or other permanently open spaces are not less than thirty-five feet in width; no yard shall be required behind a building upon a corner lot adjoining a lot running through from street to street or from a street to an alley, park or other permanently open space; provided, that such streets, alleys, parks or other permanently open spaces are not less than thirty-five feet in width.

SECTION 18. Said chapter four hundred and eighty-eight is hereby further amended by striking out section nineteen, as most recently amended by section one of chapter sixteen of the acts of nineteen hundred and thirty-one, and inserting in place thereof the following: — *Section 19.* The board of appeal provided for in the aforesaid building code shall act as a board of appeal under this act, and the members thereof shall receive for acting under this act the same compensation as provided in the aforesaid building code.

Any applicant for a permit under this act whose application has been refused may appeal therefrom within ninety days. Any applicant to the building commissioner for a permit who appeals to the said board shall pay to him a fee of fifteen dollars before such permit shall be considered by the board. Such fees shall be deposited by the building commissioner with the city collector at least once a week.

Upon such appeal, the board of appeal may authorize in respect to a particular parcel of land a variance from the terms of this act, where, owing to conditions especially

affecting such parcel but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of this act would involve substantial hardship to the appellant, and where desirable relief may be granted without substantial detriment to the public good and without substantially derogating from the intent and purpose of this act, but not otherwise. No such variance shall be authorized except by the unanimous decision of the entire membership of the board qualified to act, rendered upon a written petition addressed to the board and after public hearing thereon, of which notice shall be mailed to the petitioner and to the owners of all property deemed by the board to be affected thereby as they appear in the current records of the assessing department and also advertised in a daily newspaper published in the city of Boston. The board may adopt rules, not inconsistent with the provisions of this act, governing notice and procedure.

The board shall cause to be made a detailed record of all its proceedings, which record shall set forth the reasons for its decisions, the vote of each member participating therein, and the absence of a member or his failure to vote. Such record, immediately following the board's final decision, shall be filed in the office of the building commissioner and shall be open to public inspection, and notice of such decision shall be mailed forthwith to each party in interest as aforesaid.

No decision of the board of appeal permitting the erection or alteration of a building to an extreme height greater than that otherwise authorized under the provisions of this act for the lot or building in question shall be effective until and unless confirmed by the board of zoning adjustment, as provided in section twenty. Immediately following the board's final decision in any such case a copy of the record shall be certified to the board of zoning adjustment.

Any person aggrieved by a decision of the board of appeal, except a decision permitting the erection or alteration of a building to an extreme height greater than that otherwise authorized under the provisions of this act, whether or not previously a party to the proceeding, or any municipal officer or board, may appeal to the superior court sitting in equity, for the county of Suffolk; provided, that such appeal is filed in said court within fifteen days after such decision is recorded. It shall hear all pertinent evidence and determine the facts, and, upon the facts as so determined, annul such decision if found to exceed the authority of such board, or make such other decree as justice and equity may require. The foregoing remedy shall be exclusive, but the parties shall have all rights of appeal and exception as in other equity cases.

The person applying for the review shall file a bond with sufficient surety, to be approved by the court, for such a sum as shall be fixed by the court, to indemnify and save harmless the person or persons in whose favor the decision

was rendered from all damages and costs which he or they may sustain in case the decision of said board is affirmed.

No costs shall be allowed against the board unless the court finds that it acted with gross negligence or in bad faith.

SECTION 19. Said chapter four hundred and eighty-eight is hereby further amended by striking out section twenty, as most recently amended by section one of chapter two hundred and forty of the acts of nineteen hundred and thirty-six, and inserting in place thereof the following:—

Section 20. There shall be a board of zoning adjustment to consist of twelve members as follows:— The chairman of the city planning board ex officio, and eleven members appointed by the mayor in the following manner: one member from two candidates to be nominated by the Associated Industries of Massachusetts, one member from two candidates to be nominated by the Boston Central Labor Union, one member from two candidates to be nominated by the Boston Chamber of Commerce, one member from two candidates to be nominated by the Boston Real Estate Exchange, one member from two candidates to be nominated by the Massachusetts Real Estate Exchange, one member from two candidates, one to be nominated by the Boston Society of Architects and one by the Boston Society of Landscape Architects, one member from two candidates to be nominated by the Boston Society of Civil Engineers, one member from two candidates to be nominated by the Master Builders' Association of Boston, one member from two candidates to be nominated by the Team Owners Association, one member from two candidates to be nominated by the United Improvement Association, and one member to be selected by the mayor. All appointive members shall be residents of or engaged in business in Boston. All appointments after the initial appointments shall be for the term of five years. Vacancies among the appointive members shall be filled in the same manner in which original appointments are made. The several heads of departments of the city of Boston shall on request of the board supply it with all information in their possession useful for its duties.

Either upon petition or otherwise, the board may, subject to the following conditions, change the boundaries of districts by changing the zoning map, on file at the state secretary's office, to meet altered needs of a locality, to avoid undue concentration of population, to provide adequate light and air, to lessen congestion in streets, to secure safety from fire, panic and other dangers, to facilitate the adequate provision of transportation, water, sewerage and other public requirements and to promote the health, safety, convenience and welfare of the inhabitants of the city of Boston. Such changes shall be made with reasonable consideration, among other things, of the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging

the most appropriate use of land. No such change shall be made except by the decision of not less than four fifths of the members of the board, excepting only any member or members not qualified to act, rendered after a public hearing thereon, of which notice shall be mailed to the petitioner, if any, to the building commissioner, the chairman of the assessing department, the chairman of the street laying-out department, the commissioner of public works, the fire commissioner and the health commissioner of the city of Boston, and to the owners of all property deemed by the board to be affected thereby as they appear in the current records of the assessing department and also advertised in a daily newspaper published in the city of Boston. Any petition for changing the zoning map shall be accompanied by a fee of twenty-five dollars before being considered by the board. Such fees shall be deposited by the board with the city collector within one month after receipt thereof. No member shall act in any case in which he is personally interested either directly or indirectly. A majority of the board shall constitute a quorum for all public hearings and for all acts of the board, except that decisions changing the boundaries of districts on the zoning map or confirming a decision of the board of appeal shall be deemed to comply with this section only if the written record of such decision is signed, in case of any change of boundaries as aforesaid, by not less than four fifths, or, in case of any confirmation of a decision of the board of appeal, by not less than two thirds, of the members of the board qualified to act. If less than a majority of the board is present at any public hearing or at any executive session, the members actually present may adjourn the same by proclamation to such time and place as they deem advisable, and further notice thereof shall not be necessary. The board may adopt rules, not inconsistent with the provisions of this act, governing notice and procedure.

The board shall review the decision of the board of appeal within forty-five days of the certification to it of a copy of the record thereof in every case wherein permission is granted to erect or alter a building to an extreme height greater than that otherwise authorized under the provisions of this act for the lot or building in question, said review to determine whether or not the relief granted derogates from the intent and purpose of this act. No such permission shall be confirmed except by decision of not less than two thirds of the members of the board, excepting only any member or members not qualified to act, rendered after a public hearing thereon of which notice shall be given as provided in case of a public hearing under the preceding paragraph. If the lot or building in question abuts upon a public park, notice shall also be mailed to the park commissioners of the city of Boston.

In all cases where the boundaries of districts are changed so as to include the whole or part of an existing single or

general residence district in a zone for less restricted uses the set-back required by this act for such district before such change shall remain in force unless and until such limitation shall be rescinded by the board. Such rescission may be inserted in the original order making such change if asked for by said petition and notice thereof given in the notice of the original petition for the change, or it may be ordered subsequently on petition and notice in the manner required for petitions for a change in the boundaries of districts.

The board shall cause to be made a detailed record of all its proceedings, which record shall set forth the reasons for its decisions, the vote of each member participating therein, and the absence of a member or his failure to vote. Such record, immediately following the board's final decision, shall be filed in the office of the building commissioner of Boston and shall be open to public inspection, and notice of such decision shall be mailed forthwith to each party in interest as aforesaid. Upon any decision changing the zoning map, on file at the state secretary's office, an amended map showing such change endorsed by the chairman of said board shall be filed forthwith at said office.

If a petition for a change of the boundaries of a district is unfavorably decided upon by the board, no petition for the same change shall be considered on its merits by the board within one year after the date of such unfavorable decision, except with the consent of not less than four fifths of the members of the board.

If a change be favorably decided upon or if a decision of the board of appeal shall be confirmed, any person aggrieved or any municipal officer or board may, appeal to the superior court sitting in equity for the county of Suffolk; provided, that such appeal is filed in said court within fifteen days after such decision is recorded. It shall hear all pertinent evidence and determine the facts and, upon the facts as so determined, annul such decision if found to exceed the authority of such board, or make such other decree as justice and equity may require. The foregoing remedy shall be exclusive, but the parties shall have all rights of appeal and exception as in other equity cases.

The person applying for the review shall file a bond with sufficient surety, to be approved by the court, for such a sum as shall be fixed by the court, to indemnify and save harmless the person or persons in whose favor the decision was rendered from all damages and costs which they may sustain in case the decision of said board is affirmed.

No costs shall be allowed against the board unless the court finds that it acted with gross negligence or in bad faith.

The board shall report its doings annually on or before February tenth to the mayor of Boston. It shall make a like report on or before said date to the general court, by filing the same with the state secretary, and the provisions of section thirty-two of chapter thirty of the General Laws relative to the transmission of other annual reports to the

general court shall apply to reports made to the general court hereunder.

If any area is hereafter transferred to another district by a change in district boundaries either by action of the board of zoning adjustment or by an amendment to this act, the buildings and uses then existing within said area shall be subject to the provisions of this act with reference to existing buildings or uses in the district to which the area is removed.

SECTION 20. Section twenty-one of said chapter four hundred and eighty-eight is hereby amended by striking out, in the third line, the word "law" and inserting in place thereof the word:— code, — so as to read as follows:—
Section 21. The jurisdiction of courts in equity and at law and penalties for violation of any of the provisions of this act shall be as set forth in the aforesaid building code for violations thereof.

SECTION 21. In case of any difference or inconsistency between the provisions of chapter four hundred and eighty-eight of the acts of nineteen hundred and twenty-four, as amended, and those of section one hundred and five A of chapter four hundred and seventy-nine of the acts of nineteen hundred and thirty-eight, inserted by section one of chapter two hundred and seventeen of the acts of nineteen hundred and thirty-nine, or of any ordinance made pursuant to said section one hundred and five A, the provisions of said chapter four hundred and eighty-eight and its amendments shall prevail.

SECTION 22. Chapter four hundred and fifty-two of the acts of eighteen hundred and ninety-eight, chapter three hundred and thirty-three of the acts of nineteen hundred and four and the orders issued thereunder, chapter three hundred and eighty-three of the acts of nineteen hundred and five, chapter four hundred and fifty-five of the acts of nineteen hundred and twenty, chapter four hundred and fifty-seven of the acts of eighteen hundred and ninety-nine, chapter four hundred and sixteen of the acts of nineteen hundred and seven, and chapter three hundred and thirty-three of the Special Acts of nineteen hundred and fifteen and the orders issued thereunder, are hereby repealed; provided, that such repeal shall not be deemed or construed to affect any vested property right which was created or acquired under any provision of any of said acts, or by reason of any order, rule or regulation made or promulgated, or act done, under authority of any provision of any of said acts, and which is in full force and effect upon the effective date of this act.

SECTION 23. This act shall take full effect upon the acceptance by the city council of the city of Boston of chapter four hundred and seventy-nine of the acts of nineteen hundred and thirty-eight, as amended by chapter two hundred and seventeen of the acts of nineteen hundred and thirty-nine, and as provided in said chapter four hundred and seventy-nine.

The register of deeds shall record such certificate of acceptance in a book to be kept for the purpose, which shall be kept in an accessible location in the registry. Notwithstanding the authority to establish such a lien such overdue rates and charges may be collected through any legal means, including the shutting off of water, which may be deemed advisable; provided, that after the termination of such a lien no city, town or water district shall attempt to enforce, by shutting off the water, collection of any water rates or charges included in such lien from any person, not liable therefor, who has

succeeded to the title or interest of the person who incurred them. Sections forty-two B to forty-two F, inclusive, shall also apply to a water district which has accepted sections forty-two A to forty-two F, inclusive, and whose clerk has so filed the certificate of acceptance. Wherever in said sections the words "board or officer in charge of the water department" or their equivalent appear, they shall also mean and include the officers exercising similar duties in any city, town or district. A fire district authorized to supply water shall, for the purposes of sections forty-two A to forty-two F, inclusive, be deemed to be a water district.

Such statement shall contain the name of the owner of record of such real estate on January first of the year in which the statement is filed and a description of such real estate sufficiently accurate for identification. The register of deeds shall receive and record or, in case of registered land, file and register, said statement, and any certificate or disclaimer and release under this section duly filed for record. Such lien may be dissolved by filing for record in such registry of deeds a certificate from the collector of taxes, or from the officer or other person having the power and duty under local regulations, ordinances or by-laws to collect water rates and charges, that all rates and charges for which such lien attached, together with interest and costs thereon, have been paid or legally abated. In case such a lien is deemed invalid by the board or officer in charge of the water department or by the collector of taxes, said board or officer or said collector may, at any time prior to a sale or taking under chapter sixty for a tax or part of a tax which includes or consists of such rates and charges, or prior to the addition of such tax or part of a

If at the time of the filing of such disclaimer and release or of the entry of such decree such person or tenant is still the owner or tenant of the premises, whether through redemption or otherwise, such rates and charges, to the extent that they were properly chargeable to him, may be enforced in any other manner provided or available for collection and enforcement of water rates and charges.

If any account referred to in a statement filed for record under section forty-two B remains unpaid when the assessors are preparing the real estate tax list and warrant to be committed by them under section fifty-three of chapter fifty-nine next after the filing of such statement, the board or officer in charge of the water department shall certify such unpaid account to the assessors, who shall forthwith add such account to the tax on the property to which it relates and commit it with their warrant to the collector of taxes as a part of such tax. If such petition is denied in whole or in part, the petitioner may appeal to the appellate tax board upon the same terms and conditions as a person aggrieved by the refusal of the assessors of a city or town to abate a tax.

If in consequence it shall appear that no names are to be printed upon the official ballot to be used at any non-partisan preliminary municipal election in any ward or wards of said city, no non-partisan preliminary municipal election shall be held in any such ward or wards.

SECTION 11. Non-partisan preliminary municipal elections in said city shall be subject to all general laws relative to elections, so far as the same are applicable thereto, except as otherwise expressly provided in this act.

SECTION 12. No city or ward committee of any political party in said city shall indorse, favor or oppose the candidacy of any nominee for elective municipal office.

SECTION 13. So much of chapter four hundred and thirty-eight of the acts of eighteen hundred and ninety-six, chapter three hundred and fifty-five of the acts of nineteen hundred and twelve and chapter six hundred and eight of the acts of nineteen hundred and thirteen, and acts in amendment thereof and in addition thereto, or of any other special law relative to the city of Holyoke, as is inconsistent with this act is hereby repealed.

(j) Obligations referred to in subdivisions (h) and (i) shall be deemed to be in serial form when such obligations are a part of a debt issue, the payment of which is provided for by annual payments in sufficient amounts to extinguish the debt at maturity, and as to which it is also provided that the first of such annual payments shall be made not later than two years after the date of the obligations issued therefor, that the last of such annual payments shall be made not later than forty years after the date of such obligations, and that the amount of such payments in any one year on account of such debt so far as issued shall not be less than the amount of principal payable in any subsequent year.

(m) The provisions of subdivisions (e), (f), (g), (h) and (i) of this clause shall not authorize the investment of funds in the legally issued or assumed obligations of any county, city, town or district which has been in default for more than one

hundred and twenty days in the payment of any part of principal or interest of such obligations within ten years immediately preceding the making of such investment.

SECTION 2. Said section fifty-four is hereby further amended by striking out clause Third, as amended by chapter seventy-nine of the acts of nineteen hundred and thirty-six, and inserting in place thereof the following clause: —

G. L. (Ter. Ed.), 168, § 54, etc., further amended.

Third. In obligations of any railroad corporation incorporated under the laws of the United States or of any state thereof, which is doing business principally within the United States, provided: —

Investments in railroad bonds.

(1) That the railroad corporation which operates the railroad or railroad equipment upon which such obligations are secured shall own or operate under lease not less than five hundred miles of standard gauge road, exclusive of sidings;

(2) That the railroad corporation which operates the railroad or railroad equipment upon which such obligations are secured shall not be in default in the payment of principal or interest of any of its obligations, or in the payment of rental for leased lines or terminal facilities;

(3) That in five of the six years immediately preceding the date of such investment, and in the year immediately preceding the date of such investment, the railroad corporation which operates the railroad or railroad equipment upon which such obligations are secured shall have earned its fixed charges in full;

(4) That such obligations contain an unconditional promise to pay the interest thereon regularly, and to pay the principal at a specified date;

(5) That such obligations are secured: —

(a) By a direct or a collateral mortgage lien on a railroad owned, directly or beneficially, by a railroad corporation which meets the requirements of subdivisions (1), (2) and (3); or —

(b) By a direct or a collateral mortgage lien on a railroad owned, directly or beneficially, by a corporation which leases the mileage to a railroad corporation which meets the requirements of subdivisions (1), (2) and (3) under a lease which extends at least three years beyond the maturity of such obligations and which provides for unconditional payment of interest on all funded indebtedness and for the payment or refunding of such obligations at maturity; except that the lease need not contain such provisions if such bonds are guaranteed by endorsement unconditionally as to principal and interest by said lessee railroad corporation; or —

(c) By the irrevocable pledge of bonds, notes or other evidences of indebtedness which would be legal investments for savings banks if held directly, and the principal amount of bonds, notes or other evidences of indebtedness so pledged is equal at least to the principal amount of such obligations outstanding; or —

(d) By a first lien on, or by a lease of, or conditional sale of, new railroad equipment of standard gauge, free from

any other encumbrance, for the purchase of which obligations were issued at not exceeding ninety per cent of the purchase price of such equipment, except that, pending the completion and delivery of the equipment, such obligations may be secured by cash, deposited with or to the credit of the trustee under the instrument under which such securities were issued, in an amount not less than the principal amount of all such obligations outstanding; provided, that equipment obligations shall not be legal for such investment unless the instrument under which they are issued, or the lease or conditional sale of such equipment, provides for the proper maintenance and replacement of such equipment, and for the payment of the entire issue of such obligations in not exceeding fifteen approximately equal annual, or in thirty approximately equal semi-annual, installments from the date of issue, without the release of any part of the lien or interest in any part of the equipment securing such obligations until the entire issue of the series so secured shall have been paid or redeemed, except however, that such instrument may permit the release therefrom of any equipment covered thereby upon the condition that, as security in lieu thereof, there shall be deposited with or to the credit of the trustee under the instrument, cash or bonds, notes or certificates of indebtedness of the United States, or of any state thereof, equivalent to the fair value of the equipment released, and that such deposit may be subsequently in whole or in part withdrawn and used for the purchase of additional railroad equipment of standard gauge, to be substituted in lieu thereof free from any other encumbrance, of material and construction substantially as good as, and of a value equal to the value of, the equipment previously released. Such obligations shall be guaranteed by endorsement as to principal and interest or dividends by such railroad corporation;

(6) That unless the railroad corporation which operates the railroad or railroad equipment upon which such obligations are secured shall have earned its fixed charges at least one and one half times in five of the six years immediately preceding the date of such investment, and in the year immediately preceding the date of such investment, such obligations shall be (a) equipment obligations as described in subdivision (5) (d), or (b) shall be secured by a first mortgage which is prior in lien to a junior mortgage or mortgages which secure at least one and one half times as much funded debt as is secured by all the first mortgages which are prior in lien to such junior mortgages, or (c) shall be secured by a first mortgage on a railroad which is operated under lease by a railroad corporation which meets the requirements of subdivisions (1), (2) and (3), which lease extends at least three years beyond the maturity of any such obligation, and provides for the payment or refunding thereof and for the unconditional payment of a rental equal to at least two and one half times the annual interest charge on all the first

mortgage bonds of such lessor corporation; and no bonds shall be made eligible by provision (b) or (c) of this subdivision unless they are secured by a direct or collateral first lien on at least one third of the mileage owned, including all mileage owned beneficially, by the obligor and on at least five hundred miles of railroad, except that if the railroad corporation which operates the railroad upon which such bonds are secured shall have earned its fixed charges at least one and one quarter times in five of the six years immediately preceding the date of such investment, and in the year immediately preceding the date of such investment, then such first mortgage need not be a lien on one third of the mileage owned directly and beneficially by the obligor but shall be a first lien on not less than one hundred miles of railroad, and the amount of debt secured by junior mortgages need not exceed, but shall be at least equal to, the amount of debt secured by first mortgages prior thereto.

Not more than twenty per cent of the deposits of any such bank shall be invested in railroad obligations. Not more than one and one half per cent of the deposits of any such bank shall be invested in the obligations of any one operating railroad corporation, including its direct and assumed obligations and including also the obligations of lessor railroad corporations which derive seventy-five per cent or more of their income from leases of their railroads to said operating railroad corporation.

The following terms as used in this clause, unless the context otherwise clearly requires, shall have the following meanings:—

(a) A railroad shall be deemed to be owned beneficially by a railroad corporation when the latter operates such railroad and owns at least ninety per cent of each class of outstanding capital stock, and ninety per cent of each class of outstanding bonds, notes and other evidences of indebtedness, of the corporation which is the legal owner of the physical property.

(b) Obligations shall be deemed to be secured by a collateral mortgage lien if they are secured by an irrevocable pledge of at least ninety per cent of each class of outstanding capital stock, and ninety per cent of each class of outstanding bonds, notes and other evidences of indebtedness, of the railroad corporation which is the legal owner of the physical property.

(c) "Fixed charges" shall mean the sum of fixed interest on all indebtedness, whether funded or unfunded, rentals for leased lines and amortization of debt discount. For the purpose of determining whether a railroad has earned its fixed charges, or by what margin it has earned them, the income available for fixed charges as shown in the reports prescribed by the Interstate Commerce Commission shall be applied against the fixed charges as defined herein.

(d) Obligations shall be deemed to be secured by first mortgage or first mortgage lien if they are secured by such a

lien on seventy-five per cent of all the railroad on which they are a lien.

(e) Obligations shall be deemed to include only bonds and notes issued or assumed by a railroad corporation and equipment securities unconditionally guaranteed as to the payment of principal and interest by such a corporation. If such a corporation has acquired a line of railroad subject to the lien of previously existing bonds and shall have subsequently issued bonds of its own, which bonds are secured, in whole or in part, by a junior lien on such line of railroad, then the corporation shall be deemed, for the purposes of this clause, to have assumed the previously existing bonds.

Ed.), 168,
§ 54, etc.,

amended.

SECTION 3. Said section fifty-four is hereby further amended by striking out clause Fourth, as amended by chapter one hundred and twelve of the acts of nineteen hundred and thirty-two.

(3) provided, further, that at the end of the fiscal year immediately preceding the date of such investment the outstanding fully paid capital stock of any such telephone company, together with the total of all surplus accounts as shown by the books of such company in the case of any such company having any shares without par value, shall be equal to at least two thirds of its total funded debt.

(4) Such bonds shall be issued under an indenture which cannot be changed so as to alter the obligations of the company to pay the principal thereof at maturity, or to pay the interest at the rates and on the dates specified in such bonds, except with the consent of the holder or holders of the bond or bonds affected, and such bonds shall be secured by a first or junior mortgage lien upon all or part of the fixed property of such company, but the aggregate principal amount of all its mortgage bonds shall not exceed sixty-five per cent of the depreciated value of the fixed property of the company as shown by its books. No junior mortgage bond shall qualify under this paragraph unless under the terms of the indenture under which it was issued all underlying mortgages must be paid at maturity, or refunded by such junior mortgage. Such underlying mortgages shall be closed except for the purpose of issuing additional bonds to be pledged under such junior mortgage.

SECTION 5. Said section fifty-four is hereby further amended by inserting after clause Fifth, as so appearing, the following four new clauses:—

(1) provided, that during each of the five fiscal years of such telephone company immediately preceding the date of such investment

(a) the gross income of such telephone company shall have been not less than twenty million dollars, and

(b) such telephone company shall not have been in default in the payment of the principal or interest on any of its indebtedness; and

(3) provided, further, that at the end of the fiscal year immediately preceding the date of such investment, such bonds, together with all other indebtedness of such company, shall total not more than fifty-five per cent of the depreciated value of the fixed property of such telephone company as shown by its books, and shall be issued under an indenture by the terms of which no mortgage can be issued without securing such bonds equally and ratably therewith.

G. L. (Ter. Ed.), 168, § 54, new clauses Fifth A-Fifth D, added.

Other bonds of telephone companies.

Fifth B. In other bonds or notes, maturing not later than forty years subsequent to the date of such investment, of any telephone company incorporated under the laws of, and doing business in, any state of the United States, including in such term the District of Columbia, on the continent of North America which is operating under the supervision of a public service or other similar regulatory commission of the United States or of any state thereof;

(1) provided, that during each of the five fiscal years of such telephone company immediately preceding the date of such investment such telephone company shall not have been in default in the payment of principal or interest on any of its indebtedness; and

(2) provided, further, that in any five of the six fiscal years immediately preceding the date of such investment the net income of such company, as shown by its annual reports or other sworn returns to the federal, state or municipal authorities, shall have been not less than four times the amount necessary to pay the interest for the same period on the company's total outstanding indebtedness; and

(3) provided, further, that at the end of the fiscal year immediately preceding the date of such investment the bonds or notes of such company are outstanding in an amount not in excess of thirty-five per cent of its total assets; and

(4) provided, further, that for the fiscal year immediately preceding the date of such investment the amount of income available for dividends of such company shall have been not less than one hundred million dollars.

Fifth C. In clauses Fifth, Fifth A and Fifth B, unless the context otherwise requires,

(a) "Gross income" shall mean the total operating revenues received from the operation of all properties owned or leased and operated by such telephone company, and "income available for dividends" shall mean the amount determined as such by the system of accounts prescribed by the Federal Communications Commission.

(b) "Net income" shall mean the amount available for interest charges after deduction has been made for all operating expenses, including current maintenance, provision for depreciation, all taxes except income taxes, and all rentals and guaranteed interest or dividends.

Fifth D. Not more than fifteen per cent of the deposits of any such bank shall be invested in the bonds of telephone companies, nor shall more than two per cent of such deposits be invested in the bonds of any one telephone company.

SECTION 6. Said section fifty-four is hereby further amended by striking out clause Sixth A, as amended by chapter ninety-six of the acts of nineteen hundred and thirty-seven, and inserting in place thereof the following clause:—

Sixth A. In the bonds, maturing not later than forty years subsequent to the date of such investment, issued or assumed by any corporation incorporated under the laws of

the United States or of any state thereof which is operating under the supervision of a public service or other similar regulatory commission of the United States or of any state thereof, and has franchises to operate in territory in which at least seventy-five per cent of its gross operating revenue was earned thereunder in its fiscal year immediately preceding the date of such investment, which franchises shall be either indeterminate franchises or permits or agreements, which are subject to the jurisdiction of or issued by or entered into with a public service or similar commission or other competent public authority, or determinate franchises extending at least three years beyond the maturity of any such bond,

(1) provided, that such corporation is engaged in any or all of the following functions: —

(a) In the sale and distribution of electricity, or in such sale and distribution and also in some other form of public service enterprise;

(b) In the manufacture and distribution of artificial gas; and

(c) In the sale and distribution of natural gas supplied in substitution for and in mixture with artificial gas; but in no case shall the bonds of any corporation engaged in the sale and distribution of natural gas become a legal investment unless said corporation maintains at all times full facilities for the manufacture of artificial gas in quantities sufficient to supply the normal demand; and

(2) provided, further, that: —

(a) During each of the five fiscal years immediately preceding the date of such investment, such corporation has paid the matured principal and interest of all its indebtedness, and

(b) The net income of such corporation for the fiscal year immediately preceding the date of such investment, and the average of net income of such corporation for the five fiscal years immediately preceding the date of such investment, as shown by its annual reports or other sworn returns to the federal, state or municipal authorities, shall have been not less than one and three quarters times the amount necessary to pay the interest for the same periods on its total outstanding indebtedness, except that if less than sixty per cent of the gross operating revenue of the corporation has been derived from the sale and distribution of electricity, such net income shall have been not less than twice the amount necessary to pay such interest.

(c) As used in subdivision (2) (b) of this clause, "net income" shall mean the amount available for interest charges after deduction has been made for all operating expenses, including current maintenance, provision for depreciation or retirement, all taxes except income taxes, and all rentals and guaranteed interest or dividends, and after deducting the net income as determined by the foregoing method, derived

from the sale of natural gas where stand-by facilities are not maintained for the manufacture of artificial gas in quantities sufficient to supply the normal demand for gas; and

(3) provided, further, that for its fiscal year immediately preceding the date of such investment

(a) such corporation shall have done at least eighty per cent of its business in the United States or any state thereof, including in such term the District of Columbia, on the continent of North America;

(b) The gross operating revenue of the corporation issuing or assuming such bonds shall have been not less than one million dollars, and of such revenue at least seventy-five per cent shall have been derived from the sale and distribution of electricity, artificial gas and natural gas, or any one or more of them, and not exceeding twenty per cent from the operation of a transportation system; and

(c) The outstanding fully paid capital stock and surplus of such corporation shall be equal to at least two thirds of its total funded debt. "Funded debt", as used herein, shall mean all interest bearing debt, whether secured or unsecured, maturing more than one year from its date of issue, but excluding bonds of the corporation held as collateral to secure other of its outstanding obligations.

(4) Such bonds shall be issued under an indenture which cannot be changed so as to alter the obligations of the company to pay the principal at maturity, or to pay the interest at the rates and on the dates specified in such bonds, except with the consent of the holder or holders of the bond or bonds affected, and such bonds shall be secured by either a first or junior mortgage upon all or part of the fixed property of such corporation, but the aggregate principal amount of all its mortgage bonds shall not exceed seventy-five per cent of the depreciated value of the fixed property of the corporation as shown by its books. No junior mortgage bond shall qualify under this paragraph unless under the terms of the indenture under which it was issued all underlying mortgages must be paid at maturity, or refunded by such junior mortgage. Such underlying mortgages shall be closed except for the purpose of issuing additional bonds to be pledged under such junior mortgage. If such junior mortgage, or, in the absence of a junior mortgage, the first mortgage, is not closed, it shall provide for the issuance of additional bonds for extensions, improvements and property acquisitions only as follows:—

(a) For an amount not exceeding seventy-five per cent of the actual cost of such extensions, improvements and property acquisitions, when the net income for twelve of the fifteen months immediately preceding the application to the trustee under such mortgage for authentication of such additional bonds has been equal to at least one and three quarters times the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds, or

(b) For an amount not exceeding eighty per cent of the actual cost of such extensions, improvements and property acquisitions, when the net income for twelve of the fifteen months immediately preceding the application to the trustee under such mortgage for authentication of such additional bonds has been equal to at least twice the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds.

(5) If, during any of the periods mentioned in this clause, such corporation has been consolidated by purchase or otherwise, the aggregate operating figures of the corporations so consolidated, exclusive of intercompany charges, shall be sufficient for the purpose of this clause.

(6) Not more than twenty per cent of the deposits of any such bank shall be invested in bonds under this clause, nor shall more than two per cent of such deposits be invested in the bonds of any one such corporation.

SECTION 7. Said section fifty-four is hereby further amended by striking out clause Seventh, as most recently amended by chapter eighty-seven of the acts of nineteen hundred and thirty-seven, and inserting in place thereof the following clause: —

SECTION 8. Said section fifty-four is hereby further amended by striking out subdivision (d) of clause Ninth, as appearing in the Tercentenary Edition.

G. L. (Ter. Ed.), 168, § 54, further amended.

SECTION 9. Said section fifty-four is hereby further amended by striking out clause Fifteenth, as so appearing, and inserting in place thereof the following clause:—

List of bonds and notes to be prepared.

Fifteenth. (a) Annually, not later than July first, the commissioner shall prepare a list of all the bonds, notes and interest bearing obligations which are then legal investments under any provision of clauses Second, Third, Fifth, Fifth A, Fifth B, Sixth, Sixth A, paragraph (1) of subdivision (c) of clause Ninth, and clause Seventeenth. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank and to every trust company having a savings department. In the preparation of any list hereunder which the commissioner is required to prepare or furnish, he may employ such expert assistance as he deems proper or may rely upon information contained in publications which he deems authoritative in reference to such matters; and he shall be in no way held responsible or liable for the omission from such list of the name of any state or political subdivision thereof, or corporation, the bonds, notes or other interest bearing obligations of which conform to this section, or of any bonds, notes or other interest bearing obligations which so conform, nor shall he be held responsible or liable for the inclusion in such list of any such names or bonds, notes or other interest bearing obligations which do not so conform.

(b) Officers and members of a board of investment of such a bank may rely upon the list referred to in subdivision (a) of this clause as representing an accurate listing of bonds, notes and other interest bearing obligations eligible for investment by it.

(c) Upon application by twenty-five savings banks to the Mutual Savings Central Fund, Inc., submitted in such form and under such regulations as its directors may require, requesting authority for savings banks to invest their deposits and the income derived therefrom in state, municipal or corporate interest bearing obligations not otherwise eligible for investment under this section, said directors may request the commissioner, in such form and under such regulations as he may require, in his discretion, to authorize savings banks, notwithstanding any other provisions of this section, to invest their deposits and the income derived therefrom in any such state, municipal or corporate interest bearing obligation. Any expense incurred by the Mutual Savings Central Fund, Inc. in connection with the consideration of such application shall be a proper expense to be incurred and

paid by it. If the commissioner grants such request he shall forthwith send written notice of such decision to said directors and to each savings bank and shall add the name of such investment to the list of bonds and notes eligible for investment provided for in subdivision (a) of this clause. At any time thereafter the commissioner may, on his own initiative or at the written request of said directors, revoke such authority, in which event he shall forthwith send written notice of such revocation to said directors and to each savings bank. In determining that such investments should be included in the list of investments legal for savings banks or deleted from said list the commissioner may employ such expert assistance as he deems proper or may rely upon information contained in publications which he deems authoritative in reference to such matters. Said Mutual Savings Central Fund, Inc., its officers, directors and agents, shall be in no way held responsible or liable for failure to take action upon any such application or to make any such request of the commissioner.

(d) Not more than five per cent of the deposits of any such bank shall be invested in the obligations made legal under subdivision (c) of this clause, nor shall more than one half of one per cent of such deposits be invested in any one such obligation.

SECTION 10. Said section fifty-four is hereby further amended by striking out clause Sixteenth, as so appearing.

AN ACT RELATIVE TO PLACING CERTAIN CITY AND TOWN OFFICES WITHIN THE CLASSIFIED CIVIL SERVICE BY POPULAR VOTE.

Chap. 414

Be it enacted, etc., as follows:

Chapter thirty-one of the General Laws is hereby amended by striking out section forty-nine A, inserted by chapter one hundred and eighty-three of the acts of nineteen hundred and thirty-nine, and inserting in place thereof the following section: — *Section 49A.* Upon the filing with the clerk of a city or town of a petition conforming to this section, requesting that an office or offices in such city or town subject to this section and specified in the petition be placed within the classified civil service, the question or questions whether such office or offices shall be placed within said service shall be submitted to the registered voters of such city or town, in a city or town using official ballots at the next regular municipal election after the expiration of sixty days following the filing of such petition or at the next biennial state election following the expiration of ninety days after the filing thereof, whichever first occurs, and in a town not using

Civil service for certain municipal employees.

official ballots at the next biennial state election after the expiration of said ninety days.

No petition under this section shall be received for filing unless it is signed by registered voters of the city or town at least equal in number to thirty per cent of the number thereof but not in excess of twenty-five hundred, plus six per cent of the number thereof, if any, in excess of twenty-five hundred but not in excess of twenty-seven thousand five hundred, plus one per cent of the number thereof, if any, in excess of twenty-seven thousand five hundred, nor unless it bears the approval in writing of the incumbent or incumbents, at the time of the filing of the petition, of the office or offices specified therein.

The provisions of section thirty-eight of chapter forty-three, relative to initiative petitions in cities subject to said chapter, shall, so far as apt, apply to petitions under this section; provided, that any such petition shall be submitted to the registrars of voters at least seven days prior to the last day for filing the same with the city or town clerk and that, in a town, the petition shall be transmitted to the selectmen instead of to the city council.

Written objections to the validity or sufficiency of any such petition or the signatures thereon may be filed with the city or town clerk not later than forty-eight hours after the expiration of the time for filing petitions with said clerk under this section, and such objections shall be considered by the appropriate board referred to in section twelve of chapter fifty-three. In the consideration of objections made under this section such board shall have and may exercise all the powers given to it by any provision of law relative to objections to nominations. The notice provided by said section shall be sent to the persons filing the petition and to each officer affected thereby. The board shall make its decision within four days after the expiration of the time for filing such objections, and shall forthwith give notice thereof to the city or town clerk. Such decision shall be final, except when the attorney general, in the case of a state election, determines otherwise.

The city or town clerk shall, within ten days after the expiration of the time for filing a petition under this section prior to a state election, transmit a certified copy of every such petition filed with him for the submission of a question or questions at such election, together with the certificate of the registrars of voters relative to the number of signatures thereon, and any objections filed hereunder, with the decision of the board upon such objections, to the attorney general, who shall certify thereon whether or not the petition conforms to this section and return the same to the city or town clerk, who, if such certificate states that the petition so conforms, shall file such copy and certificate with the state secretary at least thirty days prior to the date of such election.

Such question or questions, if submitted at a city or state election, shall be printed upon the official ballot to be used in the city or town at said election, and if submitted at a town meeting shall be printed upon the official ballot to be used for the election of town officers, in substantially the following form:

Question 1. (Part 1) Shall the city (or town) vote that the office of (title of office) be placed within the classified civil service? Yes No

(Part 2) If it is voted to place the office of (title of office) within the classified civil service, shall the city (or town) vote to provide for the continuance in said office of (name of incumbent), the present incumbent thereof, after passing a qualifying examination? Yes No

There shall be a separate numbered question for each office sought to be placed within the classified civil service under this section.

The office specified in Part 1 of each question submitted under this section, in answer to which a majority of the voters voting thereon vote in the affirmative, shall be placed within the classified civil service, and the tenure of office of any incumbent thereof shall be unlimited subject, however, to the provisions of this chapter; provided, that if Part 2 of the question in which said office is specified is so answered in the affirmative the incumbent thereof at the time of the filing of such petition shall, if still the incumbent thereof, be subjected by the division to a non-competitive qualifying examination for such office, and if he passes said examination, he shall be certified for said office and shall be deemed to be permanently appointed thereto without being required to serve any probationary period. If such incumbent does not pass such non-competitive qualifying examination, or if a majority of the voters voting on said Part 2 of the question does not vote thereon in the affirmative, such incumbent may continue to serve in said office, but shall not be subject to this chapter.

This section shall apply to any municipal office the incumbent of which shall have served therein continuously for not less than five years immediately prior to the filing of the petition relative thereto, notwithstanding any provision of law exempting such office or the incumbent thereof from any provision of this chapter; but this section shall not apply to any office filled by popular vote or to the offices of city solicitor, assistant city solicitor, secretary to the mayor, clerk of the board of selectmen, town counsel, assistant town counsel, legislative counsel, registrars of voters or public school teachers.

The words "registrars of voters", as used in this section, shall include election commissioners or other officers performing similar duties.

Nothing in this section shall prevent a town from acting under sections forty-seven, forty-eight and forty-nine, or any of them.

Approved June 26, 1941.

Chap.417 AN ACT PROVIDING FOR THE EXTENSION OF THE TEMPORARY CIGARETTE TAX.

Emergency
preamble.

Whereas, The deferred operation of this act would defeat so much of its purpose as is to authorize the continued collection of an excise on the sale of cigarettes, without interruption; and

Whereas, This act provides for an appropriation and, under authority of section one of chapter four of the General Laws, an act making an appropriation may be made effective upon its passage by the adoption of an emergency preamble, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Whenever used in this act, unless the context shall otherwise require, the following words or terms shall have the following meanings: — “commissioner” shall mean the commissioner of corporations and taxation; “person”, any individual, firm, fiduciary, partnership, corporation, trust or association, however formed, trustee, agency or receiver; “manufacturer”, any person who manufactures or produces cigarettes, whether within or without the commonwealth; “wholesaler”, any person who purchases directly from the manufacturer at least seventy-five per cent of all cigarettes purchased by him and who sells at least seventy-five per cent of all cigarettes purchased by him to others for resale; the term “wholesaler” shall also apply to any chain of stores retailing cigarettes to the consumer, providing seventy-five per cent of its purchases are made direct from the manufacturer; “sub-jobber”, any person other than a wholesaler or vending machine operator who purchases his cigarettes from manufacturers, licensed wholesalers or licensed sub-jobbers and seventy-five per cent of whose business consists in the sale at wholesale of cigarettes to persons licensed under this act; “vending machine operator”, any person other than a manufacturer, a wholesaler or a sub-jobber who operates one or more vending machines and who purchases his cigarettes from a manufacturer or from a licensed wholesaler or licensed sub-jobber; “unclassified importer”, any person other than a transportation company who imports or acquires cigarettes from any one other than a licensed wholesaler, licensed sub-jobber, licensed vending machine operator or licensed manufacturer; “transportation company”, any person operating, or sup-

plying to a common carrier, cars, boats or other vehicles for the transportation or accommodation of passengers and engaged in the sale of cigarettes at retail; "retailer", any person other than a transportation company who sells cigarettes at retail, including a person selling through vending machines; "licensed", licensed under this act. Whenever used in this act, unless the context shall otherwise require, the words "sales" or "sale" in addition to their ordinary meaning shall include or apply to use, gifts, exchanges and barter, and the term "place of business" shall mean and include any place where cigarettes are sold or where cigarettes are brought or kept for the purpose of sale or consumption, including so far as applicable any vessel, vehicle, airplane, train or cigarette vending machine.

SECTION 2. No person shall carry on the business of selling cigarettes nor act as a manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer, transportation company or retailer, in the commonwealth, unless licensed so to do as herein provided. The commissioner, upon proper application and the payment of the applicable fee herein provided, shall issue a license to each manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer, transportation company or retailer; provided, that, in the case of a retailer, each place of business shall be separately licensed. If a manufacturer, wholesaler, sub-jobber, vending machine operator or unclassified importer acts in more than one of said capacities at any one place of business he shall procure a license for each capacity in which he acts. Every machine operated or maintained for the purpose of vending cigarettes shall for the purposes of this act be deemed to constitute a place of retail business, and no person shall maintain or cause to be operated such a machine without procuring a retailer's license. Each license so issued or a duplicate copy thereof shall be prominently displayed on the premises covered by the license and in the case of vending machines there shall be attached to the same a disc or marker to be furnished by the commissioner showing it to have been licensed. The commissioner shall prescribe the forms of application for a license under this act and may require therein such information as he deems necessary in connection with the proper administration of this act. The fees for licenses shall be as follows:— a manufacturer's license, a sum determined by the commissioner, but not to exceed twenty-five dollars; a wholesaler's license, one hundred dollars; a sub-jobber's license, fifty dollars; a vending machine operator's license, twenty dollars; an unclassified importer's license, a sum determined by the commissioner, but not to exceed seventy-five dollars; a transportation company's license, five dollars; a retailer's license, one dollar. The licensing of the operation of cigarette vending machines is retained exclusively by the commonwealth and no city, town or other political subdivision of the commonwealth may license such

operation. No fee, nor any part of any fee, shall be refunded by reason of relinquishment or revocation of the license, or except under decree of a court of competent jurisdiction, for any other reason or cause.

SECTION 3. Each license issued under section two shall expire on the thirtieth day of June next succeeding the date of issuance, unless sooner revoked by the commissioner as provided in section four or unless the business with respect to which such license was issued shall change ownership, or unless the holder of the license shall remove his business from the premises covered by the license, in any of which cases the holder of the license shall immediately return it to the commissioner. In the event that the holder of a license removes his business to another location within the commonwealth, the license with respect to the former place of business shall, without the payment of an additional fee, be reissued for the new location for the balance of the unexpired term. The holder of each license, on application to the commissioner accompanied by the applicable fee prescribed in section two, may before the expiration date of the license then held by him renew his license for a further period of one year.

SECTION 4. The commissioner may suspend or revoke any license issued under this act for failure of the licensee to comply with any provision of said act, or if the licensee has ceased to act in the capacity for which the license was issued. Any person aggrieved by such suspension or revocation may apply to the commissioner for a hearing as provided in section twelve and may further appeal to the appellate tax board as provided in section fourteen.

SECTION 5. Every manufacturer, wholesaler, sub-jobber and unclassified importer shall keep a complete and accurate record of all sales of cigarettes, including the name and address of the purchaser, the place and date of delivery, the quantity of cigarettes and the trade name or brand thereof, and a complete and accurate record of the quantity of cigarettes imported, purchased or manufactured, and the date of importation, purchase or manufacture. Every such person shall also deliver with every consignment of cigarettes to a purchaser within the commonwealth a written statement containing the date of purchase, the names of the purchaser and seller, the quantity of cigarettes and the trade name or brand thereof, and shall retain a duplicate of each such statement. Each vending machine operator shall keep a complete and accurate record of cigarettes imported, purchased or otherwise acquired by him, including the name and address of the seller, the place and date of receipt and the quantity of cigarettes and the trade name or brand thereof, and shall also keep a detailed record of all cigarettes, including the quantity of cigarettes and trade name or brand thereof, placed in each vending machine, the location of the vending machine and the date of placing. Said records and said statements shall be in such form as the commissioner

shall prescribe and shall be preserved by such manufacturers, wholesalers, sub-jobbers, vending machine operators, unclassified importers and purchasers, respectively, for a period of two years and shall be offered for inspection at any time upon oral or written demand by the commissioner or his duly authorized agent. The commissioner may, in his discretion, require reports from any common carrier who transports cigarettes to any point or points within the commonwealth and from any other person who, under contract, so transports cigarettes, and from any bonded warehouseman or bailee who has in his possession any cigarettes, such reports to contain such information concerning shipments of cigarettes as the commissioner shall determine. All such carriers, bailees, warehousemen and other persons shall permit the examination by the commissioner or his duly authorized agent of any records relating to the shipment of cigarettes into, or from, or the receipt thereof within, the commonwealth. Whenever cigarettes are received or acquired within the commonwealth by a wholesaler, sub-jobber or vending machine operator licensed under section two, each shipping case or other container of such cigarettes shall bear the name and address of such licensee who made the first purchase from the manufacturer, together with the invoice number of the invoice covering such purchase from the manufacturer. Any person who shall knowingly be in possession within the commonwealth of such a shipping case or other container of cigarettes not bearing such name and address and invoice number, if any, and containing cigarettes, or any such licensee knowingly being in possession within the commonwealth of such a shipping case or other container of cigarettes from which such name and address has been erased or defaced, shall be punished by a fine of not less than twenty-five nor more than one hundred dollars; and any cigarettes in such shipping case or other container from which such name or address or invoice number, if any, has been erased or defaced shall be deemed to be cigarettes upon which the excise imposed by this act has not been paid. Whenever cigarettes are shipped outside of the commonwealth every licensee under section two so shipping them shall cause to be placed on every shipping case or other container in which the cigarettes are shipped the name and address of the consignee to whom the shipment is made outside of the commonwealth.

SECTION 6. Every licensee under section two, other than a retailer, shall, on or before the fifteenth day of each month, file with the commissioner a return under the penalties of perjury, on a form to be furnished by the commissioner, stating the number of cigarettes sold by such licensee in the commonwealth during the preceding calendar month and such return shall contain or be accompanied by such further information as the commissioner shall require. Such licensee shall, at the time of filing such return, pay to the commissioner an excise equal to one mill for each cigarette so sold

during the calendar month covered by the return; provided, that cigarettes with respect to which the excise under this act has once been imposed and has not been refunded if paid, shall not be subject upon a subsequent sale to the excise imposed by this act. Such abatement of the excise provided by this act may be made by the commissioner by reason of bad debts, loss of cigarettes and such other causes as the commissioner may deem expedient. The commissioner shall certify said amount to the comptroller and the state treasurer shall pay said amount, without any appropriation therefor by the general court, out of the proceeds of such excise.

Each unclassified importer shall, upon importation of cigarettes into the commonwealth, file with the commissioner a return under penalties of perjury, on a form to be furnished by the commissioner, stating the number of cigarettes imported, and shall, at the time of filing such return, pay to the commissioner an excise equal to one mill for each cigarette so imported and held for sale or consumption, and cigarettes with respect to which such excise has been imposed and has not been refunded if paid, shall not be subject when subsequently sold to any further excise under this act.

SECTION 7. If a licensee under section two, having failed to file a return, or, having filed an incorrect or insufficient return, fails to file, within ten days after the mailing or delivery of written notice to him by the commissioner of his delinquency, a correct and sufficient return and to pay the amount shown to be due, with interest at six per cent from the fifteenth day of the month in which the return is required to be made pursuant to section six, the commissioner shall determine the amount due, at any time prior to the time this act ceases to be in effect. Such licensee may appeal to the appellate tax board from the determination of the commissioner within ten days after the mailing or delivery of written notice thereof, and, the decision of such board shall be final. The commissioner, or in the case of appeal the appellate tax board, having made such determination, shall give notice in writing to the delinquent licensee of the amount determined to be due and the licensee shall, forthwith after the mailing or delivery of such notice, pay to the commissioner the amount so determined, with interest at six per cent from the fifteenth day of the month in which the return is required to be made pursuant to section six.

SECTION 8. A deputy sheriff, chief of police, deputy chief of police, city marshal, deputy or assistant marshal, police officer, including a state police officer or a special police officer appointed under section sixteen, or constable, or, in the county of Dukes or Nantucket, the sheriff anywhere within his county, may without a warrant arrest any person whom he finds in the act of illegally transporting or delivering cigarettes, which have not been returned and are not returnable under section six, by a licensee under section two, and seize the said cigarettes, and the vending machines,

receptacles, boxes or cartons in which the same are contained, hereinafter called the container or containers, in the possession of such person, and detain them until a warrant for the arrest of such person, and a warrant for the seizure of said cigarettes and the container or containers, can be procured. Such cigarettes and the container or containers shall be forfeited to the commonwealth and proceedings shall be had as provided hereinafter and in sections fifty to fifty-five, inclusive, of chapter one hundred and thirty-eight of the General Laws. Such officers shall enforce or cause to be enforced the penalties provided by law against every person who is guilty of a violation of any law relative to the possession of such cigarettes and container or containers of which they can obtain reasonable proof.

If the commissioner or his authorized agent makes complaint to a district court or trial justice or justice of the peace authorized to issue warrants in criminal cases that he has reason to believe and does believe that cigarettes, which have not been returned and are not returnable under section six, by a licensee under section two, and which are described in the complaint, are kept or deposited by a person named therein in a store, shop, warehouse, building, vehicle, steamboat, vessel or place, such court or justice, if it appears that there is probable cause to believe said complaint to be true, shall issue a search warrant to an officer qualified to serve criminal process, commanding him to search the premises in which it is alleged that such cigarettes are kept or deposited, and to seize such cigarettes, and the container or containers, and securely keep such cigarettes and container or containers until final action thereon, and return the warrant with his doings thereon, as soon as may be, to a district court or trial justice having jurisdiction in the place in which such cigarettes and container or containers are alleged to be kept or deposited.

The complaint shall particularly designate the building, structure or other place to be searched, the cigarettes and container or containers to be seized, the person by whom they are owned, kept or possessed and shall allege that such cigarettes are illegally kept or possessed. The warrant shall allege that probable cause has been shown for the issuing thereof; and the place to be searched, the cigarettes and container or containers to be seized, and the person believed to be the owner, possessor or keeper of such cigarettes and container or containers, shall be designated therein with the same particularity as in the complaint and the complainant shall be summoned to appear as a witness.

The officer to whom the warrant is committed shall search the premises and seize the cigarettes and container or containers described in the warrant, if they are found in or upon said premises, and shall convey the same to some place of security, where he shall keep the cigarettes and container or containers until final action is had thereon.

The court or trial justice before whom the warrant is returned shall, within twenty-four hours after the seizure thereunder of the cigarettes and container or containers, issue a notice, under seal, and signed by the justice or the clerk of said court, or by the trial justice, commanding the person complained against as the keeper of the cigarettes and container or containers seized and all other persons who claim any interest therein to appear before said court or trial justice, at a time and place therein named, to answer to said complaint and show cause why such cigarettes and container or containers should not be forfeited.

The notice shall contain a description of the number and kind of container or containers, and the quantity and kind of cigarettes, seized, as nearly as may be, and shall state when and where they were seized. It shall, not less than fourteen days before the time appointed for the trial, be served by a sheriff, deputy sheriff, constable or police officer upon the person charged with being the keeper thereof by leaving an attested copy thereof with him personally or at his usual place of abode, if he is an inhabitant of the commonwealth, and by posting an attested copy on the building in which the cigarettes and container or containers were seized, if they were found in a building; otherwise in a public place in the city or town in which they were seized.

At the time and place designated in the notice, the person complained against, or any person claiming an interest in the cigarettes and container or containers seized, or any part thereof, may appear and make his claim orally or in writing, and a record of his appearance and claim shall be made, and he shall be admitted as a party to the trial. Whether or not a claim as aforesaid is made, the court or trial justice shall proceed to try, hear and determine the allegations of such complaint, and whether said cigarettes and container or containers, or any part thereof, are forfeited. If it appears that the cigarettes and container or containers, or any part thereof, were at the time of making the complaint owned or kept by the person alleged therein in violation of law, the court or trial justice shall render judgment that such and so much of the cigarettes so seized as were so unlawfully kept, and the container or containers in which they were contained, shall, except as hereinafter provided, be forfeited to the commonwealth.

If it is not proved on the trial that all or part of the cigarettes seized were kept contrary to law, the court or trial justice shall issue a written order to the officer having the same in custody to return so many thereof as were not proved to be so kept or deposited, and the container or containers in which such cigarettes were contained, to the place as nearly as may be from which they were taken, or to deliver them to the person entitled to receive them. After executing such order, the officer shall return it to the court or trial justice with his doings endorsed thereon.

If no person appears and is admitted as a party as aforesaid, or if judgment is rendered in favor of all the claimants who appear, the cost of the proceedings shall be paid as in other criminal cases. If only one party appearing fails to sustain his claim, he shall pay all the costs except the expense of seizing and keeping the cigarettes and the container or containers, and an execution shall be issued against him therefor. If judgment is rendered against two or more claimants of distinct interests in the cigarettes, or container or containers, the cost shall, according to the discretion of the court or trial justice, be apportioned among such parties, and executions shall be issued against them severally. If any such execution is not forthwith paid, the defendant therein named shall be committed to jail, and shall not be discharged therefrom until he has paid the same and the costs of commitment, or until he has been imprisoned thirty days.

A claimant whose claim is not allowed as aforesaid, and the person complained against, shall each have the same right of appeal to the superior court as if he had been convicted of crime; but before his appeal is allowed he shall recognize to the commonwealth in the sum of two hundred dollars, with sufficient surety or sureties, to prosecute his appeal to the superior court and to abide the sentence of the court thereon. Upon such appeal, any question of fact shall be tried by a jury. On the judgment of the court after verdict, whether a forfeiture of the whole or any part of the cigarettes and container or containers seized, or otherwise, similar proceedings shall be had as are directed in sections fifty to fifty-four, inclusive, of chapter one hundred and thirty-eight of the General Laws.

SECTION 9. Sums due to the commonwealth under this act may be recovered by the attorney general in an action brought in the name of the commissioner. The commissioner shall have the same powers and remedies with respect to the collection of said sums as he has with respect to the collection of income taxes under chapter sixty-two of the General Laws. Sums overdue shall bear interest at the rate of six per cent per annum from the date when due to the date of payment. The commissioner may require a licensee under section two to furnish a surety company bond with a surety company authorized to do business in the commonwealth as surety, in such amount as he may fix, conditioned upon the payment of the excise provided by this act.

SECTION 10. No person shall have in his possession for a period in excess of forty-eight hours a machine for vending cigarettes unless there shall be attached to the same a disc or marker as provided in section two; provided, that this provision shall not apply to any such machine while not containing cigarettes and in the possession of a manufacturer of, or dealer in, such machines or a licensed vending machine operator. Any person violating this provision, and any person who shall sell, offer for sale or possess with intent to

sell any cigarettes or otherwise act as a manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer, transportation company or retailer without being licensed so to do under section two, shall, in addition to any other penalty provided by this act, be punished by a fine of not less than five hundred nor more than one thousand dollars or by imprisonment for not more than one year, or both. Any person who knowingly purchases or possesses any cigarettes not manufactured, purchased or imported by a manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer or transportation company, as the case may be, so licensed, shall be punished by a fine of not less than fifty nor more than one thousand dollars. No person, either as principal or agent, shall sell or solicit orders for cigarettes to be shipped, mailed or otherwise sent or brought into the commonwealth to any person not a manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer or transportation company so licensed. Any licensee under section two who files any false return, affidavit or statement, or who violates any provision of this act for which no other penalty has been provided, shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. The state police and all local police authorities shall at the request of the commissioner or his duly authorized agent enforce the preceding provisions of this section. A licensee under section two who fails to file a return to the commissioner as required by section six, or a corrected return as required by section seven, or who fails to make a report required by section eleven, for the period of ten days after written notice by the commissioner so to do, shall forfeit to the commonwealth and pay to the commissioner on demand the sum of five dollars for each day of delay after mailing or delivery of written notice by the commissioner of such failure. The commissioner may for cause remit the whole or a part of the amount so forfeited. Any person other than such a licensee who knowingly sells or offers for sale or possesses any cigarettes upon which the excise imposed by this act has not been paid shall be liable to the commonwealth in double the amount of the excise in an action of contract; provided, that this provision shall not apply in the case of cigarettes included or required to be included in a return of a manufacturer, wholesaler, sub-jobber, vending machine operator, unclassified importer or transportation company licensed under section two. Any such licensee required to make return of the sale of cigarettes who knowingly sells cigarettes and does not make return of the same shall be liable to the commonwealth in double the amount of the excise in an action of contract.

SECTION 11. Each retailer shall keep within the commonwealth complete and accurate records of all cigarettes purchased or otherwise acquired and sold. Such records shall be of such kind and in such form as the commissioner may

prescribe and shall be safely preserved for two years in such manner as to insure permanency and accessibility for inspection by the commissioner or his authorized representative. The commissioner may require any retailer to make reports as often as he deems necessary to enable him to determine whether the excise imposed by this act has been fully paid. The commissioner and his authorized representatives may examine the books, papers and records of any retailer in the commonwealth, for the purpose of determining whether the excise imposed by this act has been fully paid, and may investigate and examine any stock of cigarettes in or upon any premises where such cigarettes are possessed, stored or sold, for the purpose of determining whether the provisions of this act are being obeyed.

SECTION 12. Any person aggrieved by any action of the commissioner or his authorized representatives under this act for which an appeal is not provided in section seven may, within ten days after written notice of such action is delivered or mailed to him, apply to the commissioner in writing for a hearing, setting forth the reasons why such hearing should be granted and the manner of relief sought. The commissioner shall consider each such application and may grant or deny the hearing requested. If the hearing be denied, the applicant shall be notified in writing thereof; if it be granted, the commissioner shall in writing notify the applicant of the time and place fixed for such hearing. After such hearing, the commissioner shall notify the applicant of his decision. The commissioner may, by notice in writing, at any time, order a hearing on his own initiative.

SECTION 13. The commissioner and any representative of the commissioner duly authorized to conduct any inquiry, investigation or hearing hereunder shall have power to administer oaths and take testimony under oath relative to the matter of inquiry or investigation. At any hearing ordered by the commissioner, the commissioner or his representative authorized to conduct such hearing may subpoena witnesses and require the production of books, papers and documents pertinent to such inquiry. No witness under subpoena authorized to be issued by any provision of this act shall be excused from testifying or producing books or papers on the ground that such testimony or the production of such books or other documentary evidence would tend to incriminate him, but such evidence or the books or papers so produced shall not be used in any criminal proceeding against him arising out of any violation of any provision of this act. If any person shall disobey such process or, having appeared in obedience thereto, shall refuse to answer any pertinent question put to him by the commissioner or his authorized agent or to produce any books and papers pursuant thereto, the commissioner or such representative may apply to the superior court for the county wherein the person, relative to whose business such hearing is ordered, resides or wherein such business has been conducted, or to any justice of said

court if the same shall not be in session, setting forth such disobedience to process or refusal to answer and said court or justice shall cite such person to appear before said court or justice to answer such question or to produce such books and papers, and, upon his refusal so to do, may commit him to jail until he shall testify, but not for a longer period than sixty days. Notwithstanding the serving of the term of such commitment by any person, the commissioner may proceed in all respects with such inquiry and examination as if the witness had not previously been called upon to testify. Officers who serve subpoenas issued by the commissioner or under his authority and witnesses attending a hearing conducted by him hereunder shall receive fees and compensation at the same rates as officers and witnesses before the courts of the commonwealth, to be paid on vouchers of the commissioner or on order of the comptroller, and the state treasurer shall pay said amount, without any appropriation therefor by the general court, out of the proceeds of the excise imposed by this act.

SECTION 14. Any person aggrieved because of a decision of the commissioner under section twelve may appeal therefrom to the appellate tax board within ten days after written notice of the decision has been mailed or delivered to him. The appellant shall at the time of taking an appeal file with said board a surety company bond running to the commonwealth with a surety company authorized to do business in the commonwealth as surety, in such sum as said board shall fix, conditioned to prosecute the appeal to effect and to comply with the orders and decrees of said board in the premises. Such appeals shall be preferred cases to be heard, unless cause appears to the contrary, in priority to other cases. During the pendency of any such appeal the decision of the commissioner so appealed from shall, unless otherwise ordered by said board, be inoperative. Said board may grant such relief as may be equitable and may certify to the comptroller the amount of such relief, and the state treasurer shall pay to the aggrieved taxpayer such amount, with interest at the rate of four per cent per annum, without any appropriation therefor by the general court, out of the proceeds of the excise imposed by this act. If the appeal shall have been taken without probable cause, the board may tax double or triple costs, as the case shall demand; and, upon all such appeals which may be denied, costs may be taxed against the appellant at the discretion of the board; provided, that no costs shall be taxed against the commonwealth.

SECTION 15. The administration of this act is vested in the commissioner. All forms necessary and proper for the enforcement of this act shall be prescribed and furnished by the commissioner. The commissioner may prescribe regulations and rulings not inconsistent with law, to carry into effect the provisions of this act, which regulations and rulings, when reasonably designed to carry out the intent and

purpose of this act, shall be prima facie evidence of its proper interpretation.

SECTION 16. At the request of the commissioner of corporations and taxation, the commissioner of public safety may appoint employees of the department of corporations and taxation as special police officers, each to serve for a term of two years subject to removal by the commissioner of public safety. Such police officers shall report to the commissioner of public safety as to their official acts at such time and in such manner as he may require. They shall serve without pay, except their regular compensation as employees of said department, and shall have and exercise throughout the commonwealth powers of state police officers to serve warrants and other criminal processes and to arrest and detain any person violating any provision of this act.

SECTION 17. If any provision or provisions of this act are declared unconstitutional or inoperative by a final judgment, order or decree of the supreme court of the United States or of the supreme judicial court of the commonwealth, the remaining parts of said act shall not be affected thereby.

SECTION 18. For the purpose of making adequate preparation for administering the excise provided by this act, including preparation of forms and the procuring of equipment, the commissioner of corporations and taxation may expend sums not exceeding, in the aggregate, the sum of ten thousand dollars, which sum is hereby appropriated from the general fund or ordinary revenue of the commonwealth, pursuant to a recommendation of the governor to that effect.

SECTION 19. Sections one to seventeen, inclusive, of this act shall become effective on July first of the current year and shall continue in effect until July first, nineteen hundred and forty-three; and this section and section eighteen of this act shall take effect upon its passage.

Approved June 26, 1941.

On and after the date when this act ceases to be operative any and all obligations which shall have arisen prior to such date or which may arise thereafter in connection therewith, and any violations which shall have occurred prior to such date, shall be deemed not to be affected, terminated or waived by reason of the fact that this act has ceased to be operative.

SECTION 2. The milk control board may continue expenditures in each of the months of July and August in the current year at the monthly rate authorized by appropriations made for the current fiscal year by items 0906-01 and 0906-02 of the general appropriation act of the current year, until the general court makes an appropriation for expenditures by said board during said months of July and August.

Whoever violates this section shall be punished by a fine of not less than ten dollars for each such fish.

SECTION 2. No person shall take, or attempt to take, with or by the use of a net, seine or any other contrivance of any kind or description, except hook and line, any striped bass within the jurisdiction of the commonwealth; provided, that it shall not be a violation of this section for any person to take striped bass by means of such seine, net or other contrivance, while fishing for other fish for the catching of which the use of such seine, net or other contrivance is permitted, if such striped bass is immediately returned alive to the waters from which taken; and provided, further, that this section shall not affect the taking of striped bass by means of seines under authority of chapter fifty-two of the acts of eighteen hundred and ninety-one, or the taking of such fish in fish traps licensed under section twenty of chapter one hundred and thirty of the General Laws, or similar provisions of law in force while this act is in operation, but such traps may be examined by the director, or some person thereunto authorized by him in writing, and if it appears, after such examination, that such trap is constructed or operated for the primary purpose of taking striped bass, the director, after a hearing, may in writing order the licensee to alter the construction or operation of such trap, and any licensee who fails to so alter such trap within forty-eight hours after notice therefor has been received shall be punished by a fine of not less than one hundred dollars for each day or part thereof that such trap remains in operation contrary to such order.

AN ACT RELATIVE TO THE EXPENSE OF THE MAKING SECURE
OR THE REMOVAL OF CERTAIN BUILDINGS OR OTHER STRUC-
TURES BY THE BUILDING COMMISSIONER OF THE CITY OF
BOSTON. Chap. 445

Be it enacted, etc., as follows:

SECTION 1. Chapter five hundred and fifty of the acts of nineteen hundred and seven is hereby amended by striking out section five, as most recently amended by section two of chapter two hundred and fifty of the acts of nineteen hundred and thirty-one, and inserting in place thereof the following section:—*Section 5.* The person notified as provided in the preceding section shall provide sufficient means of egress in case of fire satisfactory to the building commissioner, or shall comply with the provision of this act which is being violated, or shall secure or remove said building, structure, attachment or connection forthwith. If the public safety so requires, the commissioner, with the approval of the mayor, may at once enter the building or other structure which he finds unsafe or dangerous, the land on which it stands or the abutting land or buildings, with such assistance as he may require, and secure or remove the same, and may erect such protection for the public by proper fence or otherwise as may be necessary, and for this purpose may close a public highway.

A claim for the expense incurred by the commissioner under this section shall constitute a debt due the city upon the completion of the work and the rendering to the owner of an account therefor, and shall be recoverable from the owner in an action of contract. Said debt, together with interest thereon at the rate of six per cent per annum from the date upon which said debt became due, shall constitute a lien upon the real estate on or relative to which the expense was incurred, as hereinafter provided. Such lien shall take effect upon the filing, within ninety days after the debt became due, for record in the registry of deeds for Suffolk county, or, in the case of registered land, with the assistant recorder for the Suffolk registry district of the land court, of a statement of the claim, signed by the commissioner, setting forth the amount claimed without interest. Such lien shall continue for two years from the first day of October next following the date of filing said statement. Such lien may be dissolved by filing for record in such registry of deeds or with said assistant recorder, as the case may be, a certificate from the collector of taxes that the debt for which such lien attached, together with interest and costs thereon, has been paid or legally abated. The collector shall have the same powers and be subject to the same duties with respect to such claim as in the case of the annual taxes upon real estate, and the provisions of law relative to the collection of such annual taxes, the sale of land for the non-payment thereof, and the redemption of land so sold shall apply.

The owner of the real estate to which a lien has attached, as provided in this section, within ninety days after the statement of said lien was filed in the registry of deeds or with said assistant recorder, as the case may be, may apply in writing to the commissioner for a hearing and such hearing, after due notice, shall be given by the commissioner within a reasonable time thereafter. The commissioner, if he is satisfied after said hearing that the amount of the claim is more than the amount actually expended to make safe or remove the building or structure, may reduce the amount of the claim to the amount so actually expended. If the owner of said premises is aggrieved by any decision of the commissioner under authority of this section he may, within thirty days after notice of said decision has been mailed to him, appeal to the municipal court of the city of Boston, which shall hear and finally establish the amount of the claim.

Before beginning the removal of any building or other structure, the building commissioner shall give notice, by mail, to the owner of his right to the material, upon request, if he is known and can be found; otherwise by posting an attested copy of such notice in a conspicuous place upon the external walls of such building. If the owner claims the material, he shall at once so notify the commissioner in writing and shall remove the same within ten days after the building or structure is taken down, and if he fails to do so the building commissioner may dispose of the material.

SECTION 2. This act shall take effect upon its passage.

Chap. 446 AN ACT RELATIVE TO THE EXPENSE OF THE REMOVAL OF CERTAIN BUILDINGS OR PARTS THEREOF BY THE HEALTH COMMISSIONER OF THE CITY OF BOSTON.

Be it enacted, etc., as follows:

SECTION 1. Chapter two hundred and nineteen of the acts of eighteen hundred and ninety-seven is hereby amended by striking out section one, as amended, and inserting in place thereof the following section:— *Section 1.* Whenever the health commissioner of the city of Boston shall be of opinion that any building or any part thereof in said city is infected with contagious disease, or by reason of want of repair has become dangerous to life, or is unfit for use because of defects in drainage, plumbing, ventilation, or in the construction of the same, or because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants, said commissioner may issue an order requiring all persons therein to vacate or cease to use such building or part thereof stated in the order, for reasons to be stated therein as aforesaid. Said commissioner shall cause said order to be affixed conspicuously to the building or part thereof, and to be personally served on the owner, lessee, agent, occupant or any person having the charge or care

thereof; if the owner, lessee or agent cannot be found in the said city, or does not reside therein, or evades or resists service, then said order may be served by depositing a copy thereof in the post office of said city, postpaid and properly inclosed and addressed to such owner, lessee or agent at his last known place of business or residence. Such building or part thereof shall be vacated within ten days after said order shall have been posted and mailed as aforesaid, or within such shorter time, not less than forty-eight hours, as in said order may be specified, and said building shall be no longer used; but whenever said commissioner shall become satisfied that the danger from said building or part thereof has ceased to exist, or that said building has been repaired so as to be habitable, he may revoke said order. Whenever in the opinion of said commissioner any building or part thereof in said city is because of age, infection with contagious disease, defects in drainage, plumbing or ventilation, or because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants, or among the occupants of other property in said city, or because it makes other buildings in said vicinity unfit for human habitation or dangerous or injurious to health, or because it prevents proper measures from being carried into effect for remedying any nuisance injurious to health, or other sanitary evils in respect of such other buildings, so unfit for human habitation that the evils in or caused by said building cannot be remedied by repairs or in any other way except by the destruction of said building or of any portion of the same, said commissioner may order the same or any part thereof to be removed; and if said building is not removed in accordance with said order said commissioner shall remove the same.

SECTION 2. Said chapter two hundred and nineteen is hereby further amended by striking out section two and inserting in place thereof the following section: — *Section 2.* A claim for the expense incurred by the health commissioner of the city of Boston under section one shall constitute a debt due the city upon the completion of the work and the rendering to the owner of an account therefor, and shall be recoverable from the owner in an action of contract. Said debt, together with interest thereon at the rate of six per cent per annum from the date upon which said debt became due, shall constitute a lien upon the real estate on or relative to which the expense was incurred, as hereinafter provided. Such lien shall take effect upon the filing, within ninety days after the debt became due, for record in the registry of deeds for Suffolk county, or, in the case of registered land, with the assistant recorder for the Suffolk registry district of the land court, of a statement of the claim, signed by said commissioner, setting forth the amount claimed without interest. Such lien shall continue for two years from the first day of October next following the date of filing said statement. Such lien may be dissolved by filing

for record in such registry of deeds or with said assistant recorder, as the case may be, a certificate from the collector of taxes that the debt for which such lien attached, together with interest and costs thereon, has been paid or legally abated. The collector shall have the same powers and be subject to the same duties with respect to such claim as in the case of the annual taxes upon real estate, and the provisions of law relative to the collection of such annual taxes, the sale or taking of land for the non-payment thereof, and the redemption of land so sold or taken shall apply.

The owner of the real estate to which a lien has attached, as provided in the preceding paragraph, within ninety days after the statement of said lien was filed in the registry of deeds or with said assistant recorder, as the case may be, may apply in writing to said commissioner for a hearing and such hearing, after due notice, shall be given by said commissioner within a reasonable time thereafter. Said commissioner, if he is satisfied after said hearing that the amount of the claim is more than the amount actually expended to remove the building or part thereof, may reduce the amount of the claim to the amount so actually expended. If the owner of said premises is aggrieved by any decision of said commissioner under authority of this section he may, within thirty days after notice of said decision has been mailed to him, appeal to the municipal court of the city of Boston, which shall hear and finally establish the amount of the claim.

SECTION 3. This act shall take effect upon its passage.

AN ACT RELATIVE TO BUDGETS IN CITIES.

Be it enacted, etc., as follows:

G. L. (Ter. Ed.), 44, new section 31A, added.

SECTION 1. Chapter forty-four of the General Laws is hereby amended by inserting after section thirty-one, as appearing in the Tercentenary Edition, the following new sec-

tion: — *Section 31A.* Every officer of any city except Boston having charge of, or jurisdiction over, any office, department or undertaking, requesting an appropriation shall, between November first and December first of each year, furnish the mayor and the city auditor, or officer having similar duties, on forms provided by the city auditor or officer having similar duties, and approved by the division of accounts in the department of corporations and taxation, detailed estimates of the full amounts deemed necessary for the then ensuing year for the ordinary maintenance of the office, department or undertaking under his charge or jurisdiction, and for expenditures other than the ordinary maintenance, with the amounts, if any, expended for similar purposes during the then preceding year and during the first ten months of the then current year, and an estimate of the amounts required to be expended for such purposes during the last two months of the then current year, giving explanatory statements of any differences between the amount of any estimate for the then ensuing year and the amount expended or estimated to be required as aforesaid.

Budgets
in cities.

The information hereby required to be furnished shall set forth the number of permanent or temporary employees, or both, requested in each classification or rating in the then ensuing year and the number of permanent or temporary employees, or both, employed on October thirty-first of the then current year, or the nearest week-end thereto, except laborers and persons performing the duties of laborers, with the annual, monthly, weekly or hourly compensation of such employees, and shall state whether such compensation is fixed by ordinance or otherwise and whether or not such employees are subject to chapter thirty-one.

The foregoing shall not prevent any city, upon recommendation of the mayor, from so setting forth the number of permanent or temporary laborers and persons performing the duties of laborers, or both such permanent and temporary laborers and persons, with the annual, monthly, weekly or hourly compensation of such employees.

The city auditor, or officer having similar duties, shall forthwith at the close of each year furnish the mayor with a written report of the money received from estimated receipts applicable to the payment of expenditures of that year, with an estimate of such receipts for the next succeeding year.

SECTION 2. Said chapter forty-four is hereby further amended by striking out section thirty-two, as most recently amended by section sixteen of chapter three hundred and seventy-eight of the acts of nineteen hundred and thirty-eight, and inserting in place thereof the following section: — *Section 32.* Within forty-five days after the annual organization of the city government in any city other than Boston, the mayor shall submit to the city council the annual budget which shall be a statement of the amounts recommended by him for the proposed expenditures of the

Ed.), 44, § 32,
etc., amended.

of certain
cities to sub-
mit annual

city for the then current year. The annual budget shall be classified and designated so as to show separately with respect to each officer, department or undertaking for which an appropriation is recommended: —

(1) Ordinary maintenance, which shall also include debt and interest charges matured and maturing during the year, and shall be subdivided as follows: —

(a) Salaries and wages of officers, officials and employees other than laborers or persons performing the duties of laborers; and

(b) Ordinary maintenance not included under (a); and

(2) Proposed expenditures for other than ordinary maintenance, including additional equipment the estimated cost of which exceeds three hundred dollars.

The foregoing shall not prevent any city, upon recommendation of the mayor and with the approval of the council, from adopting additional classifications and designations.

The city council may by majority vote make appropriations for the purposes recommended and may reduce or reject any amount recommended in the annual budget, but, except on recommendation of the mayor, shall not increase any amount in or the total of the annual budget, nor add thereto any amount for a purpose not included therein, except as provided in section thirty-three. Except as otherwise permitted by law, all amounts appropriated by the city council, as provided in this section, shall be for the purposes specified. In setting up an appropriation order or orders based on the annual budget, the council shall use, so far as possible, the same classifications required for the annual budget. If the council fails to take action with respect to any amount recommended in the annual budget, either by approving, reducing or rejecting the same, within forty-five days after the receipt of the budget, such amount shall without any action by the council become a part of the appropriations for the year, and be available for the purposes specified.

If, upon the expiration of forty-five days after the annual organization of the city government, the mayor shall not have submitted to the city council the annual budget for said year, the city council shall within thirty days upon its own initiative prepare the annual budget, and such preparation shall be subject to the same requirements as the mayor's annual budget, so far as apt.

Within fifteen days after such preparation of the annual budget, the city council shall proceed to act by voting thereon and all amounts so voted shall thereupon be valid appropriations for the purposes stated therein to the same extent as though based upon a mayor's annual budget, but subject, however, to such requirements, if any, as may be imposed by law.

If the council fails to take action with respect to any amount recommended in the budget, either by approving, reducing or rejecting the same, within fifteen days after such

preparation, such amount shall, without further action by the council, become a part of the appropriations for the year, and be available for the purposes specified.

Nothing in this section shall prevent the city council, acting upon the written recommendation of the mayor, from voting appropriations, not in excess of the amount so recommended, either prior or subsequent to the passage of the annual budget.

The provisions of this section shall apply, in any city adopting the Plan E form of government under chapter forty-three, only to the extent provided by section one hundred and four of said chapter.

Neither the annual budget nor appropriation orders based thereon shall be in such detail as to fix specific salaries of employees under the direction of boards elected by the people, other than the city council.

SECTION 3. Said chapter forty-four is hereby further amended by striking out section thirty-three, as appearing in the Tercentenary Edition, and inserting in place thereof the following section: — *Section 33.* In case of the failure of the mayor to transmit to the city council a written recommendation for an appropriation for any purpose not included in the annual budget, which is deemed necessary by the council, after having been so requested by vote thereof, said council, after the expiration of seven days from such vote, upon its own initiative may make such appropriation by a vote of at least two thirds of its members, and shall in all cases clearly specify the amount to be expended for each particular purpose, but no appropriation may be voted hereunder so as to fix specific salaries of employees under the direction of boards elected by the people, other than the city council.

Approved July 15, 1941.

AN ACT RELATIVE TO THE COLLECTIVE INVESTMENT OF SMALL TRUST FUNDS. *Chap. 474*

Be it enacted, etc., as follows:

The General Laws are hereby amended by inserting after chapter two hundred and three the following new chapter, under the following heading: — CHAPTER 203A. COLLECTIVE INVESTMENT OF SMALL TRUST FUNDS. *Section 1.* Any individual or corporation holding property as trustee, guardian or conservator may establish and maintain one or more common trust funds as hereinafter defined, and may invest in participations in any such common trust fund established and maintained by him or it property held by him or it as such trustee, guardian or conservator, unless the instrument under which such property is held, or the decree appointing such trustee, guardian or conservator, otherwise provides, and no other property shall be so invested. Such participations shall be equal proportionate interests in the common trust fund. Each such common trust fund shall be admin-

istered in accordance with a written declaration of trust which shall have been filed in the registry of probate in the county in which such individual or corporation resides or has his or its principal place of business, and such written declaration may provide that premiums paid on the purchase of interest bearing securities need not be amortized.

Notice to trustee.

Section 2. Prior to making the first investment of any such property held in a trust in participations in a common trust fund, notice of intention so to do shall be sent by the trustee by registered mail, postage paid, addressed to each person having a vested interest in such trust, and if any such person shall object in a writing received by the trustee within ten days from said mailing no such investment shall be made while such objection continues.

Consent of co-fiduciary.

Section 3. If the individual or corporation maintaining a common trust fund holds property as trustee, guardian or conservator together with a co-fiduciary or co-fiduciaries, investment of such property in participations in a common trust fund may be made only with the written consent of such co-fiduciary or co-fiduciaries and shall be withdrawn upon the written request of any such co-fiduciary.

Investment of funds regulated.

Section 4. No investment of funds of a common trust fund shall be made in stocks or bonds or other obligations of any one person which would cause the total amount of investment in stocks, bonds and other obligations issued or guaranteed by such person to exceed ten per cent of the value of the common trust fund, as determined by the trustee thereof; provided, that this limitation shall not apply to investments in obligations of the United States or in obligations for the payment of the principal and interest of which the faith and credit of the United States shall be pledged. No investment for a common trust fund shall be made in any one class of shares of stock of any one corporation or association which would cause the total number of such shares held by the common trust fund to exceed five per cent of the number of such shares outstanding. If the trustee thereof administers more than one common trust fund no investment shall be made which would cause the aggregate investment for all such common trust funds in shares of stock of any one corporation or association to exceed such limitation.

Annual account to be filed.

Section 5. An account of the administration of each common trust fund shall be filed annually in the registry of probate in which the declaration of trust has been filed and application for its allowance shall be made in accordance with section twenty-four of chapter two hundred and six. The allowance of such an account shall be conclusive as to all matters shown therein upon all persons then or thereafter interested in the funds invested in said common trust fund.

Participation in trust fund.

Section 6. A participation in a common trust fund shall be acquired or surrendered by any such trustee, guardian or conservator on payment in full of the proportion of the value of the assets of the common trust fund represented by the participation, as computed in good faith by the trustee

thereof at fair market value as of a date not more than two business days prior to the acquisition or surrender.

Section 7. No participation in a common trust fund shall be acquired by any trustee, guardian or conservator while any investment therein is such as would then not be a proper investment for a trustee or then not be readily marketable, or such as would result in any such trustee, guardian or conservator having participations in common trust funds of a total value in excess of twenty-five thousand dollars as computed in accordance with the provisions of the preceding section, or as would result in an inter vivos trust created after the date of said declaration of trust having a participation in common trust funds of a total value of less than four thousand dollars.

Investments regulated.

Section 8. Prior to any withdrawal from a common trust fund the trustee thereof shall determine what percentage of the value of the assets of the common trust fund is composed of cash and readily marketable securities, and if such trustee determines that, after effecting the withdrawals then contemplated, less than forty per cent of the value of the remaining assets of the common trust fund would be composed of cash and readily marketable securities, no withdrawals from the common trust fund shall be permitted as of the valuation date upon which such determination is made, except that ratable distribution upon all participations is not prohibited. Prior to any such withdrawal the trustee shall also determine whether any investment in the common trust fund is such as would then not be a proper investment for a trustee, and no withdrawal shall be permitted until any such improper investment shall have been eliminated from the common trust fund either through sale, distribution in kind, or segregation for the benefit ratable of all trusts then participating in the common trust fund.

Proceedings prior to withdrawal from fund.

Section 9. The trustee, guardian or conservator holding participations in a common trust fund shall be entitled to reasonable compensation for his or its services as such out of the funds held by such trustee, guardian or conservator, but to no extra or additional compensation out of the common trust fund or because of the investment therein of the funds by such trustee, guardian or conservator. No fee, commission or compensation whatsoever for management of a common trust fund shall be paid from any common trust fund.

Compensation of trustee, etc.

Section 10. The declaration of trust of a common trust fund may contain by reference or otherwise any or all of the provisions of this chapter and such other or further provisions as shall not be in conflict therewith.

Reference to chapter in declaration of trust.

Upon receipt of notice of such finding by said Social Security Board the director of the division of unemployment compensation shall promptly report the amount required for such replacement to the governor who shall include said amount in the next budget for expenditures of the commonwealth, or by message to the general court request the inclusion of such amount in the next general, or in a special, appropriation bill. SECTION 1. The governor, on behalf of this commonwealth, is hereby authorized to enter into a compact, substantially in the following form, with any one or more of the

states of Maine, New Hampshire, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida and with such other states as may legally join therein, and the general court hereby signifies in advance its approval and ratification of such a compact so entered into, such approval and ratification to be effective upon the filing of a copy of such compact in the office of the state secretary: —

ATLANTIC STATES MARINE FISHERIES COMPACT.

The contracting states solemnly agree:

Article I.

The purpose of this compact is to promote the better utilization of the fisheries, marine, shell and anadromous, of the Atlantic seaboard by the development of a joint program for the promotion and protection of such fisheries, and by the prevention of the physical waste of the fisheries from any cause. It is not the purpose of this compact to authorize the states joining herein to limit the production of fish or fish products for the purpose of establishing or fixing the price thereof, or creating and perpetuating monopoly.

Article II.

This agreement shall become operative immediately as to those states executing it whenever any two or more of the states of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida have executed it in the form which is in accordance with the laws of the executing state and the Congress has given its consent. Any state contiguous with any of the aforementioned states and riparian upon waters frequented by anadromous fish, flowing into waters under the jurisdiction of any of the aforementioned states, may become a party hereto as hereinafter provided.

Article III.

Each state joining herein shall appoint three representatives to a Commission hereby constituted and designated as the Atlantic States Marine Fisheries Commission, hereinafter referred to as the commission. One shall be the executive officer of the administrative agency of such state charged with the conservation of the fisheries resources to which this compact pertains or, if there be more than one officer or agency, the official of that state named by the governor thereof. The second shall be a member of the legislature of such state designated by the Commission or Committee on Interstate Cooperation of such state, or if there be none, or if said Commission on Interstate Cooperation cannot constitutionally designate the said member, such legislator shall be

designated by the Governor thereof; provided, that if it is constitutionally impossible to appoint a legislator as a commissioner from such state, the second member shall be appointed by the governor of said state in his discretion. The third shall be a citizen who shall have a knowledge of and interest in the marine fisheries problem to be appointed by the governor. The Commission shall be a body corporate with the powers and duties set forth herein.

Article IV.

The duty of the Commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about the conservation and the prevention of the depletion and physical waste of the fisheries, marine, shell and anadromous, of the Atlantic seaboard. The Commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their respective jurisdictions to promote the preservation of those fisheries and their protection against overfishing, waste, depletion or any abuse whatsoever and to assure a continuing yield from the fisheries resources of the aforementioned states.

To that end the Commission shall draft and, after consultation with the advisory committee hereinafter authorized, recommend to the governors and legislatures of the various signatory states legislation dealing with the conservation of the marine, shell and anadromous fisheries of the Atlantic seaboard. The Commission shall, more than one month prior to any regular meeting of the legislature in any signatory state, present to the governor of the state its recommendations relating to enactments to be made by the legislature of that state in furthering the intents and purposes of this compact.

The Commission shall consult with and advise the pertinent administrative agencies in the states party hereto with regard to problems connected with the fisheries and recommend the adoption of such regulations as it deems advisable.

The Commission shall have power to recommend to the states party hereto the stocking of the waters of such states with fish and fish eggs or joint stocking by some or all of the states party hereto and when two or more of the states shall jointly stock waters the Commission shall act as the coordinating agency for such stocking.

Article V.

The Commission shall elect from its number a chairman and a vice chairman and shall appoint and at its pleasure remove or discharge such officers and employees as may be required to carry the provisions of this compact into effect and shall fix and determine their duties, qualifications and compensation. The Commission shall adopt rules and regulations for the conduct of its business. It may establish and

maintain one or more offices for the transaction of its business and may meet at any time or place but must meet at least once a year.

Article VI.

No action shall be taken by the Commission in regard to its general affairs except by the affirmative vote of a majority of the whole number of compacting states present at any meeting. No recommendation shall be made by the Commission in regard to any species of fish except by the affirmative vote of a majority of the compacting states which have an interest in such species. The Commission shall define what shall be an interest.

Article VII.

The Fish and Wildlife Service of the Department of the Interior of the United States shall act as the primary research agency of the Commission cooperating with the research agencies in each state for that purpose. Representatives of said Fish and Wildlife Service shall attend the meetings of the Commission.

An advisory committee to be representative of the commercial fishermen and the salt water anglers and such other interests of each state as the Commission deems advisable shall be established by the Commission as soon as practicable for the purpose of advising the Commission upon such recommendations as it may desire to make.

Article VIII.

When any state other than those named specifically in Article II of this compact shall become a party thereto for the purpose of conserving its anadromous fish in accordance with the provisions of Article II the participation of such state in the action of the Commission shall be limited to such species of anadromous fish.

Article IX.

Nothing in this compact shall be construed to limit the powers of any signatory state or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by any signatory state imposing additional conditions and restrictions to conserve its fisheries.

Article X.

Continued absence of representation or of any representative on the Commission from any state party hereto shall be brought to the attention of the governor thereof.

Article XI.

The states party hereto agree to make annual appropriations to the support of the Commission in proportion to the

primary market value of the products of their fisheries, exclusive of cod and haddock, as recorded in the most recent published reports of the Fish and Wildlife Service of the United States Department of the Interior; provided, that no such state shall contribute less than two hundred dollars per annum and that the annual contribution of each such state above the minimum shall be figured to the nearest one hundred dollars.

The compacting states agree to appropriate initially the annual amounts scheduled below, which amounts are calculated in the manner set forth herein, on the basis of the catch record of nineteen hundred and thirty-eight. Subsequent budgets shall be recommended by a majority of the Commission and the cost thereof allocated equitably among the states in accordance with their respective interests and submitted to the compacting states.

Chap. 491 AN ACT RELATIVE TO PROVISIONAL AND EMERGENCY APPOINTMENTS AND PROMOTIONS IN THE CLASSIFIED CIVIL SERVICE.

Emergency preamble.

Whereas, In view of the present national emergency any delay in the taking effect of this act would defeat its purpose to prevent interruption or delay in the performance of necessary work or services in certain state departments, boards and commissions in connection with the national defense, therefore this act is hereby declared to be an emergency law, necessary for the preservation of the public health and convenience.

Be it enacted, etc., as follows:

G. L. (Ter. Ed.), 31, § 15, etc., amended.

Appointments in the classified service, how made.

Chapter thirty-one of the General Laws is hereby amended by striking out section fifteen, as amended by section two of chapter five hundred and six of the acts of nineteen hundred and thirty-nine, and inserting in place thereof the following section: — *Section 15.* No person shall be appointed or promoted to any position in the classified civil service except upon requisition by the appointing officer and upon certification by the director from an eligible list prepared in accordance with this chapter and the rules and regulations

made thereunder. If there is no such list, or if the director is unable to comply with a requisition, he may, subject to section twenty-five, authorize a provisional appointment. Such a provisional appointment may be authorized to fill a permanent position for a period of not more than three months, and may be renewed for an additional three months, except that in departments, institutions or hospitals the functions of which are connected with public safety or public health where the public service would otherwise suffer, the director may renew such provisional appointment for one more additional period of three months if supported by four affirmative votes of the commission, and a statement of such renewal and the reasons therefor shall be set forth by the director in his monthly report; but no person shall be certified for more than one such provisional appointment and renewal or renewals, as the case may be, in any twelve-month period. Authorization to make a provisional appointment shall be void if not exercised within two weeks from the date thereof. The director shall forthwith conduct an examination and establish an eligible list for such a position within six months after the provisional appointee is actually employed. A provisional appointment to fill a permanent position shall, except in the case of a second renewal of such a provisional appointment as aforesaid, be terminated by the director within fourteen days after the establishment of an eligible list for such position, and it may be terminated by the director at any time.

Except as otherwise provided in sections nineteen A, twenty A, twenty-two, forty-two, forty-eight, and forty-nine A of this chapter, section thirty-six of chapter forty-eight, section eleven of chapter one hundred and twenty-seven, section four of chapter two hundred and seventy-three of the acts of nineteen hundred and thirteen, and section four of chapter three hundred and seventy-two of the acts of nineteen hundred and fourteen, no person shall receive an original appointment to the classified official service of the commonwealth or any city or town thereof subject to the provisions of this chapter otherwise than by virtue of a competitive examination unless (a) the director shall certify that he has previously held a competitive examination for the position involved and has been unable to establish an eligible list of at least two persons, or unless (b) a position not under civil service is placed thereunder by virtue of a statute or rule and the director makes recommendations supported by four affirmative votes of the commission to include under civil service any present incumbents of the position.

In cases arising under the provisions of said clause (a), a person to be selected by the appointing officer in accordance with this chapter and rules made thereunder may be appointed subject to passing a non-competitive or qualifying examination, as the director may authorize. If one person

passes a competitive examination and the appointing official signifies his desire to appoint said person to the position, the appointment shall be authorized by the director.

A provisional appointment to fill a temporary position shall continue for the period for which it was authorized; provided, that no such appointment shall be made for more than three months, and the director may authorize not more than one further provisional appointment to the same temporary position in any twelve-month period. Any alteration in the nature of the employment of a person holding such a provisional appointment or any increase in salary thereof shall immediately terminate such an appointment.

In case of an emergency, which could not have been foreseen and where the public business would be seriously impeded by delay in filling any position in the manner provided by law, an appointing officer may make an emergency appointment without requisition; but in no case shall such emergency appointment continue for more than thirty days within the sixty consecutive days next following, and in every such case he shall forthwith report the same to the director, stating the reason therefor, in such form and detail as the director may prescribe, and the time, not exceeding thirty days within the sixty consecutive days next following, for which such employment is to last. No such emergency appointment shall be renewed except with the consent of the director or be renewed more than once, except that in departments, institutions or hospitals the functions of which are connected with the public safety or public health where the public service would otherwise suffer, the director may renew such emergency appointment for one additional period; but no person shall receive more than one such appointment and renewal or renewals, as the case may be, in any twelve-month period. Vacancies of which an appointing authority has had, or might with due diligence have, reasonable knowledge shall not be considered an emergency under this section.

Promotions
and promo-
tional exami-
nations.

Except in police and fire departments, an appointing official may with the approval of the director promote in the official service an employee in one grade to the next higher grade; provided, that such employee has been employed at least three years in the lower grade, is the oldest employee, the second oldest employee, or the third oldest employee therein in point of service, and that such employee passes a qualifying examination prescribed by the director. Otherwise, any promotion shall be made after a competitive promotional examination open to the next lower grades in succession in the service of the same department, board or commission until a sufficient number of applicants to hold a competitive examination is obtained. In case an eligible list of at least two persons is not established from such promotional examination, then a competitive promotional examination may be held open to any class within the service of the same or any other department, board or commis-

sion, as the director may determine. In case an eligible list of at least two persons is not established from either of such promotional examinations, the position shall be filled after open competitive examination; provided, that if there be one person on either eligible list, the director shall certify such person. In departments, boards and commissions having not more than two employees, an appointing official may promote in the official service the sole employee or either one of the two, as the case may be; provided, that such employee passes a qualifying examination prescribed by the director; and provided, further, that such employee has been employed for at least three years in the service of such department, board or commission.

Chap.517 AN ACT PROVIDING FOR A RECLASSIFICATION OF THE OFFICES AND POSITIONS IN THE DIVISION OF UNEMPLOYMENT COMPENSATION OF THE DEPARTMENT OF LABOR AND INDUSTRIES.

Emergency
preamble.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to provide without delay for the prompt and efficient administration of the laws relating

to unemployment compensation by reclassification of certain offices and positions in the division of unemployment compensation, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. The director of personnel and standardization shall reclassify in accordance with chapter thirty of the General Laws all offices and positions in the division of unemployment compensation in the department of labor and industries, established under chapter twenty-three of the General Laws, except deputies and assistants referred to in subsection (a) of section nine I of said chapter twenty-three, and under chapter one hundred and fifty-one A of the General Laws.

SECTION 2. Upon the completion of said reclassification the director of the division of unemployment compensation, with the approval of the director of civil service, shall prepare a list of employees who, upon the effective date of this act, are in the classified service as defined by the civil service laws and regulations and are performing duties in offices and positions affected by the reclassification, and who have satisfied the director of the division of unemployment compensation by actual performance of such duties that they are capable, efficient and qualified to perform the duties of the offices and positions newly reclassified.

Such list shall contain the name of each such employee, and a statement as to the employee's qualifications to perform the duties of the offices and positions as reclassified; the length of time during which the employee has performed said duties as reclassified; and the quality of service rendered to the division of unemployment compensation.

(a) The director of the division of unemployment compensation shall thereupon transmit such list to the director of civil service together with a request that the employees now performing duties in offices and positions as reclassified shall be given the titles of the offices or positions as reclassified.

(b) The director of civil service on receipt of the list transmitted under paragraph (a) shall forthwith proceed to give a qualifying examination to each employee on the list to determine his qualifications to perform the duties of the office or position he holds and which has been reclassified.

(c) If said employee qualifies under the foregoing examination, the director of civil service shall thereupon certify that the employee is qualified to perform the duties of the office or position as reclassified. If said employee fails to qualify under such examination, said director shall transmit to the director of the division of unemployment compensation notice of the results of said examination. (e) Nothing in this section shall cause to any permanent employee of the division of unemployment compensation the loss of any remuneration or any legal rights acquired under chapters thirty-one and thirty-two of the General Laws.

A. The actual capacity of a hot water tank shall be within seven and one half per cent of the capacity stamped on the tank.

B. A hot water tank shall be so constructed by riveting, welding, or otherwise, as to withstand the stamped test pressure without visible permanent distortion, and be so

designed as to have an ultimate strength sufficient to withstand a hydrostatic pressure twenty-five per cent higher than the stamped test pressure.

C. Solder which melts at a temperature below seven hundred degrees Fahrenheit shall not be used to hold the tank together, but may be used to make it water tight, cistern tanks excepted.

D. A hot water tank in which water is to be heated or stored under pressure greater than fifteen pounds per square inch shall have a stamped test pressure of not less than two hundred pounds per square inch.

E. The maximum working pressure at which a hot water tank may be installed shall not be greater than forty-two and one half per cent of the test pressure marked on the tank.

SECTION 3. Said chapter one hundred and forty-two is hereby further amended by striking out section nineteen, as so appearing, and inserting in place thereof the following section:— *Section 19.* No hot water tank shall be installed and connected unless it is protected with safety devices as follows:—

A. A hot water tank in which water is to be heated or stored under pressure greater than fifteen pounds per square inch shall be equipped with a suitable pressure relief valve installed in a tapping in the tank or in the cold water supply line, or the hot water outlet line, with no shut-off valve between the relief valve and the tank. The pressure relief valve shall be set by the manufacturer to operate at a pressure not more than twenty pounds above the maximum working pressure stamped on the tank, and shall be so constructed that said setting cannot be exceeded by normal means of adjustment.

B. A hot water tank to which a heating device or appliance capable of delivering water to the tank at a temperature greater than two hundred and twelve degrees Fahrenheit is connected shall be equipped with a suitable temperature relief valve so adjusted and installed as to prevent development of or accumulation of water which is at a temperature in excess of two hundred and twelve degrees Fahrenheit. Said temperature relief valve shall be installed in a tapping directly in or on the tank within twelve inches of the top of a vertical tank, or within six inches of the top of a horizontal tank, with no fittings between the valve and the tank, except that a bushing may be used to reduce the tapping to fit the valve, or the valve shall be installed in the hot water outlet pipe as close to the top of the tank as possible. In no case shall the heat sensitive member of the temperature relief valve be more than five inches away from the top of the tank. The discharge outlet of the temperature relief valve shall be connected by means of a non-ferrous pipe or tubing not less than three eighth inch inside diameter, with no shut-off, to an open plumbing fixture, or to within twelve inches of the basement floor.

A thermostatically controlled hot water tank may be protected by an automatic fuel shut-off device in addition to the thermostat. Such shut-off device shall be installed in the same location and perform the same function as said temperature relief valve.

C. All parts of temperature and pressure relief valves which are in contact with water shall be made of non-ferrous metals or materials having suitable corrosion resisting properties. All pipe and fittings between relief valves and the hot water tank shall be of non-ferrous metals.

D. Relief valves shall be marked by the manufacturer, by stamping or casting in the metal of the valve, or on a metal tag permanently attached to the valve, as follows:—

1. Manufacturer's name or registered trade mark.

5. Temperature relieving capacity in B. T. U. per hour.

E. Temperature and pressure relief valves and other devices referred to in this section shall be subject to the approval of the inspectors of plumbing or other proper authorities.

F. All pipes and fittings in the circulating system between a hot water tank and the heating device or appliance shall be non-ferrous, and of ample size so as to make it possible to heat seventy-five per cent of the available water in the tank without raising the temperature of any part of the water above two hundred and twelve degrees Fahrenheit.

SECTION 4. Said chapter one hundred and forty-two is hereby further amended by inserting at the end the following new section:— *Section 22*. Whoever violates any provision of section seventeen, eighteen or nineteen shall be punished by a fine of not more than fifty dollars. Emergency
preamble.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to provide land for the immediate extension of the navy dry dock property in Boston harbor for the purposes of national defense, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public safety.

Be it enacted, etc., as follows:

SECTION 1. For the purpose of enabling the United States of America to extend the present limits of the navy dry dock property in Boston harbor at South Boston, the commonwealth, subject to the conditions hereinafter imposed, grants and cedes to the United States of America jurisdiction over and all right and claim of the commonwealth to three areas of land at South Boston, described as follows: —

Area "A". Upland and navigable waters. Beginning at the intersection of the southeasterly side line of Harbor street with the northeasterly side line of Summer street, said intersection being the southwesterly corner of property of the United States of America acquired from the commonwealth of Massachusetts by deed dated April twenty-third, nineteen hundred and eighteen, thence north forty-nine degrees one minute fourteen and three tenths seconds west, four hundred and seventy-seven and four tenths feet in said northeasterly side line of Summer street to a point; thence north thirty-five degrees fourteen minutes ten and seven tenths seconds east, fourteen hundred and sixty-eight and nine tenths feet, more or less, to a point in the northeasterly side line of Northern avenue; thence north sixty-one degrees two minutes thirty-one and six tenths seconds west, five hundred and sixteen and nine tenths feet, more or less, in the northeasterly side line of said Northern avenue, to the southeasterly line of the premises leased to the Boston Fish Market Corporation; thence north twenty-eight degrees fifty-seven minutes twenty-eight and four tenths sec-

Area "C". All that area of navigable water lying southeast of said area "A" and between the harbor line as established by said chapter four hundred and three of the acts of nineteen hundred and thirty-nine and the area acquired by the United States of America by deed from the commonwealth dated April twenty-eighth, nineteen hundred and twenty, as shown on plan hereinafter referred to.

SECTION 2. The jurisdiction hereby granted and ceded shall not vest with respect to said areas until the United States of America shall have filed in the office of the state secretary, by an agent designated by the secretary of the navy, a copy of the plan hereinbefore referred to, duly authenticated by signature of such agent, and a certified copy of his authority so to act; and such jurisdiction is granted and ceded upon the express condition that the commonwealth shall retain concurrent jurisdiction with the United States of America in and over said areas, in so far that all civil processes, and such criminal processes as may issue under the authority of the commonwealth against any person or persons charged with crimes committed without said areas, and all processes for the collection of taxes levied under authority of the laws of the commonwealth, including the service of warrants, may be executed thereon in the same manner as though this cession had not been made; provided, that the title to, and the exclusive jurisdiction over, said areas shall revert to and revest in the commonwealth whenever said areas shall cease to be used for naval purposes. This grant is made subject to any and all rights and interests heretofore given in permits and licenses to persons, corporations, to the United States of America, or to any department or agency thereof, and to the provisions of the deed to the United States of America dated April twenty-third, nineteen hundred and eighteen.

SECTION 3. The United States of America is hereby authorized to place filling and erect structures in and over the navigable waters within the ceded areas subject to chapter ninety-one of the General Laws, and to pass and repass in common with others over the extension southeasterly of Northern avenue, a distance of about five hundred and five feet, to the ceded "Area A". *Approved July 28, 1941.*

Approved July 28, 1941.

AN ACT RELATIVE TO PROTECTING THE APPROACHES TO PUBLICLY OWNED AIRPORTS. Chap. 537

Whereas, It is hereby found and declared that an airport hazard exists in the commonwealth, endangers the lives and property of the users of publicly owned airports and of occupants of land in their vicinity and also, if of an obstructive character, in effect reduces the size of the areas available for the landing, taking-off and maneuvering of aircraft, thus tending to destroy or impair the utility of such airports and the public investment therein, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public safety and convenience.

Emergency
preamble.

Be it enacted, etc., as follows:

SECTION 1. Section thirty-five of chapter ninety of the General Laws, as appearing in section three of chapter three hundred and ninety-three of the acts of nineteen hundred and thirty-nine, is hereby amended by inserting after the word "surface" in the fifth line of the paragraph defining "Airport" the word:—, approach,— so that said paragraph will read as follows:—

G. L. (Ter. Ed.), 90, § 35, etc., further amended.

SECTION 4. Said section thirty-five of said chapter ninety, as so appearing, is hereby further amended by adding at the end the following two new paragraphs: —

"Publicly owned airport" defined.

G. L. (Ter. Ed.), 90, new sections 40A-40I, inserted.

Cities and towns, etc., may regulate approaches to publicly owned airports.

SECTION 5. Said chapter ninety is hereby further amended by inserting after section forty, as so appearing, the following nine new sections: — *Section 40A.* Any city, except Boston, and any town, may by ordinance or by-law adopt, and may administer and enforce, in the manner and upon the conditions hereinafter prescribed, approach regulations relative to approaches to publicly owned airports, applicable to areas within such city or town, in this section and sections forty B to forty I, inclusive, called airport approach regulations. Such regulations may divide any such area into sections and may within each section regulate and restrict the height to which structures and trees may thereafter be erected or allowed to grow. Any such regulations may from time to time be amended or repealed. Such regulations and amendments thereto shall be effective when approved by the commission and the attorney general and recorded as hereinafter provided. Such regulations or any amendments thereto shall as soon as may be after adoption and approval be recorded in the registry of deeds of each county and district in which any portion of the land to which such regulations apply is located, and notice that such regulations or amendments have been adopted shall be sent by registered mail to the owner of every parcel of land to any portion of which such regulations or amendments are applicable. For the purposes of this provision the person to whom the land was assessed in the last preceding annual tax levy shall be deemed to be the owner thereof, and the notice shall be addressed in the same manner as the notice of such tax, unless a different owner or a different address is known to be the correct one. Such notice shall also be given by publishing, in a newspaper of general circulation, if any, in each city and town in which any portion of the land subject to the regulations is located, a map of the area subject to the regulations, with sufficient explanatory mat-

ter to give the public and the owners of land reasonable notice of the adoption of the regulations or amendments, or by posting such map and explanatory matter in one or more public places in each such city and town.

Section 40B. All airport approach regulations adopted under this chapter shall be reasonable, and no such regulation shall require the removal or lowering, or other change or alteration, or prohibit the repair or replacement, of any structure or tree not conforming to the regulations when adopted or amended, or otherwise interfere with the continuance of any such non-conforming structure or tree, except as provided in section forty G.

Regulations to be reasonable.

Section 40C. In a city airport approach regulations may be adopted, amended or repealed only by action of the city council, and in a town only by vote of the town, at a meeting called for the purpose, and in either case only after a public hearing held by the city council of the city or the selectmen of the town, at which hearing all persons who might be affected in their property by the regulations, all inhabitants of the city or town, all persons liable to taxation therein and all inhabitants of adjoining cities and towns shall have an opportunity to be heard. At least fifteen days' notice of the time and place of the hearing shall be published in a newspaper of general circulation, if any, in the city or town. Airport approach regulations may be adopted by a city or town although the airport the approaches to which they are designed to protect is located in another city or town.

Public hearing before adoption, etc., of regulations.

Section 40D. (1) A city or town may by ordinance or by-law prohibit the erection of new structures or the replacement or substantial alteration of existing structures within the area to which airport approach regulations adopted under section forty A apply, without a permit from the administrative agency authorized to administer such regulations; but such a permit shall be issued as of right if the structure as erected or altered is in conformance with such regulations or will not constitute a greater hazard than the structure which is replaced or altered. No such permit shall be granted, except as provided in subsection (2) of this section, which would allow the structure or tree in question to be erected or allowed to grow to a greater height, or to become a greater hazard to air navigation, than when the applicable regulation was adopted.

Prohibition of erection of new structures, etc.

(2) Any person desiring to erect or increase the height of any structure, or to permit the growth of any tree, in a manner not conforming to airport approach regulations adopted under section forty A, or to establish the right so to do, may apply to the administrative agency authorized to administer such regulations or, if there is no such agency, to the city council of the city or to the selectmen of the town, for a variance from the regulations applicable to his property. Such variances shall be allowed where a literal application or enforcement of such regulations would result in

Variances from regulations, allowed when.

practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest.

(3) In granting any permit or variance under this section to which the applicant is not entitled as of right, the administrative agency, city council or selectmen, as the case may be, may, if it deems such action advisable to effectuate the purposes of sections forty A to forty I, inclusive, and reasonable in the circumstances, so condition such permit or variance as to require the owner of the structure or tree in question to permit the city or town, at its own expense, to install, operate, and maintain suitable obstruction markers and obstruction lights thereon.

Section 40E. Any city or town adopting airport approach regulations under section forty A may delegate the duty of administering and enforcing such regulations to any administrative agency under its jurisdiction, or may establish an administrative agency for the purpose. The duties of such administrative agency shall include that of hearing and deciding all applications for permits and variances under section forty D.

Section 40F. If any structure is erected in violation of any regulation adopted under section forty A, the administrative agency, city council or selectmen, as the case may be, having jurisdiction may direct the owner of said structure, at his own expense, to lower, remove, reconstruct or equip such structure in such manner as may be necessary to conform to such regulations. Notice of such order shall be sent by registered mail to the owner of the land upon which such structure stands, addressed in the same manner as the notice of his last preceding annual tax, unless a different owner or a different address is known by such agency, city council or selectmen, as the case may be, to be the correct one, and if such owner shall neglect or refuse to comply with such order for thirty days after the sending of the notice thereof, such agency, city council or selectmen, as the case may be, may proceed to cause such structure to be lowered, removed, reconstructed or equipped in accordance with its or their order. Such agency, city council or selectmen, as the case may be, shall certify the expense so incurred with respect to each parcel of land to the assessors of the city and town, and the assessors shall assess such expense upon the owners of said parcels respectively, such expense shall be included in their taxes and constitute a lien upon the land, and all provisions of law relating to the collection and the abatement of taxes and to interest thereon shall be applicable to such expense.

If any tree is allowed to grow in violation of any regulation adopted under section forty A, said administrative agency, city council or selectmen, as the case may be, may request the owner of said tree to cut down said tree or so much thereof as has grown in violation of such regulation; and if said owner neglects or refuses to comply with such request within sixty days after the same was given, such

agency, city council or selectmen, as the case may be, may enter upon his land, doing as little damage as possible, and cut off so much of said tree as has grown in violation of such regulations. No part of the expense of such removal shall be charged to the owner of the tree.

Section 40G. (1) In any case in which, in the opinion of the city council of a city, or the selectmen of a town, in which the real estate hereinafter referred to is located, or owning the airport in question, the public interest requires the establishment of protection to the approaches of a publicly owned airport by the acquisition of certain real estate or rights in real estate in the vicinity of such airport rather than by airport approach regulations, such city or town may take by eminent domain under chapter seventy-nine or chapter eighty A, or acquire by purchase or otherwise, such air rights, easements or other estate or interest in such real estate as will provide adequate protection. A city or town which has acquired real estate or rights therein as aforesaid may from time to time in like manner take or otherwise acquire additional real estate or rights therein, or may discontinue in whole or in part rights already so acquired.

May acquire real estate by eminent domain in certain instances.

(2) Whenever airport approach regulations have been adopted or amended and the public safety and convenience require the removal or lowering of a structure or tree not conforming to such regulations, as adopted or amended, or require other interference with the continuance of any such non-conforming structure or tree, the city or town owning the airport to which such regulations relate may take by eminent domain under chapter seventy-nine or chapter eighty A, or acquire by purchase or otherwise, the land upon which such structure or tree stands, or such an air right, easement or other estate or interest therein, as may be necessary to effectuate any purpose of sections forty A to forty I, inclusive.

Removal of structures and trees.

(3) If the adoption of airport approach regulations under section forty A in itself constitutes the taking of the property, or of rights in property, of any person, he may recover under said chapter seventy-nine compensation for such taking from the city or town in which the airport to which such regulations relate is situated, by petition filed in the superior court within two years from the time when such regulations were recorded as provided in said section forty A. If the owner of property so taken has applied for a variance under section forty D within one year after such regulations were so recorded and his application is in whole or in part denied, he may file his petition for damages within one year after the mailing to him of a notice of the denial of his application or within two years after the recording of the regulations, whichever period ends later. If the adoption and recording of airport approach regulations under section forty A is held to constitute a taking of property or of rights in property, such taking and the adoption of such regulations shall not be deemed to be invalid because

AN ACT FURTHER REGULATING THE WORCESTER RETIREMENT SYSTEM.

Chap. 554

Be it enacted, etc., as follows:

SECTION 1. Section six of chapter four hundred and ten of the acts of nineteen hundred and twenty-three is hereby amended by striking out the second paragraph, as amended by section one of chapter three hundred and forty-four of the acts of nineteen hundred and twenty-nine, and inserting in place thereof the following paragraph:—

The annuity savings fund shall be the fund to which shall be paid the deductions from the compensation of members. The treasurer of the city of Worcester shall withhold five per cent of the regular compensation due on each pay day to all employees who are members of this retirement sys-

tem, provided that employees who receive more than forty dollars weekly in compensation shall not be assessed for contribution to this fund on the excess above that amount. Except as provided in section six A, no member shall pay further deductions from his compensation after the total sum of deductions paid by him shall have amounted, with interest credited thereto, to a sum sufficient to purchase under section fifteen (1) (a) an annuity of six hundred and fifty dollars at age sixty, together with such increased annuity created by voluntary contributions on the part of the member as is provided for in section six A. Interest thereafter accruing upon the compulsory accumulated deductions shall be paid to the member on his retiring. If the accumulated deductions of any employee retired hereunder exceed the amount required to provide an annuity equal to one fourth of the average annual rate of compensation of such employee during the last five years prior to his retirement or resignation or dismissal as provided in paragraph (2) of section ten, the excess above that amount shall be paid to such employee in a lump sum with the first monthly payment on the account of his retirement allowance; provided, that this sentence shall not apply to any member who voluntarily made additional contributions under section six A, for the purpose of receiving an increased annuity upon retirement. The amounts withheld by the treasurer of the city of Worcester shall be transferred immediately thereafter to the retirement board and credited to the account of each member so contributing, and shall be paid into and become a part of said annuity savings fund.

SECTION 2. Said chapter four hundred and ten is hereby further amended by inserting after section six the following two new sections: — *Section 6A.* In addition to the regular contributions deducted from the regular compensation of members as provided in section six, subject to the approval of the retirement board any member may in writing authorize the treasurer of the city of Worcester to deduct from so much of his regular compensation as is at a rate in excess of forty dollars weekly, but not in excess of sixty dollars weekly, and to deposit in the annuity savings fund in the form of additional regular contributions, five per cent on such amount. If such member shall so request in writing, the board may permit a reduction, suspension or termination of such additional contributions, but no return of such additional contributions shall be made except in the manner provided for return of regular deductions in section sixteen. The amounts deposited to purchase such additional annuity shall be treated as part of the member's accumulated deductions except that in the event of his retirement they shall not be used to increase the pension payable.

Section 6B. In addition to the regular contributions deducted from the regular compensation of members as provided in section six, subject to the approval of the retirement board any member may re-deposit in the annuity

savings fund, by a single payment, or by an increased rate of contribution over a period not to exceed five years and before attaining age sixty, an amount equal to the total amount which he previously withdrew therefrom under section sixteen, with interest thereon. Such member upon re-depositing his accumulated deductions, with interest as provided in this section, shall upon retiring receive credit for all the service represented by the amount so re-deposited, including the benefit of any prior service. This section shall apply to any member who has been reinstated in the service as an employee during the year nineteen hundred and forty, as well as to members thereafter reinstated.

SECTION 3. Said chapter four hundred and ten is hereby further amended by inserting after section nine the following new section:— *Section 9A*. If a member under age sixty ceases to be an employee, through no fault of his own, after this section becomes effective and after having completed not less than twenty years as such an employee, he may, upon his own application or on application made in his behalf, in lieu of receiving his accumulated deductions, receive a retirement allowance to be computed as prescribed in section ten and an additional pension of such an amount as will make his total annual retirement allowance not less than four hundred and eighty dollars; provided, that he has been a contributing member to the Worcester retirement system for a period of not less than ten years before such application is made.

SECTION 4. Paragraph (2) of section ten of said chapter four hundred and ten, as amended by section two of said chapter three hundred and forty-four, is hereby amended by inserting after the word "hundred" in the sixth line the words:— and fifty, — so as to read as follows:—

(2) The sum of the accumulations applied to provide the pensions under (b) and (c) of this section shall not exceed the amount which at age sixty, and in accordance with paragraph (1) (a) of section fifteen is sufficient to provide a total pension of six hundred and fifty dollars; except, that in no case shall the sum of the pensions hereunder exceed an amount which, when added to the annual rate of annuity payable to the member if he had chosen the annuity provided under paragraph (1) (a) of section fifteen, would provide a total retirement allowance of one half the average annual rate of his compensation during the five years prior to retirement, or, if such member resigns or is dismissed prior to the date of retirement, during the five years prior to such resignation or dismissal. For the purpose of determining the maximum retirement allowance under this section, the rate of compensation received by a member on the date immediately preceding a period of absence without pay shall be used as the rate of pay which he would have received during such absence without pay.

SECTION 5. Section thirteen of said chapter four hundred and ten is hereby amended by adding at the end the follow-

ing: — ; and provided, further, that the application for retirement for accidental disability shall have been made in writing to the retirement board not later than two years after the occurrence of the accident, or that such disability is the natural and proximate result of an accident which occurred more than two years prior to such application, which accident was reported in writing to the board or to his department head by the member or a person acting in his behalf within ninety days after the occurrence of such accident, — so as to read as follows: — *Section 13.* Retirement for accidental disability shall be made by the retirement board upon the application of the head of the department in which the member is employed or, of the member or of a person acting in his behalf, stating that said member is physically or mentally incapacitated for the performance of duty as the result of an accident occurring during the performance and within the scope of his duty and, certifying the time, place and conditions of such service performed by said member resulting in such alleged disability, and that such alleged disability was not the result of contributory negligence on the part of said member and that he ought to be retired; provided, that the medical board after examination shall report that said member is physically or mentally incapacitated for the performance of duty as a natural and proximate result of an accident occurring in the performance and within the scope of his duty, and that such disability is not the result of contributory negligence on the part of said member, and that said member should be retired; and provided, further, that the application for retirement for accidental disability shall have been made in writing to the retirement board not later than two years after the occurrence of the accident, or that such disability is the natural and proximate result of an accident which occurred more than two years prior to such application, which accident was reported in writing to the board or to his department head by the member or a person acting in his behalf within ninety days after the occurrence of such accident.

SECTION 2. Whoever owns or operates a line of wires over or under streets or buildings in the town of Brookline shall use only strong and proper wires safely attached to strong and sufficient supports and insulated at all points of attachment; shall remove all wires the use of which has been abandoned; shall properly insulate every wire where it enters a building, and, if such wire is other than a wire designed to carry an electric light, heat or power current,

shall attach to it at a proper point in the circuit, near the place of entering the building, and so situated as to avoid danger from fire, an appliance adapted at all times to prevent a current of electricity of such intensity or volume as to be capable of injuring electrical instruments or of causing fire from entering the building by means of such wire beyond the point at which such appliance is attached; and shall properly insulate every wire within a building designed to carry an electric light, heat or power current.

SECTION 3. Such person shall plainly mark each pole, pier, abutment or other fixture supporting wires or cables containing wires over streets or buildings with the name or initials of the owner of such pole, pier, abutment or other fixture. Wherever cross arms or other appliances for the support of wires or cables belonging to different owners are attached to the same pole, pier, abutment or other fixture, every such cross arm or other appliance shall plainly be tagged or marked with the name or initials of the owner thereof. Wherever wires or cables belonging to different owners are attached to the same cross arm or other appliances for the support of wires or cables, every wire or cable shall be tagged or marked with the name or initials of the owner at or near its point of attachment to such cross arm or other appliance. SECTION 4. Said town shall, by by-law, provide for the appointment by its selectmen of an inspector or inspectors of wires who shall be chosen from or be under the general direction and supervision of such town officer or officers as said selectmen may determine. If more than one inspector of wires be appointed, the duties and responsibilities of such inspectors shall be divided among them as said selectmen may order. Such inspector or inspectors shall supervise every wire over or under streets or buildings in said town and every wire within a building designed to carry an electric light, heat or power current; shall notify the person owning or operating any such wire whenever its attachments, insulation, supports or appliances are improper or unsafe, or whenever the tags or marks thereof are insufficient or illegible; shall, at the expense of said town, remove every wire the use of which has been abandoned and every wire not tagged or marked as hereinbefore required, and shall see that all laws, by-laws, rules and regulations relative to wires are strictly enforced. Said town may recover in contract of the owner of any such wire so removed the expense which it has incurred for the removal thereof.

SECTION 5. The supreme judicial or superior court shall have jurisdiction in equity, upon petition of an inspector

appointed as aforesaid, to enforce sections two to four, inclusive, and to restrain the use or maintenance, or to cause the removal, of any wire, pole or other support erected, maintained or used in violation of any provision of said sections.

SECTION 6. This act shall take full effect upon its acceptance by the town of Brookline by a majority vote of the town meeting members present and voting thereon at a limited town meeting called for the purpose within one year following the passage of this act, but not otherwise.

Said bonds of the company, both as to income and principal, are hereby made exempt from all taxes levied under authority of the commonwealth while held by the district and shall contain a recital to such effect. Said bonds of the company shall not be disposed of by the district without authority of the general court. The proceeds of said bonds of the company shall be used by it only for the purposes hereinbefore set forth.

The district shall have power to prosecute and defend all actions relating to its property and affairs.

SECTION 2. For the purposes aforesaid, the district, acting by and through its board of water commissioners hereinafter provided for, may contract with the metropolitan district commission for a supply of water from the metropolitan water system in the same manner as is provided by section ten of chapter ninety-two of the General Laws for such a supply of water for towns which have not been admitted into the metropolitan water district. If, however, the metropolitan district commission and the department of public health notify said board of water commissioners in writing that it is not feasible for the district to procure a supply of water from the metropolitan water system, the district, acting as aforesaid may contract with the city of Worcester, acting through its water department, for whatever water may be required, authority to furnish the same being hereby granted, and may take by eminent domain under chapter seventy-nine or chapter eighty A of the General Laws, or acquire by lease, purchase or otherwise, and hold, the waters, or any portion thereof, of any pond,

spring or stream, or of any ground sources of supply by means of driven, artesian or other wells, within the town of Charlton not already appropriated for the purposes of a public supply, and the water and flowage rights connected with any such water sources; and for said purposes may take as aforesaid, or acquire by purchase or otherwise, and hold, all lands, rights of way and other easements necessary for collecting, storing, holding, purifying and preserving the purity of the water and for conveying the same to any part of the district; provided, that no source of water supply or lands necessary for preserving the quality of the water shall be so taken or used without first obtaining the advice and approval of the department of public health, and that the location and arrangement of all dams, reservoirs, springs, wells, pumping, purification and filtration plants and such other works as may be necessary in carrying out the provisions of this act shall be subject to the approval of said department. The district may construct and maintain on the lands acquired and held under this act proper dams, wells, springs, reservoirs, standpipes, tanks, pumping plants, buildings, fixtures and other structures including also the establishment and maintenance of filter beds and purification works or systems, and may make excavations, procure and operate machinery and provide such other means and appliances, and do such other things as may be necessary for the establishment and maintenance of complete and effective water works; and for that purpose may construct pipe lines, wells and reservoirs and establish pumping works, and may construct, lay, acquire and maintain aqueducts, conduits, pipes and other works under or over any land, water courses, railroads, railways and public or other ways, and along such ways, in said town, in such manner as not unnecessarily to obstruct the same; and for the purposes of constructing, laying, maintaining, operating and repairing such aqueducts, conduits, pipes and other works, and for all proper purposes of this act, the district may dig up or raise and embank any such lands, highways or other ways in such manner as to cause the least hindrance to public travel on such ways; provided, that the manner in which all things are done upon any such way shall be subject to the direction of the selectmen of the town of Charlton. The district shall not enter upon, or construct or lay any conduit, pipe or other works within, the location of any railroad corporation except at such time and in such manner as it may agree upon with such corporation, or, in case of failure so to agree, as may be approved by the department of public utilities. The district may enter upon any lands for the purpose of making surveys, test wells or pits and borings, and may take or otherwise acquire the right to occupy temporarily any lands necessary for the construction of any work or for any other purpose authorized by this act.

SECTION 3. Any person sustaining damages in his property by any taking under this act or any other thing done

under authority thereof may recover such damages from the district under said chapter seventy-nine or said chapter eighty A; but the right to damages for the taking of any water, water right or water source, or for any injury thereto, shall not vest until water is actually withdrawn or diverted under authority of this act.

SECTION 4. For the purpose of paying the necessary expenses and liabilities incurred under this act, other than expenses of maintenance and operation, the district may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, one hundred thousand dollars, and may issue bonds or notes therefor, which shall bear on their face the words, Charlton Water District Loan, Act of 1941. Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to the provisions of chapter forty-four of the General Laws pertaining to such districts.

SECTION 5. The district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with section four of this act; and, when a vote to that effect has been passed, a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works and the interest as it accrues on the bonds or notes issued as aforesaid by the district, and to make such payments on the principal as may be required under this act, shall without further vote be assessed upon the district by the assessors of said town of Charlton annually thereafter until the debt incurred by said loan or loans is extinguished.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the board of water commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district. All authority vested in said board by this section shall be subject to section nine.

SECTION 7. Whenever a tax is duly voted by the district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of said town, who shall assess the same on property within the district in the same manner in all respects in which town taxes are required by law to be assessed; provided, that no estate shall be subject to any tax assessed on account of the system of water supply under this act if, in the judgment of the board of water commissioners hereinafter provided for, after a hearing, due notice whereof shall have been given, such estate is so situated that it can receive no aid in the extinguishment of fire from the said system of water supply, or if such estate is so situated that the buildings thereon, or the buildings that might be constructed thereon, could not be supplied with water from said system in any ordinary or reasonable manner; but all other estates in the district shall be deemed to be benefited and shall be subject to such tax. A certified

list of the estates exempt from taxation under the provisions of this section shall annually be sent by said board of water commissioners to said assessors, at the same time at which the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of the district. The district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. Any meeting of the voters of the territory included within the boundaries set forth in section one to be held prior to the acceptance of this act, and any meeting of the voters of the district to be held prior to the qualification of a majority of the water commissioners, shall be called, on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace; directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. At any meeting held hereunder prior to the acceptance of this act, after the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by a majority of the voters present and voting thereon it shall thereupon take effect, and the meeting may then proceed to act on the other articles in the warrant. After the qualification of a majority of the water commissioners, meetings of the district shall be called by warrant under their hands, unless some other method be provided by by-law or vote of the district.

SECTION 9. The district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act shall have been accepted, or thereafter, at an annual meeting or at a special meeting called for the purpose, three persons, inhabitants of and voters in said district, to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual district meeting following such next succeeding annual district meeting one such commissioner shall be elected by ballot for the term of three years. The date of the next annual meeting shall be fixed by by-law or by vote of the board of water commissioners, but in no event shall it be later than fifteen months subsequent to the date on which the water commissioners were first elected. All the authority granted to the district by this act, except sections four and five, and not otherwise

specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said water commissioners are first elected and at each annual district meeting held thereafter, the district shall elect by ballot, each for a term of one year, a clerk and a treasurer of the district. The treasurer shall not be a water commissioner, and shall give bond to the district in such an amount as may be approved by said water commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of said water commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by the district at any legal meeting called for the purpose. No money shall be drawn from the treasury of the district on account of its water works except upon a written order of said water commissioners or a majority of them.

SECTION 10. Said board of water commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said water commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said water commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. The district may adopt by-laws, prescribing by whom and how meetings of the district may be called, notified, and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section eight. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, stand-pipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay to the district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be

punished by a fine of not more than three hundred dollars or by imprisonment for not more than one year, or both.

SECTION 13. Upon a petition in writing addressed to said board of water commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district and not otherwise served by a public water supply be included within the limits thereof, and signed by the owners of such real estate, or a major portion of such real estate, said water commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its acceptance by a majority vote of the voters of the territory included within said district by section one of this act present and voting thereon, by the use of a check list, at a district meeting called, in accordance with section eight, within four years after its passage.

Approved July 30, 1941.

Each authorized issue shall constitute a separate loan, and such loan shall be payable in not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to the provisions of chapter forty-four of the General Laws pertaining to such districts.

A certified list of the estates exempt from taxation under the provisions of this section shall annually be sent by said board of water commissioners to said assessors, at the same time at which the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of the district. SECTION 9. Any meeting of the voters of the territory included within the boundaries set forth in section one to be held prior to the acceptance of this act, and any meeting of the voters of the district to be held prior to the qualification of a majority of the water commissioners, shall be called, on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. At any meeting held hereunder prior to the acceptance of this act, after the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by a majority of the voters present and voting thereon it shall thereupon take effect, and the meeting may then proceed to act on the other articles in the warrant. After the qualification of a majority of the water commissioners, meetings of the district shall be called by warrant under their hands, unless some other method be provided by by-law or vote of the district.

SECTION 10. The district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act shall have been accepted, or thereafter, at an annual meeting or at a special meeting called for the purpose, three persons, inhabitants of and voters in said district, to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual district meeting following

such next succeeding annual district meeting one such commissioner shall be elected by ballot for the term of three years. The date of the next annual meeting shall be fixed by by-law or by vote of the board of water commissioners, but in no event shall it be later than fifteen months subsequent to the date on which the water commissioners were first elected. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said water commissioners are first elected and at each annual district meeting held thereafter, the district shall elect by ballot, each for a term of one year, a clerk and a treasurer of the district. The treasurer shall not be a water commissioner, and shall give bond to the district in such an amount as may be approved by said water commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of said water commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by the district at any legal meeting called for the purpose. No money shall be drawn from the treasury of the district on account of its water works except upon a written order of said water commissioners or a majority of them.

SECTION 11. Said board of water commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said water commissioners may recommend, and in case a surplus should remain after payment for such new construction, the water rates shall be reduced proportionately. Said water commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 12. The district may adopt by-laws prescribing by whom and how meetings of the district may be called, notified and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section nine. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 13. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, stand-pipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay to the district three times the amount of damage assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not more than three hundred dollars or imprisonment for not more than one year, or both.

SECTION 14. Upon a petition in writing addressed to said board of water commissioners requesting that certain real estate accurately described therein, located in said town and abutting on said district and not otherwise served by a public water supply be included within the limits thereof, and signed by the owners of such real estate, or a major portion of such real estate, said water commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be a part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 15. This act shall take full effect upon its acceptance by a majority vote of the voters of the territory included within the district by section one of this act present and voting thereon, by the use of a check list, at a district meeting called, in accordance with section nine, within four years after its passage.

AN ACT RELATIVE TO THE SALE OF LANDS OF LOW VALUE *Chap. 594*
HELD BY CITIES OR TOWNS.

Be it enacted, etc., as follows:

SECTION 1. Chapter sixty of the General Laws is hereby amended by striking out section seventy-nine, as most

G. L. (Ter. Ed.), 60, § 79, etc., amended.

Sale without
foreclosure of
lands taken or
purchased by
city or town.

Procedure,
etc.

recently amended by section one of chapter one hundred and seventy-three of the acts of nineteen hundred and thirty-five, and inserting in place thereof the following section: — *Section 79.* After two years from the taking or purchase by a town of any parcels of land for non-payment of taxes, the commissioner may, and on written application of the town treasurer shall, inquire into the value of such parcels and the validity of tax titles held thereon. As a part of such inquiry the commissioner shall, upon written request therefor by any person in interest, hear such person relative to any matter pertaining to such inquiry. If the commissioner is of opinion that such parcels are of insufficient value to meet the taxes, interest and charges, and all subsequent taxes and assessments thereon, together with the expenses of a foreclosure under section sixty-nine, that none of such parcels exceeds one thousand dollars in value, and that the facts essential to the validity of the tax titles on such lands have been adequately established, he shall make affidavit of such finding, which shall be recorded in the registry of deeds for the district wherein the land lies.

The commissioner may require the treasurer to include in his application a statement under the penalties of perjury setting forth such information appearing in the records of the assessors and of the collector and tending to establish the validity of the tax titles on such parcels of land as the commissioner deems meet. The statement so made, or such portion thereof as the commissioner finds pertinent, may be incorporated in his affidavit and, when recorded, shall be prima facie evidence of such facts.

Upon the recording of the affidavit the treasurer may sell all the parcels included therein, severally or together, at public auction to the highest bidder, first giving notice of the time and place of sale by posting a notice of the sale in some convenient and public place in the town fourteen days at least before the sale; provided, that the treasurer at such auction may reject any bid which he deems inadequate. If the sale under this section shall not be made within four years from said taking or purchase, it shall be made by the treasurer for the time being when he deems best, or at once upon service on him of a written demand by any person interested therein. The treasurer shall execute and deliver to the highest bidder whose bid has not been rejected as inadequate a deed without covenant except that the sale has in all particulars been conducted according to law. Such deed shall not be valid unless recorded within sixty days after the sale. Title taken pursuant to a sale under this section shall be absolute upon the recording of the deed of the treasurer in the proper registry of deeds within such sixty days.

If the amount received from the sale is more than the taxes, interest and charges, and subsequent taxes and assessments, on all lands included in the sale, together with the expenses thereof, the balance shall be deposited with the town treasurer to be paid to the person entitled thereto if demanded

within five years, otherwise it shall enure to the town. If such surplus results from the sale of several parcels for a lump sum, it shall be held as aforesaid for the several owners in proportion to the prices at which the several parcels were originally taken or purchased by the town.

SECTION 2. Section eighty of said chapter sixty, as most recently amended by section two of said chapter one hundred and seventy-three, is hereby further amended by striking out the last sentence and inserting in place thereof the following sentence:— Such deed shall not be valid unless recorded within sixty days after the sale under this section; and the title of the town to land conveyed thereby shall be absolute upon the recording of said deed in the proper registry of deeds within such sixty days, — so as to read as follows:

— *Section 80.* If no person bids at such a sale or if no bid deemed adequate by the treasurer is made thereat and if the sale has been adjourned one or more times, the treasurer shall then and there make public declaration of the fact, and if no bid or no bid deemed adequate as aforesaid is then made he shall give public notice that he purchases for the town by which the tax is assessed; or if the person to whom the land is sold does not within ten days pay to the treasurer the sum bid by him the sale shall be void and the town shall be deemed to be the purchaser of the land. If the town becomes the purchaser hereunder, the treasurer shall execute to it a deed which shall set forth the fact that no bid or no bid deemed adequate as aforesaid was made at the sale or that the purchaser failed to pay the amount bid, as the case may be. Such deed shall not be valid unless recorded within sixty days after the sale under this section; and the title of the town to land conveyed thereby shall be absolute upon the recording of said deed in the proper registry of deeds within such sixty days.

SECTION 3. Said chapter sixty is hereby further amended by inserting after section eighty, as amended, the two following new sections:— *Section 80A.* Any person, having a right of redemption or any other interest in the land conveyed or purporting to be conveyed under section seventy-nine or section eighty, upon whom service of the notice of sale provided in said section seventy-nine has been made by registered mail, who, prior to the sale, neither redeems the land nor brings proceedings to enjoin the sale, shall, upon the recording of the deed as required by said section seventy-nine or said section eighty, be forever barred from raising any question concerning the validity of the title conveyed thereby, and a statement contained in the treasurer's deed that such service has been made, naming the persons who were served by registered mail, shall be prima facie evidence thereof.

Section 80B. The holder of a title acquired under section seventy-nine or section eighty, whether acquired before or after the effective date of this section, may file in the land court a petition to establish such title by requiring all per-

sons who would have an interest in the land involved except for either the petitioner's title or his chain of title originating under said section seventy-nine or said section eighty to show cause why they should not bring an action to try any claim or claims which they may have adverse to the petitioner's title arising out of the tax proceedings upon which such title was based. The petition shall set forth on oath the petitioner's source of title, giving a reference to the place, book and page of record of the deed under said section seventy-nine or said section eighty upon which the petitioner relies, the description of the land involved which appeared in the tax deed or instrument of taking upon which such deed under said section seventy-nine or said section eighty was based, the names of all such persons known to the petitioner and such other facts as may be necessary for the information of the court; but the petitioner need not allege in such petition nor show during the hearing thereof any error or irregularity in the tax proceedings upon which such title depends or any other defect in such title. The petition shall be in the alternative praying that such persons be ordered to show cause why they should not bring action to try such claim or claims or, if such persons do not appear within the time fixed or, having appeared, disobey the lawful order of the court to try their claim or claims, that the court enter a decree that they be forever barred from having or enforcing any such claim or claims adversely to the petitioner, his heirs or assigns, in the land described.

Upon the filing of the petition, the court shall notify all such persons of the pendency of the petition, the notice to be sent to each by registered mail and the return of receipt to be required, the addresses of such persons, so far as may be ascertained, being furnished by the petitioner. Such other and further notice by publication or otherwise shall be given as the court may at any time order. The notice, to be addressed "To all whom it may concern", shall contain the name of the petitioner, the names of all respondents named in the petition, the description of the land, and a statement of the nature of the petition, shall fix the time within which appearance may be entered and shall contain a statement that unless the persons notified shall appear within the time fixed that they shall be forever barred from having or enforcing any such claim or claims adversely to the petitioner, his heirs or assigns, in the land described.

The persons so notified shall by answer show why they should not be required to bring an action to try such claim or claims, and the court shall enter an appropriate decree relative to bringing and prosecuting such action. If the persons so notified do not appear within the time fixed or, having appeared, disobey the lawful order of the court to try their claim or claims, the court shall enter a decree that they be forever barred from having or enforcing any such claim or claims adversely to the petitioner, his heirs or assigns, in the land described.

If, as the result of such a petition, the petitioner's title is adjudged invalid by a court of competent jurisdiction because of errors or irregularities in the tax proceedings upon which it was based, the clerk, upon request, shall issue a certificate to that effect. The treasurer of the city or town where the land affected by such title is situated, upon receipt of a release by the holder of said title of all interest which he may have under it, together with such certificate, shall refund to such holder the amount paid therefor but not exceeding the amount received by the city or town.

Notice of filing the petition and notice of the final disposition thereof shall be recorded in the registry of deeds, as provided for in land registration proceedings.

The land court shall have jurisdiction of petitions under this section and, except as herein provided, practice and procedure under this section shall conform as nearly as possible to the land court practice, rules, regulations and procedure under chapter one hundred and eighty-five in so far as the same may be applicable.

Section 18. Whoever without right enters in or upon any building or other structure or any area of land, flats or water, set apart and used by or under authority of the director for conducting scientific experiments or investigations or for propagation or protection of fish, or whoever contrary to regulations fishes in waters so set apart and used after the director has caused printed notices of such occupation and use and the purposes thereof to be placed in a conspicuous position upon any such building or other structure or adjacent to any such area of land, flats or water, and whoever injures or defaces any such building or other structure or any notice posted as aforesaid, or injures or destroys any property used in such experiments or investigations or for such purposes, or otherwise interferes therewith, shall be punished by a fine of not less than fifty nor more than two hundred dollars or by imprisonment for not more than six months.

Removal of illegal obstructions, etc., to spawning grounds.

Maintenance and construction of fishways.

Land takings and damages therefor.

Penalty.

Section 19. For the purpose of providing suitable passage for salt water fish coming into fresh water to spawn, the director or some person thereunto authorized by him in writing, may (1) seize and remove, summarily if need be, at the expense of the owner using and maintaining the same, all illegal obstructions, except dams, mills or machinery, to the passage of such fish, (2) examine all dams and other obstructions to such passage in brooks, rivers and streams, the waters of which flow into coastal water, where in his judgment fishways are needed, and (3) shall determine whether existing fishways, if any, are suitable and sufficient for the passage of such fish in such brooks, rivers and streams or whether a new fishway is needed for the passage of fish

over such dam or obstruction; and he shall prescribe by written order what changes or repairs, if any, shall be made therein, and where, how and when a new fishway shall be built, and at what times the same shall be kept open and shall serve a copy of such order upon the person maintaining the dam or other obstruction. A certificate of the director that service has been so made shall be sufficient proof thereof. The supreme judicial or superior court shall, on petition of the director, have jurisdiction in equity or otherwise to enforce any such order and to restrain any violation thereof.

Before the director makes any such order for the construction of a new fishway, as provided in this section, upon any stream or portion of a stream not in coastal waters, he shall in writing notify the director of the division of fisheries and game of such proposed order, together with plans for such proposed construction, and said last mentioned director shall within ten days after receiving such notice, if he desires to object to such construction, in writing request a hearing before the commissioner, whose decision on the matter shall be final.

If the owner of such dam or obstruction refuses or neglects to repair or construct a fishway after written order therefor has been received from the director, the director may after such time as he may deem sufficient enter with workmen and material upon the premises of such person required to construct or maintain such fishway and may at the expense of the commonwealth, if in his opinion such person is unable to afford such expense, otherwise at the expense of such person, improve an existing fishway or cause one to be constructed if none exists and may, if necessary, for such purpose, take, by due process of law, the land of any other person who is not obliged by law to maintain such fishway. If a fishway has been constructed in accordance with an order of the director as provided in this section no alteration thereof shall be required within a period of five years after such construction.

All damages caused by taking land hereunder shall, upon the application of any party in interest, be recovered from the commonwealth under chapter seventy-nine. The amount so recovered shall be a charge against the person required by law to construct and maintain such fishway and shall be recovered in contract in the name of the commonwealth, with costs and with interest at the rate of six per cent per annum.

Any person maintaining any such dam or obstruction who refuses or neglects to keep open or maintain a fishway at the times prescribed by the director shall be fined fifty dollars for each day or part thereof of such refusal or neglect.

The director shall determine all matters relating to the operation and maintenance of all fishways constructed for the passage of anadromous fish, including the time and method of opening and closing thereof, in such manner as will, in his opinion, give adequate protection to such fish

passing to or from the coastal waters, and shall prescribe the same by written order. For the protection of any such fishway and the fish using the same, he may set aside a certain area adjacent to the fishway and may prohibit all persons from fishing or entering, or both, within such boundaries by posting notices thereon to that effect, giving a description of the bounds thereof: provided, that the area so set aside shall not extend for a distance of more than one hundred yards from any such fishway; and provided, further, that the prohibition of entrance into such area shall not deny to the owner or other lawful occupant of the property on which the fishway is built or maintained the right of reasonable access to or passage through such area for the necessary care of such property; and provided, further, that such closing and prohibition shall not interfere with the lawful operation of any special fishery established therein. Whoever violates any provision of this section, or of any order of the director under authority thereof, or hinders the passage of fish through such fishways, or molests or disturbs the fish therein, shall be punished by a fine of not more than fifty dollars or by imprisonment for not more than thirty days, or both.

Director to assist, etc., in increasing supply of shellfish and exterminating the enemies thereof.

Section 20. The director shall assist and co-operate with coastal cities and towns for the purpose of increasing the supply of shellfish and exterminating the enemies thereof within their borders, and for this purpose may expend such sums as may be appropriated therefor. The expenditure of any funds so appropriated shall be apportioned by the director among said coastal cities and towns in such amounts as will, in his opinion, effect the greatest amount of relief and assistance to the shellfish industry; provided, that no money shall be expended hereunder in any such city or town for the purpose of such relief or assistance unless such city or town, within one year prior to the date of such expenditure, shall have expended an amount equal to at least one fourth of the total cost of such work, or shall have contributed services or material of a value, as determined by the director, equal to such proportion. The work of increasing the supply of shellfish and exterminating the enemies thereof in coastal cities and towns aided hereunder shall be done and expenditures therefor shall be made in such manner as the director may determine and in accordance with rules and regulations which the director shall make with respect thereto, which rules and regulations he is hereby authorized to make and enforce.

Director to keep statistics, etc., on marine fisheries.

Section 21. The director shall devise a system of statistical information useful to the marine fish industries of the commonwealth and shall compile information obtained thereunder. He may require for such purpose the attendance of witnesses and the production of books and documents, and may examine witnesses on oath; and such witnesses shall be paid the same fees as in civil actions in the courts. He shall prepare from time to time and distribute bulletins and reports embodying statistical and other information relative

to marine fisheries. He shall also assist and co-operate with local authorities in the promulgation of rules and regulations for the protection and conservation of fish.

Pollution of Coastal Waters.

Section 22. If the director determines that any marine fisheries of the commonwealth are of sufficient value to warrant the prohibition or regulation of the discharge or escape of sawdust, shavings, garbage, ashes, acids, oil, sewage, dye-stuffs, or other waste material from any sawmill, manufacturing or mechanical plant, or dwelling house, stable or other building, which may, directly or indirectly, materially injure such fisheries, he shall by a written order sent by mail to or served upon the owner or tenant thereof prohibit or regulate the discharge or escape therefrom of any or all such injurious substances into the coastal waters. Such order shall take effect in ten days after its date and may be revoked or modified by the director at any time. Before any such order is made the director shall, after reasonable notice to all parties in interest, give a public hearing in the county where the sawmill, manufacturing or mechanical plant, dwelling house, stable or other building to be affected by the order is located, at which hearing any person shall be heard. Upon petition of any party aggrieved by such order, filed within six months after its date, the superior court may, in equity, after such notice as it deems sufficient, hear all interested parties, and annul, alter or affirm the order. If such petition is filed by the party aggrieved within ten days after the date of said order, said order shall not take effect, unless such petition shall be dismissed, until altered or affirmed as aforesaid. Whoever, in violation of any order of the director, of which such person has had due notice hereunder and which has taken effect, or in violation of any order of said court made hereunder, discharges from such plant or building under his control any of the aforesaid materials, the discharge of which therefrom is forbidden by such order, or suffers or permits the same to be discharged or to escape from such plant or building, into any coastal waters, shall be punished by a fine of not less than fifty nor more than five hundred dollars or by imprisonment for not more than one year or both.

This section shall not apply to operations of the United States or the commonwealth, or of a political subdivision thereof, nor to operations authorized or permitted thereby, nor to the use of explosives for raising the body of a drowned person.

Double damages for causing damage to fisheries.

Section 24. Whoever, contrary to any provision of section twenty-two or twenty-three, himself, or by his agent or servant, does, or allows or suffers to be done, any act causing damage to the fisheries therein named shall be liable in tort, in twice the amount of damage thereby done, to the city or town wherein such damage occurs on account of any injury to the public fisheries within its limits, and to any person having fishery rights therein on account of any injury to his private fishery rights.

Discharge of sewage regulated.

Section 25. The entrance or discharge into the coastal waters, or the tributaries of such waters, of sewage or any other substance which might be injurious to the public health or might tend to contaminate any shellfish areas or shellfish therein which may be determined by the director to be of commercial value, or injuriously affect the fisheries therein, is hereby prohibited; provided, that this section shall not be deemed to interfere with the exercise of any right of drainage which had been approved by the department of public health prior to January first, nineteen hundred and forty-two, or with any drainage thereafter approved by said department; provided, that before granting such new approval the commissioner of public health shall have consulted with the director as to the value of the marine fisheries involved.

Jurisdiction of courts.

Section 26. The supreme judicial court or any justice thereof, and the superior court or any justice thereof, shall have jurisdiction in equity to enforce sections twenty-two, twenty-three, twenty-four and twenty-five. Proceedings to enforce the same may be instituted and prosecuted by the attorney general at the request of the commissioner.

Penalty.

Section 27. Whoever, contrary to section twenty-five permits the entrance or discharge into or on any part of said coastal waters, or the tributaries of such waters, of sewage or any other substance injurious to the public health or tending to contaminate any shellfish area or shellfish therein, or injuriously to affect the fisheries therein, shall be punished by a fine of not less than fifty nor more than five hundred dollars or by imprisonment for not more than one year or both and shall be liable in tort, in twice the amount of damage thereby done, to the city or town wherein such damage occurs, on account of any injury to the public fisheries within its limits, and to the owners or lessees of any private rights therein, on account of any injury to their private fishery rights.

Riparian Proprietors.

Section 28. The proprietors of lands upon which a pond is created and maintained by excavating and enclosing the same and by the artificial flowing of same with coastal waters, for the purpose of cultivating and maintaining fish thereon, shall have the exclusive right to cultivate and the exclusive ownership and control of, all fish thereon or therein, whether artificially or naturally propagated; provided, that no fish determined by the director to be injurious may be cultivated or maintained thereon or therein, and that no fish may be taken therefrom of a size, of an age, at a season, or for a purpose, prohibited by law; and provided, further, that before any such excavation shall be made plans for an artificial flowage of the same with coastal waters shall be approved by the director and the department of public works.

Rights of riparian owners protected.

Section 29. The aldermen or city council of a city or the selectmen of a town lying upon coastal waters may, in writing, and upon blanks, supplied by the director, authorize any person to construct weirs, pound nets or fish traps in tide-water in locations where no harbor lines exist and also in locations beyond established harbor lines, within the limits of such city or town, for a term not exceeding five years, upon such conditions and subject to such regulations as the aldermen, city council or the selectmen may impose; but no authority so given shall be valid unless approved in writing as to location and construction by the department of public works and the director, and subject to such conditions as it and he may impose; nor until such authorization, together with such approval, has been filed with the director.

Construction of weirs, etc., authorized.
Procedure, etc.

Section 30. Any person who constructs or maintains any weir, pound net or fish trap after having received written approval therefor as provided in section twenty-nine shall at all times while such structure is maintained have the same plainly marked with the number of such approval painted or printed on a sign or flag in figures at least six inches in height and conspicuously displayed on the inshore and off-shore ends of such structure. Violation of the provisions of this section shall be punished by a fine of not more than twenty-five dollars.

In lieu of said annual report the director may require such owner to submit a monthly report of such facts listed herein as the director may deem advisable. Such owner shall apply to the director for such blank forms. Any wholesale or retail dealer who sells, offers or exposes for sale or has in his possession any smelt between the said dates must have in his possession a tag or bill of lading or other paper showing that such smelt was taken from waters outside the commonwealth, and the possession of a smelt between said dates by a person other than a wholesale or retail dealer holding such a certificate shall be prima facie evidence of violation of this section.

Section 35. Whoever takes or attempts to take a smelt in any other manner than by angling shall be punished by a fine of not less than ten nor more than fifty dollars and shall in addition thereto forfeit one dollar for each smelt if any so taken, but this section shall not apply to smelt inadvertently taken in a seine or net during the time and in the manner in which fishing is allowed for perch, herring or alewives; provided, that such smelt so taken shall be immediately liberated alive in the waters from which taken.

Smelt to be
taken only
by angling.
Penalty.

Possession of any net, seine, trap or device for catching fish, other than a naturally or artificially baited hook, in or upon the harbors, rivers or tributaries of the commonwealth, or on the banks of the same, if adapted to and apparently intended for the present catching of smelt, shall be prima facie evidence of a violation of this section and the possession in or upon said harbors, rivers or tributaries, or on the banks of the same, of any fresh smelt, between sunset and sunrise, or under other circumstances reasonably indicating the catching of the same otherwise than by angling, shall be prima facie evidence that said smelt were caught or intended to be caught contrary to such provisions by the person in whose possession they are found.

Section 36. any coastal city or town may in any year, upon payment of the fee required by this section, obtain a license to take lobsters or edible crabs during June, July, August and September of such year, for consumption only by the licensee and his family who are so residing. Each applicant for a license under this section shall state the color scheme or other special markings of the buoys desired to be used by him, which, if approved by the director, shall be set forth in his license, and all buoys used by him shall be marked accordingly, and all buoys, pots, traps, and lobster cars used by him shall be marked with the licensee's initials or name or the number assigned to him by the director, which shall be branded or cut into the surface thereof. A licensee under this section shall at all times, while acting in pursuance of his license, exhibit it upon the demand of any officer qualified to serve criminal process, and upon failure so to do shall be punished by a fine of five dollars. The director shall state in his annual report the number of licenses granted under this section.

Section 39. No person shall tend, lift, raise or draw a lobster or crab pot or trap, or take lobsters or edible crabs from such a pot or trap, except during the period from one half hour before sunrise until one half hour after sunset, except that traps may be taken up by the owner or by his employee or agent, if licensed under section thirty-eight, at any time when they are endangered by storms, and except that the director, a coastal warden or deputy may at any time lift, raise or draw such pot or trap with its contents, if any, for the purpose of inspection provided in this chapter. Section 41. Whoever takes, sells or has in possession any female lobster bearing eggs or any female edible crab shall be punished by a fine of not less than ten nor more than one hundred dollars, or by imprisonment for not less than one nor more than three months; but a person who takes any such lobster or crab and immediately returns it alive to the waters from which it was taken shall not be subject to such penalty. This section shall not apply to lobsters spawning in fish cars or pounds if they are immediately liberated alive in the coastal waters, nor to the taking, sale or possession of lobsters as provided in section forty-three.

Plants for
propagation
of lobsters.

Section 42. The director shall, to the extent of appropriation or appropriations therefor, establish and maintain a plant or plants for the propagation of lobsters by rearing them from the time of hatching to the bottom crawling stages. Lobsters from which the eggs are to be obtained for such hatching and rearing shall be taken and disposed of in accordance with section forty-three. The commissioner, in his biennial budget estimates, filed pursuant to section three of chapter twenty-nine, shall include a statement of appropriation or appropriations recommended by him for the purpose of carrying this section into effect.

Penalty.

Section 43. Between March first and October thirty-first, both dates inclusive, in any year, the director may authorize the taking, sale or possession of egg-bearing lobsters by any person licensed under section thirty-eight to catch or take lobsters and edible crabs, upon the condition that such egg-bearing lobsters (1) shall be taken, held or delivered in accordance with the instructions of the director to a plant for the propagation of lobsters established and maintained for rearing them from the time of hatching to the bottom crawling stages or to a federal plant maintained within the commonwealth for the same purpose, (2) or shall be otherwise disposed of as the director may deem for the best interests of the commonwealth, and persons taking such egg-bearing lobsters under such authority shall be paid by the director to the extent of the appropriation or appropriations therefor but at a rate not above the wholesale market price of other lobsters. Before any such egg-bearing lobster is so disposed of by liberating, it shall be marked by the director or his authorized agent by punching a double V notch in any except the middle flipper of its tail. Any person having in possession any such lobster so marked or any lobster mutilated in such manner as to hide or obliterate such mark, shall be punished by a fine of not less than fifty nor more than two hundred dollars or by imprisonment for not more than thirty days, or both; but any person catching any such lobster so marked or mutilated and immediately returning the same to the waters from which taken shall not be deemed to have violated the foregoing provisions of this section. If the eggs from the lobsters so obtained shall be hatched the young therefrom shall be reared to the bottom crawling stages. Lobsters from which eggs have been so hatched, and the young lobsters so reared, shall be liberated, as nearly as possible, in the areas from which such egg-bearing lobsters were obtained and in the same proportion. Nothing in this section shall be so construed as to prevent the director from otherwise disposing of lobsters from which eggs have been so removed, or young lobsters so reared, when in the opinion of the director by so doing depleted or non-productive areas may be benefited. The commissioner in his biennial budget estimates, filed pursuant to section three of chapter twenty-nine, shall include a statement of appropriation or appro-
